SECTION E — NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

Mr. Zambernardi joined the Photographic Support Division in January 1958 with no photographic experience. Mr. Zambernardi has progressed very rapidly in his newly chosen field during the past year by taking an active interest in his on the job training and by displaying considerable initiative in learning new methods and techniques. Mr. Zambernardi is supplementing his agency training by completing a correspondence course in photography given by the New York Institute of Photography. In relatively short time, Mr. Zambernardi has developed into a valued asset to this division.

Because of his brief background in photography, Mr. Zambernardi lacks some confidence in performing his duties. The undersigned feels confident that this will remedy itself as more experience is gained.

MEMORANDUM FOR THE RECORD

SUBJECT : Retirement - **Tennent H. Bagley**

1. The retirement of Subject, effected as a result of a memorandum from the Head of his Career Service stating that he is surplus to the needs of the Service and that his retirement will be recommended to the Director under the provisions of the CIA Retirement and Disability System pertaining to involuntary retirement, in no way implies an adverse action. Subject signed an application for retirement of his own volition in order to qualify for an immediate retirement annuity. The liberalized criteria for such separations was established by the Agency to parallel similar actions under the Civil Service Retirement System in accordance with FPM Letter No. 831-23, dated 10 December 1969.

2. Any inquiry received concerning the nature of the separation of Subject from the Agency should be confirmed simply as a retirement.

MEMORANDUM FOR : Tennent H. Bagley

SUBJECT : Involuntary Retirement Under the CIA Retirement and Disability System

1. This will confirm a previous discussion with you concerning the problem of a surplus in your career service of on-duty strength in relation to new reduced ceiling and the consequent need to effect a reduction in personnel. At that time you indicated your willingness to assist your career service in reaching its reduced personnel ceiling by accepting involuntary retirement.

2. Accordingly, and in order to establish the necessary conditions for involuntary retirement under CIARDS, I have determined that you are surplus to the needs of your career service and will recommend your retirement to the Director, effective 30 June 1972.

3. I urge you to contact the Retirement Affairs Division, Office of Personnel, where every effort will be made to provide whatever information and assistance you may need in preparing for your proposed retirement.

SUBJECT : Recommendation for Promotion to GS-17 - Mr. Tennent H. Bagley

1. It is recommended that Mr. Tennent H. Bagley be promoted to GS-17. He has been in grade as GS-16 since June 1965 and has served as COS in Brussels since August 1967. His previous assignment was as Deputy Chief, SB Division.

2. The reasons for this promotion are amply covered in my fitness report of this same date. I have just returned from an extensive trip through the European area, during which I had a chance to see and talk with a very large number of officers under both official and non-official cover. Pete Bagley is one of two whom I am recommending for promotion as a result. He is one of our very finest station chiefs, possessed of imagination, intellect and ability personally to handle operations which very few of his colleagues can match. He is one of those on whom the future of the Organization is going to depend, and I believe that the promotion is more than justified.

MEMORANDUM FOR: Mr. Robert W. Sheay
Secretary

SUBJECT: Mr. Tennent H. Bagley
Promotion to GS-17

1. Mr. Bagley was promoted to GS-16 on 6 June 1965. At that time he was Chief, CI Group, SR Division. On 1 September 1965 he was appointed Deputy Division Chief, SR Division. As his fitness reports attest, his performance in that position was outstanding and when in May 1966 the Soviet Bloc Division was created he was named Deputy Division Chief of the new Division.

2. There is little that need be added to previous fitness reports in my evaluation of Mr. Bagley's current performance. It continues to be that of a dedicated and gifted officer whose energies and extensive substantive knowledge make a vital contribution to one of the top priority programs of the Clandestine Services. Much more important, in considering Mr. Bagley for promotion to the next level of the supergrades, is his potential for additional growth and responsibility. He would be capable now of taking charge of a field station, particularly one with special opportunities for work against the Soviet Bloc and the Chinese targets. With time (he is forty-one) he will be capable of assuming the senior position in any division or staff in the CS. He is clearly one of the outstanding officers in our service.

SUBJECT : Appointment of a Clandestine Services Career Trainee Selection Board

1. A Clandestine Services Career Trainee Selection Board (hereafter called The Board) is hereby appointed, composed of the following officers:

Robert Anderson - Member
Tennant Bagley - Member
Bruce Cheever - Chairman
Lewis Lapham - Member
Edward Ryan - Member

2. The Board will review all files and assessments of CTs who have finished the Operational Familiarization Course, and who are candidates for admission to the Clandestine Services. The Board will interview each candidate and, after due deliberation, will either accept or reject the CT for service in the Clandestine Services. Rejection by The Board will preclude the attendance by the CT at the Operations Course. CT's so rejected will be turned back to the CIA Office of Personnel for disposition.

a. Attempt to determine the CT's motivation and suitability for service in the CS.

b. Evaluate the CT's training to date based on his record in the Introduction to Communism, Agency Orientation, Introduction to Intelligence Techniques and the Operational Familiarization Course. If the CT has served in an attached capacity with one of the Staffs or Divisions upon completion of the OFC, the assessment of that Staff or Division on the CT's performance and potential will be taken into consideration on his overall evaluation.

c. Review the CT's assessment by the A & E Staff.

SECRET

d. Attempt to determine the following:

(1) The CT's willingness to serve overseas as directed by the CS.

(2) The mobility and suitability of the CT's family, if any, ~~for~~ overseas service.

(3) What future does the CT foresee for himself in the CS. Where does he want to go; where does he think he is going.

(4) Any reservation the CT may express or imply as to his participation in the Special Operations Course.

(5) Such other items as The Board may consider relevant in the interview of specific candidates.

e. Prepare a Memorandum of Record expressing the opinion of The Board and any observations or recommendations The Board may wish to record on its interview of the CT. Such M/R will become a part of the permanent file of the CT.

4. The Board will meet beginning on April 13, 1966, in Room 3-C-28, for half days, and will continue until all CT's are interviewed. The Chairman may call for such additional sessions as are necessary to complete The Board's work.

5. DDP/TRO will act as Secretary to The Board and will be responsible for coordination with OTR to ensure the presence of the CT's for the interview and that appropriate assessment records in the hands of OTR are available to The Board.

6. CSPS will provide administrative support to The Board, and will ensure that CT's now attached to the Staffs and Divisions are present for the interview and

that the assessment by the Staffs and Divisions is available to The Board.

MEMORANDUM FOR: Mr. Robert W. Sheay
Secretary
Clandestine Services
Career Service Board

SUBJECT: Tennent H. Bagley
Promotion to GS-16

1. Mr. Bagley is without question among the best qualified of the senior officers in SR Division and is also one of the most competent counterespionage officers in the Clandestine Services as a whole. Few have had his preparation or his experience in the Soviet Bloc aspects of this field. After entering on duty in 1950 he was assigned to the Vienna Station where for five years he worked directly on operations against the Soviet intelligence elements concentrated there. When he returned to Headquarters, he supervised the CE Section of the Polish Branch, EE Division when a combination of defectors and penetrations of the Polish services made this job one of the most demanding of any in the Clandestine Services. In his next overseas assignment in Switzerland, he evolved techniques of operational analysis of Soviet intelligence residencies which form the backbone of the system we are using today. While in this post he participated in an operation involving a major penetration of the Polish intelligence service which also had enormous significance for our efforts against the Soviets. Just prior to his departure from Switzerland, he handled one of the most complex and challenging Soviet CE operations ever encountered by our service.

2. In 1962 he was appointed Chief of SR Division's CE element. Under his direction the CE effort of the Division took on entirely new dimensions. Because of Mr. Bagley's marvelous combination of CS experience, substantive knowledge and enthusiasm, the SR/CI Group has become one of the most effective and highly motivated units in the Division. The Group has developed a high level of substantive specialization which it applies to CS coverage of the Soviet intelligence services throughout the world. At the same time, a large percentage of the Group's best officers have been committed full time to a special operation of great value and significance. The ability of

SR/CI to absorb this workload stems not only from Mr. Bagley's capacity for professional guidance but his effectiveness in leading and inspiring those under him.

3. Mr. Bagley's record to date reveals a high degree of specialization in counterespionage yet it would be misleading indeed to conclude that his professional interests and potential are confined to this field. His contributions to the broader problems of Soviet operations have been invaluable particularly in the way in which he has suggested new techniques for attacking the Soviet target abroad.

4. I consider Mr. Bagley an outstanding officer to whom the Clandestine Services will turn for the exercise of still greater responsibilities in the future. He is fully qualified for promotion to GS-16. I urge that he be promoted now in recognition of the work he has done so far and the potential he possesses for a productive career at the top level of Clandestine Services officers.

Chief, SR Division

SUBJECT: DODS-Sponsored Orientation Program for Contact Division Field Officers

I wish to express my appreciation for your participation in our training program at Warrenton from 23-27 September 1963. On balance, this program, which was designed to familiarize OO/CD personnel with the general mission of the Clandestine Services and the particular problems of DODS, went very well.

Your presentation stood out as one of the highlights of the program and received unanimous commendation from the OO/CD officer-trainees. Your able exposition on a most important subject contributed heavily to the success of the program and is indeed much appreciated.

TENNENT H. BAGLEY

SPECIFIC— Recommendation for Promotion - [redacted]

1. Subject joined KUBARK in July 1950. He was given the Staff Orientation, and the Basic and Advanced Operations courses prior to his arrival at VOB in June 1951. After a period of agent handling and technical work in the operations support field, Subject was made Chief of the Counter Espionage Section for the Mission in November 1952, a position which he has held until his very recent reassignment to the Soviet Section. Following Home Leave, he began his second tour here in September 1953. Subject joined the Mission as a GS-9, was promoted to GS-11 on 26 April 1953.

2. Subject was given a rather long apprenticeship in Vienna before he was called upon to set up the CE Section. During this orientation period he was exposed to a variety of intelligence problems, including technical surveillance, photography, secret writing, and documentation, the handling of two American deep cover agents, the training and mounting of an Hungarian border crosser, and the direction of an Austrian double agent. As Chief of the Counter Espionage Section, Subject's responsibilities included the supervision and training of its personnel, the direction and coordination of its activities, and the setting up of procedures for namechecking, carding, file research, and the maintenance of CE and central personality files. Subject was personally responsible for CE analysis as directed by the Chief of Operations. Subject's activity has been restricted to the Soviet CE picture, which we consider a major operational effort of this Mission.

3. Subject's interest and enthusiasm in his work, his attention to duty, and his ability to obtain results have been outstanding attributes in his performance here, and have resulted in his becoming thoroughly familiar with the CE problem in Austria. He has done exceptionally well on a variety of operations, giving each of his cases a maximum amount of planning, and demonstrating an unusual grasp for details. He has read widely in case files, and now possesses a better than average counter-intelligence background. Subject has a good working knowledge of German, which he has learned from scratch here, and he has built up a remarkable knowledge of this area. He was quick to learn the techniques of basic tradecraft, which had enabled him to teach junior case officers and to instruct in the tradecraft seminars held at VOB. His staff guidance in certain double agent cases has increased considerably their value to this Mission. Written reports turned in by Subject have been excellent, displaying forcefulness, fluency, and lucidity, as well as the essential brevity. He has a forceful personality and is unusually successful in agent handling.

MEMORANDUM FOR: EE/Personnel

SUBJECT: Promotion Recommendation - Tennent E. Bagley

1. We recommend herewith that Tennent E. Bagley, incumbent of slot BC-216 on the T/O of EE/P be promoted from GS-12 to GS-13.

2. Mr. Bagley is one of the best all around operations officers the undersigned has ever worked with, and evinces in all matters he has been concerned with a deep and mature understanding of intelligence operations and a deep sense of responsibility and integrity. He has, since joining EE/P, been Chief of the CE Section, supervising the work of a staff of five, some of whom are of equal rank with Subject and have been concerned with Agency Polish matters for many years. Mr. Bagley organized his section in a most efficient and tactful manner and succeeded in turning the work of his subordinates into channels of real value to the Branch, a job requiring no mean diplomacy and patience.

3. As a supervisor and as an operations officer Mr. Bagley has distinguished himself while at this Branch in a manner which clearly calls for his advancement to a grade which would only be commensurate with the extent of his responsibilities and his singular abilities to carry them out.

BAGLEY, Tennent Harrington - #38638

1. Reference is made to your memorandum of 7 April recommending to the Director of Central Intelligence approval of the request made by Mr. Bagley for permission to remain in the employ of the Agency following his marriage to Miss Maria Lonyay.

2. This is to report that the Deputy Director of Central Intelligence has approved Mr. Bagley's request subject to the conditions contained in a MEMORANDUM FOR THE RECORD dated 18 May 1955, a copy of which is attached.

MEMORANDUM FOR THE RECORD

The request of Tennant Harrington Bagley for permission to remain employed by this Agency after marriage is approved subject to the following:

1. Subject's immediate supervisor will be notified by cable to counsel with subject regarding the serious effect the marriage will have in impairing what otherwise appears to be an outstanding career with this Agency. Subject, although young, has demonstrated exceptional ability and great promise and has been promoted well ahead of others of his age bracket. Based upon his actions to date, it would appear subject might ultimately expect to attain a position of considerable importance and responsibility in this Agency, if no inherent limitations develop. The proposed marriage places such a limitation on the use of subject, not only in particular parts of Europe, but in Headquarters as well. Certain clearances required of high level employees of the Agency will be difficult to obtain if this marriage is contracted, and the limitations on the type of assignments which will be available to him will not enhance his career development.

2. After receiving this counsel and giving it consideration, if subject continues in his desire to marry and contracts the marriage, he will be removed from Austria as soon as he can conveniently arrange for his spouse's visa. Following the marriage, he shall be withdrawn from the more sensitive elements of the Station's business.

SUBJECT : BAGLEY, Tennent H. (#37637), Area Operations Officer, GS-13, EE Division, Request for Permission to Remain in the Employ of the Agency After Marriage to an Alien

1. It is recommended that Mr. Bagley's request to remain in the employ of the Agency after his marriage to Maria Lengyel, an Austrian citizen, be approved.

2. This recommendation is based on the following factors after consideration of this request by the Clandestine Services Career Service Panel:

a. Mr. Bagley has served effectively with the Agency since July 1950. He has demonstrated unusual ability in his field assignments and is regarded as an extremely valuable career officer.

b. The limitation which this proposed marriage would place on Mr. Bagley's use in his current assignment would be minimal since his normal tour of duty in Austria will expire in September of this year.

3. The security aspects of this proposed marriage have been referred to the Office of Security for its separate recommendation.

Following Home Leave, he began his second tour here in September 1953. Subject joined the Mission as a GS-9, was promoted to GS-11 on 26 April 1953.

2. Subject was given a rather long apprenticeship in Vienna before he was called upon to set up the CE Section. During this orientation period he was exposed to a variety of intelligence problems, including technical surveillance, photography, secret writing, and documentation, the handling of two American deep cover agents, the training and mounting of an Hungarian border crosser, and the direction of an Austrian double agent. As Chief of the Counter Espionage Section, Subject's responsibilities included the supervision and training of its personnel, the direction and coordination of its activities, and the setting up of procedures for namechecking, carding, file research, and the maintenance of CE and central personality files. Subject was personally responsible for CE analysis as directed by the Chief of Operations. Subject's activity has been restricted to the Soviet CE picture, which we consider a major operational effort of this Mission.

3. Subject's interest and enthusiasm in his work, his attention to duty, and his ability to obtain results have been outstanding attributes in his performance here, and have resulted in his becoming thoroughly familiar with the CE problem in Austria. He has done exceptionally well on a variety of operations, giving [illegible] amount of planning, and demonstrating an unusual grasp for details. He has read widely in case files, and now possesses a better than average counter-intelligence background. Subject has a good working knowledge of German, which he has learned from scratch here, and he has built up a remarkable knowledge of this area. He was quick to learn the techniques of basic tradecraft, which had enabled him to teach junior case officers and to instruct in the tradecraft seminars held at VOB. His staff guidance in certain double agent cases has increased considerably their value to this Mission. Written reports turned in by Subject have been excellent, displaying forcefulness, fluency, and lucidity, as well as the essential brevity. He has a forceful personality and is unusually successful in agent handling.

4. A mature appearance,

4. A mature appearance, an especially mature manner, and an excellent social presence have enabled Subject to move freely in the local scene. We consider him an extremely valuable senior case officer, and recommended unanimously that he be promoted to GS-12 at a recent meeting of the Promotion Board.

GROOVY/ORBOUNCE BAGLEY, TENNENT H.

1. [redacted] joined KUBARK in July 1950 and arrived at this Mission on the 15th of June 1951 as a GS-9.

2. Since his arrival [redacted] has continually showed himself as a great asset to the Mission. After a period of technical work and agent handling, [redacted] was made chief of the Counter Espionage Section for the Mission in November 1952. He has done an excellent job in organizing this section and in handling and training the four persons whom he supervises.

3. Upon his arrival in Vienna, [redacted] knew little German. He has now mastered the language to such a degree that he can handle German speaking agents. His handling of Grabysm 1 and Leland D. Slaughter has been outstanding in that by carefully training these agents he increased considerably their value to this Mission. In addition, [redacted] has an excellent grasp of basic tradecraft which enables him to perform his functions with great efficiency and to teach these tradecrafts to the junior members of his section. [redacted] is one of the regular instructors in the Vienna Operations Base tradecraft seminars. [redacted] has shown an unusual social ability in Vienna, a quality which has done much to help him move freely in the local scene. His duties frequently call for large quantities of written work, and he has proven himself able to handle this speedily and with clarity of expression.

4. [redacted] is a very promising case officer, and at a meeting of the Mission Promotion Board was unanimously recommended for promotion to GS-11. It is with great confidence that I submit his name to Headquarters for this action.

FROM: FDM

SUBJECT: Tennent H. Bagley

Mr. Bagley has been recalled to active duty as a First Lieutenant in the Marine Corps with effective date 11 December 1950. The order is by letter MC-1243761 of Headquarters U. S. Marine Corps, Washington, D. C., dated 3 November 1950 and addressed to his home in La Jolla, California (copy attached). Since Mr. Bagley is on duty in Washington, he did not receive the order until 13 November 1950.

Mr. Bagley was employed by this Agency on 24 July 1950 as a Research Analyst assigned to the Advisory Council. Since reporting for duty, he has been in the Training Courses and will complete the Advanced Operations Course on 1 December 1950. During this period, however, it has been agreed that his qualifications could best be utilized as an Intelligence Officer in Germany, and the papers are now in requesting his transfer to FDM for that purpose.

Request that Mr. Bagley's deferment from recall to active duty with the Marine Corps be arranged on the grounds that his work in the Training Courses has shown him to be unusually well qualified for intelligence work in Germany and that men of his caliber and background are still badly needed by the German Station. If this deferment can be arranged, he will be sent to Germany as a GS-9 Intelligence Officer at the earliest opportunity.

Mr. Tennent H. Bagley, currently Chief of Station, Brussels, is recommended for the Intelligence Medal of Merit in recognition of his outstanding service of 22 years as a Clandestine Services officer.

For personal reasons Mr. Bagley has elected to retire effective June 1972.

From the beginning of his CS career, Mr. Bagley's exceptional abilities were clearly recognized and he received assignments of ever increasing responsibility in the Soviet operations field. Following a highly successful tour as a senior operations officer in Switzerland, Mr. Bagley was assigned to Headquarters as Chief of the Counter Intelligence Branch of the SR Division. In this key and demanding post, Mr. Bagley showed managerial skill combined with knowledge in depth of the complexities of counter intelligence work. His outstanding performance resulted in his promotion to GS-16 in June 1965 and his subsequent appointment as Deputy Chief of SR Division in September 1965 the comparatively young age of 39.

In addition to the full duties as Deputy Chief of an active division, Mr. Bagley continued to carry heavy responsibilities throughout this period in the field of counter intelligence. He was one of

the key officers responsible for the direction and control of some of the most sensitive operations then being conducted by the Clandestine Services. He carried out his responsibilities with skill and discretion, and the ability to stand up under repeated periods of heavy pressure.

In recognition of his excellent service as Deputy Chief SR, Mr. Bagley in March 1967 was assigned as Chief of Station, Brussels, a major target area of Soviet espionage due to the presence of NATO and European Community Headquarters.

In the past five years as Chief of Station, Brussels, Mr. Bagley has been an effective Station Chief who has been particularly successful in the field of liaison. He established a unique relationship with the Chief of the Belgian Internal Security Service which has greatly facilitated the over-all operational activities of the Brussels Station. This relationship successfully underwent its strongest test at the time of the defection of a GRU officer in Brussels in October 1971 and the subsequent worldwide propaganda exploitation of his disclosures.

Under Mr. Bagley's direction Brussels Station has concentrated heavily on the Soviet target and has been a major test area for the non-official cover concept for operations.

Mr. Bagley's entire career has been characterized by the consistent excellence of his performance in each assignment of increasing responsibilities that he has undertaken. He is recognized as one of the top Soviet operations specialists in the Clandestine Service and has spent the bulk of his twenty-two year career working in the most sensitive and complex areas of intelligence work. We regret his decision to retire for personal reasons and the loss of his experience and expertise to the Clandestine Service. It is strongly recommended that in recognition of his outstanding service to the Clandestine Service in positions of critical and demanding responsibility Mr. Tennent H. Bagley be awarded the Intelligence Medal of Merit.

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT : Tennent H. Bagley, GS-16, Employee Number 056043, DOB: 11 November 1925; Chief of Station; Career; Service Designation: D.

PERIOD UNDER REVIEW : 1 April 1970 - 31 March 1971

MONTHS UNDER MY SUPERVISION: 42 months

OVER-ALL RATING : Strong

1. As Mr. Bagley completes approximately 42 months as Chief of Station, Brussels, progress in Brussels remains uneven. An aggressive attack against the Soviet target has been undertaken by a portion of the Station. Liaison has been exploited to a degree unparalleled in other European Stations. However, there has been a rather frustrating lack of major progress on the part of the NOC component of the Station. While a number of factors have contributed to these results, Mr. Bagley's style of leadership has undoubtedly been a major one.

2. Mr. Bagley has few peers in his ability to investigate and define a Soviet target, and to design mechanisms capable of assaulting this target. The research of this target under his close supervision has been impressive, and the mechanisms designed to support contemplated operations and to keep the target under constant review have been functionally designed. Some impressive achievements have resulted from these efforts but, at the same time, overall progress has been disappointing:

A. The non-official cover component of Brussels Station, consisting of 10 operations officers, 2 support officers and 4 other personnel, is only now taking a form which would permit its effective deployment, but its gains in organizational readiness are threatened by the possible loss of leadership which, in turn, stems at least in part from failure of Mr. Bagley clearly to delegate both responsibility and authority to the key individuals involved in this unit.

MAY 1971

B. The physical divisions within the official component of the Station have separated personnel and files in a manner which makes close teamwork against the target difficult. These divisions could and should have been corrected.

C. Mr. Bagley has not always seen eye-to-eye with Headquarters on matters of method and emphasis, a phenomenon which has impaired operational progress. We accept that each Station Chief has the right -- indeed, the duty -- to hold independent views and to express them with integrity (as Mr. Bagley has done), but believe that differing views could have been resolved more easily had Station reporting to Headquarters been less parsimonious.

3. To sum up, Mr. Bagley's abilities to conceptualize and to build viable models is truly outstanding, as is the exhaustively thorough manner of his staff work; his capability to translate his concepts into productive human endeavor has been less impressive. In spite of his considerable social and diplomatic skills, Mr. Bagley is essentially a reserved person who finds some difficulty in communicating with his subordinates.

4. In spite of the problems noted, problems which we perhaps overstress as a result of our high expectations, Brussels Station has made good progress during this period and Mr. Bagley's performance has been STRONG.

COMMENTS on Fitness Report on Tennent H. Bagley
1 April 1970 - 31 March 1971

I agree with the fitness report's own suggestion that the "problems" it noted were overstressed: its negative content outweighs the positive by nearly three to one and is emphasized by its format and sentence structure. Because its overall effect belies the "Strong" rating, I believe that it creates a misleading picture, and therefore think it necessary to comment. Moreover, the report leaves the impression of a general failing in two specific areas which I am sure it did not intend to, since these are two areas which, during the two years since the preceding fitness report, have been repeatedly praised by Division management: 1) the level of operational activity at this Station ("his capability to translate his concepts into productive human endeavor has been less impressive") and 2) the development of a NOC facility ("frustrating lack of major progress on the part of the NOC component").

The report could usefully have made more precise its implication that I have not created a satisfactory amount of productive human endeavor by my concepts and plans. When I took over this Station I inherited about 10 valid unilateral assets. We have since added at least 80 new ones, of whom about 40 remain particularly productive and promising and at least 25 more continue to be useful, sometimes necessary, informants or action types. Most if not all of these new assets were spotted and recruited in direct response to my planning and concepts. I have thus more than quintupled the Station's assets and its capability to respond to the varied directives and requests it receives. The high rate of acquisition of new assets has remained generally constant throughout the period since the preceding fitness report. Perhaps the current fitness report questions the "productivity" of those assets; this is of course debatable, but can be properly judged only in terms of our designated objectives. We were directed to establish contact with Soviets and assess them, with a view to their eventual recruitment. When I took over, this Station had access of one sort or another to perhaps four Soviet officials; we have built to the point where we now have contact and are providing assessments through unilateral assets alone on nearly 40 Soviets currently here (more, I would suspect, than any other station in the world) not to mention some 20 other Soviets covered by liaison operations at least partly stimulated by us, and not counting the many who have left PCS during this period. Going beyond assessment, we have taken concrete steps toward recruitment of a number of Soviet and Bloc officials (offers, hints, pressures, etc., directed through our assets), we have recruited several employees of Soviet installations in Brussels and Antwerp, and we have made at least one significant Bloc recruitment.

The assessments provided by our numerous assets on a large proportion of the local Soviets have permitted us to find and to focus more realistically (i.e., with some degree of hope) on the few promising targets. We have so focussed, although, as the report says, in this there have been differences with Headquarters on method and emphasis. But these differences were largely a matter of semantics, and they have not impaired operational progress: I cannot think, nor have I been told at any time, of a single specific thing left undone against any target Soviet because of the Station's method and emphasis.

In addition to our steady progress in the Soviet field, we have so built up our local capabilities that we can and do respond (to what I am told is an unusual degree) to requests of other components of the CS, and in doing so we are using largely agents recruited during my tenure and according to my plans. We provide and backstop cover for FE operations in the Far East; we recruit participants for LCPIPIT organizations; we provide live addresses for other divisions' operations; we actively support, by action and propaganda, worldwide psych programs; we send agents, sometimes in response to book-cable requests, to fulfill organization missions in (for example) Biafra, Saigon, the South Sudan, Paris and Tokyo; we recruit support agents for the use of other stations in their areas; we handle agents in other areas on behalf of other stations; we use our assets to spot and introduce people useful for other stations. We do this without diminishing the rate of acquisition of new assets directed at our primary objectives. This human endeavor does not seem unproductive.

The second general area in which the fitness report leaves the impression of general inadequacy concerns our NOC activity. The NOC structure I created (and whose strengths, like the shortcomings referred to in the report, are due largely to my "style") has repeatedly been called an innovative ground-breaking experiment. During the past year the Division has sent COS's and officers from other stations to Brussels to study and, presumably, to emulate applicable parts of it. This structure was created since the preceding fitness report, but the present one mentions only a "lack of progress" (which is moreover not defined and is not clear even to me: What is "progress on the part of a NOC component"?) If progress or lack of it is represented by the number of cases turned over to NOC handling, then it is worth noting that this Station works on the principle, not accepted everywhere, that all cases will be handled by NOC officers unless there are overriding reasons to the contrary. So far we have turned over some 35, another 15 turnovers are imminent, and others are delayed only because turnover to NOC now would be premature and potentially damaging. Since we have had to spot and recruit every source which could be turned over to NOC handling, it might be forgiven that we have not yet provided full case loads to ten active NOC officers, most of whom arrived at about the same time a year and a half ago. We are trying hard to produce new sources, while at the same time reducing the excessive number of NOC officers. If "lack of progress" means that our experimentation with different modes of communication, command, and administration of NOC units has not yet developed a final form or doctrine, the comment is valid, but our very active experimentation continues to identify false avenues as well as to reveal promising perspectives; in this we have been encouraged by the Division. We have, also, managed to keep our NOC officers' morale quite high (more so than elsewhere, I am told by LPGLOBE people), have kept them busy and productive, and have integrated them into the Station, without loss of security, to a degree I think unmatched elsewhere. Among the ways we have done this are by grouping them together and delegating authority to a NOC unit chief (although the report says that I have failed to delegate authority properly), and by assigning them their own areas of operational responsibility and having them do the Station's operational planning in those areas. This has been productive: it has identified promising areas of possible action which have led to recruitments, and has eliminated less promising areas, thereby avoiding waste motion on the part of the Station as a whole.

The last six lines of paragraph 2A of the fitness report are unclear to me. If the "possible loss of leadership" of the NOC component refers to the impending retirement of its chief, this is manifestly not due to any failure to delegate to him responsibility and authority; he never in his long career had nearly as much of either as he did during my tenure here; he retired because he reached the age of 50, beset by family problems and facing a change ~~in his~~ cover job, and this in the face of repeated and recent failures to be promoted despite having spent more than 10 years in grade.

The report states 1), that physical divisions within the official Station made close teamwork difficult; 2), that I could and should have corrected them. This is erroneous on both counts. The Station, under my direction and that of fifteen years of my predecessors, had to occupy this allotted space, divided because there were two different cover organizations and not enough space in the Embassy. I am not aware that this division has significantly affected the performance of any Station officers or programs as long as I have been here. As to what space assignments would best promote teamwork (i.e., who should sit where), I have given thought to this since my first week at this Station, and am convinced (despite musings about this or that alternative) that we have had no choice better than the present arrangement. Most recently, however, I have approved our part of a general shifting of Embassy space allocations which will finally reunify the Station after its long separation.

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT	: Tennent H. Bagley, GS-16, Employee Number 056043, DOB: 11 November 1925; Chief of Station; Career; Service Designation: D.
PERIOD UNDER REVIEW	: 1 April 1969 - 31 March 1970
MONTHS UNDER MY SUPERVISION	: 24
OVERALL RATING	: Outstanding

1. For this reporting period Mr. Bagley must be rated as Outstanding for the achievements of his Station, achievements in very considerable measure due to his personal vision of how to mount a broad attack against the Soviet target. This vision is an unconventional one, not duplicated anywhere else in Europe, but it is undeniably producing results in terms of an understanding in depth of the activities of the Soviet representation in Belgium and of the character of a number of its individual members.

2. Mr. Bagley has developed a relationship with the chief of the principal liaison service in Belgium of such nature that this service is for practical purposes an arm of Brussels Station. Through this relationship, the Station is able to exercise a large measure of control over that service's requirements, selection of targets and mode of operation. Needless to say, this has been of very great help in pursuing Agency's goals in Belgium.

3. Although Mr. Bagley has not yet been completely successful in the organization of his complement of non-official cover personnel, his innovative approach has resulted in enormous progress over the past year, and I have good reason to believe that, with the implementation of certain measures which he and I recently discussed, he will be getting much more out of his NOC people than any other station chief in Europe.

4. I was also impressed on my most recent visit, during the last part of April 1970, with what seemed to be an improved

13 MAY 1970

communication between Mr. Bagley and his subordinates, both inside and outside of the official cover installation. Pete Bagley's intellectual capabilities tend to outstrip those of most of his colleagues, but it does seem to me that he has dealt with this problem well and has thus been able to engender loyalty and cohesion among the members of his Station.

SUBJECT : Recommendation for Promotion to GS-17 - Mr. Tennent H. Bagley

1. It is recommended that Mr. Tennent H. Bagley be promoted to GS-17. He has been in grade as GS-16 since June 1965 and has served as COS in Brussels since August 1967. His previous assignment was as Deputy Chief, SB Division.

2. The reasons for this promotion are amply covered in my fitness report of this same date. I have just returned from an extensive trip through the European area, during which I had a chance to see and talk with a very large number of officers under both official and non-official cover. Pete Bagley is one of two whom I am recommending for promotion as a result. He is one of our very finest station chiefs, possessed of imagination, intellect and ability personally to handle operations which very few of his colleagues can match. He is one of those on whom the future of the Organization is going to depend, and I believe that the promotion is more than justified.

I cannot of course comment on the professional aspects of the Chief CAS's performance because of the highly specialized nature of his responsibilities.

However as a member of the Country Team I give him the highest marks for his cooperative spirit, courtesy and willingness to contribute to the success of our common efforts and undertakings.

Likewise I am satisfied that he maintains exceptionally close and effective relations with the appropriate Belgian officials.

Endowed with an unusually frank and attractive personality, the Chief CAS is a respected and well liked member of our official American group in Belgium, both in American and local circles, where his fluent and excellent French is much appreciated.

His wife is a refined, quiet and attractive lady of Austrian birth. Both have gone through an agonizingly long and grave health problem with a young son of theirs and deserve extraordinary credit for the courage and dignity which they constantly displayed during their ordeal.

In every respect, I consider him to be an outstanding CAS Station Chief.

PERIOD UNDER REVIEW : 10 March 1968 - 31 March 1969

MONTHS UNDER MY SUPERVISION: 12

OVERALL RATING : Strong

1. Mr. Bagley assumed his duties as Chief of Station on 13 September 1967. It is too early to assess the results of his stewardship; he established in advance a timetable for building up a structure of unilateral agent assets, and it is not yet clear to what extent these assets are going to be productive against major targets. However, there is no doubt that Bagley has tackled his job with originality, energy, and enthusiasm. A good indication of these qualities is that, alone among our European Chiefs of Station, Bagley has himself recruited at least half a dozen new agent assets in less than two years.

2. Bagley's accomplishments must be measured in light of the fact that he has had a weak Deputy Chief of Station, and that several of the officers in his small Station have been of quite modest calibre. The restaffing of the Station which is taking place this summer should result in a considerable leap forward.

3. On the personal side, Bagley has all the qualities which we could ask for in a Chief of Station. He is totally dedicated, incisive and articulate, a pleasant companion and a gracious host. I rate his overall performance as Strong.

Chiefs of Station Seminar No. 11 — 19 - 30 June 1967
80 hours, full time

Office : DDP/EUR
Year of Birth: 1925
Service Designation: D
Grade : GS-16
No. of Students : 12
EOD Date : July 1950

COURSE OBJECTIVES, CONTENT AND METHODS

The COS Seminar is aimed to prepare prospective Chiefs and Deputy Chiefs of Station and Chiefs of Base for field assignments. Emphasis was upon the difficulties confronting Chiefs of small or medium-sized installations, since they must handle a peculiarly wide range of problems. Included were case studies serving to remind outgoing chiefs of various operational approaches and techniques, but more time was devoted to policy, coordination, management, reporting, and administrative responsibilities of the Chief of Station, both within CIA and in the government at large, at home and abroad. Special attention was given to counterinsurgency.

The bulk of the course is given in lectures and question periods conducted by officials responsible for the missions, functions, programs, and services discussed. A few key items of suggested reading are included, and bibliographies of suggested reading tailored to the individual's assignment are offered for those who want them.

ACHIEVEMENT RECORD

Mr. Bagley's performance over the period continued to be outstanding. This was his first full year as general deputy during which he still retained responsibility for a major, sensitive counterintelligence complex. Nevertheless, during my frequent absences, Mr. Bagley was called upon to act for me and he did so most effectively. Those aspects of his work involving decisions on expenditures of both funds and manpower show him to be sufficiently cost conscious yet this is tempered by a better than average awareness of the operational value to the Agency (or lack thereof) of such expenditures. Mr. Bagley has been selected to become COS of a large European station with excellent potential for Soviet Bloc operations. In my view, this appointment is additional testimony of the high regard in which he is held by his professional colleagues. In recognition of his outstanding work in SB Division, Mr. Bagley has been recommended for promotion to GS-17.

SUBJECT: BAGLEY, Tennent H.
Deputy Chief, SB Division, DDP
DOB 11-11-25, GS-16, SD:D
Employee Serial Number - 056043

From the beginning of the reporting period until 9 September 1965, Mr. Bagley continued as Chief, Counterintelligence Group, SR Division. Mr. Bagley was then appointed Deputy Chief, SR Division and has remained in that position. He has served as Acting Division Chief on several occasions including a period of two months in 1965 when I made an extensive visit to FE Division stations.

In Mr. Bagley's previous position as Chief, Counterintelligence Group, he completed the establishment of this group as an effective mechanism for providing support and direction to CS operations against the Soviet Intelligence Services. His imprint can be seen in the functional organization of the various branches of the group which now enables us to concentrate on those aspects of KGB and GRU operations which are essential to the comprehensive and aggressive program we have underway to penetrate these key Soviet targets. I have been particularly impressed by Mr. Bagley's ability to relate the goals of these operational programs to the capabilities of his subordinates. In fact, his appreciation of their strengths and weaknesses enabled him to place the very best of his officers in key positions in the CI Group where for the most part they remain today. Their performance is still characterized by the high sense of discipline and professionalism imbued in them by Mr. Bagley during his service as their chief. I have also been struck by the spirit of loyalty permeating this group even though Mr. Bagley's associates were often driven at a pace which would have severely tested the supervisor/subordinate relationship in most other units. At the same time, he afforded the senior officers of the CI Group every opportunity for the exercise of initiative and imaginative leadership at their own levels. On the other hand, he has little patience with the "time server" who is not prepared to exert himself either to acquire by self study the background he should have to do his job properly or if he has the background to use it effectively in his work.

Moving into the responsibilities of deputy division chief, Mr. Bagley has demonstrated to my satisfaction that he was the best possible choice for this position. He has easily mastered those substantive areas of the division's work with which he had no previous association or encountered only occasionally as Chief, CI Group. This is especially true of the reports and requirements area and of certain collection activities.

Mr. Bagley's performance in the position of deputy chief has indeed been outstanding. I would accord him particularly high marks for the energy and enthusiasm he has displayed in shaping and expanding the training and orientation programs conducted by the division as one means of conveying to CS officers outside the division some understanding of the Soviet target and our methods of operating against it. Mr. Bagley continues to be sensitive to costs whether one is speaking of funds or man-hours. He does not lightly undertake the expenditure of either. My very positive evaluation of Mr. Bagley's potential for senior leadership in the Clandestine Service has not changed. He is a magnificent intelligence officer whose keen intellect and rapidly growing appreciation of the "art of the possible" mark him as one of the best officers in our service. It is my intention to recommend him for promotion at an early opportunity.

Mr. Bagley still occupies the position described in his last fitness report of 30 April 1964. The quality of his performance continues to be outstanding in all respects including cost consciousness. He has been recommended for promotion to GS-16. This recommendation should receive early consideration. Manner of performance of managerial or supervisory duties must be described if applicable.

Although I have known and worked closely with Mr. Bagley many times over the past ten years, this is the first time he has served directly under me. This experience has confirmed my belief that he is without question one of the most gifted counterintelligence officers in the Clandestine Services. The past several months have seen many changes in the organization of the SR Division and in its operational responsibilities. It should be noted that Mr. Bagley perhaps more than any other officer in the division contributed heavily to the broad concepts and ideas which took final form in the new organization and the operating instructions which were accepted in the Clandestine Services as a basis for an expanded effort against the overall Soviet target. At the same time he produced a number of specific plans and directives pertaining to the conduct of our operations against the Soviet intelligence services. These directives are representative of the depth of his experience in this field for they cover problems ranging from the often neglected but absolutely essential problem of collecting and recording data on Soviet intelligence officers to a highly imaginative program for increasing our level of contacts with such officers. In whatever he has undertaken in this regard, the quality of imagination is probably the most outstanding but his work would not be as effective as it is were it not for his amazing fund of knowledge concerning the Soviet intelligence services, their personnel, organization and operations, and just as important, awareness of the level and nature of the western counter intelligence effort.

BAGLEY, Tennent H.

SECTION C (Continued)

This substantive background lends a quality of toughness and realism to his work as a planner and supervisor which is matched by very few others in the Clandestine Services.

As a supervisor, Mr. Bagley distinguishes himself by the ability he has to be immensely interested in the details of his subordinates' operations while at the same time leaving to them sufficient freedom of decision and action to carry out their programs without undue interference. He retains control over a large element (there are four branches and 53 employees in the group) and several first class senior subordinates by virtue of their respect for his competence and substance. More important, he infuses them with the same sense of dedication and deep enthusiasm for his work he himself possesses.

In his position Mr. Bagley also handles certain sensitive operations directly. All of the qualities of imagination, penetrating insight, energy and professional knowledge which can be seen in his work as a supervisor are present in his case work. He has also demonstrated that he is a superb agent handler with a fresh, common sense approach to tradecraft problems. I have also seen him display a constant readiness to sacrifice his own comfort, leisure and private affairs to the demands of the operational situation. He is not long discouraged in the most difficult circumstances and his natural optimism, alert mind and special kind of clan work constantly to discover new avenues of approach to whatever operational problems he faces.

I would describe his cost consciousness by noting that it is simply foreign to his nature in both a personal and professional sense to use funds thoughtlessly. He has demonstrated that he considers the expenditure of operational funds must be related to a commensurate gain in terms of our operational objectives.

SECTION C NARRATIVE COMMENTS APR 1

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Mr. Bagley is an exceptionally skilled officer in the CE field. His knowledge of the Soviet intelligence services is almost unique in the Agency. After accomplishing the assigned task of reorganizing his Branch into a streamlined and operationally active unit, Mr. Bagley is now in the process of actively directing the planning and implementation of an aggressive effort on a world-wide basis against the Soviet intelligence services. Although in his present position only four months he has shown considerable imagination and initiative. He carries out his managerial duties in a proficient manner. He does however tend to avoid necessary but perhaps unpromising tasks. Inclined to be intolerant of those who do not meet the high standards he sets for himself, Mr. Bagley can be uncompromising in professional matters to the detriment of his relationships with others.

COMMENTS OF REVIEWING OFFICIAL

This employee is a dedicated and hard-driving operational specialist whose performance in the field on his last tour is well known and respected in the highest Clandestine Services levels. His services were sought after by this Division as Chief of its CI Branch. He was instructed to reorganize and redirect the Division's CI effort and to reorganize the Branch into an aggressive operational unit. He has tackled this with his characteristic aggressiveness and competence and has done extremely well in this undertaking. He has perhaps not paid as much attention to "channels and chains of command" as he should but I believe he understands the importance of a little more tolerance along these

With specific reference to the performance ratings, I would rate this employee as "S" on Specific Duty #1, "S" on Specific Duty #2, and "S" on Specific Duty #5. I would assign this employee an overall rating of "S".

ATTN: David E. Murphy

FROM: Chief of Station, Bern

SUBJECT: Memorandum in Lieu of Final Fitness Report on Tennent Bagley

1. will be leaving Bern Station permanently, with reassignment to Headquarters on 5 September 1962. During his four and a half years here his performance has been highly professional and consistently outstanding. His absence will be keenly felt by the Station.

2. Endowed with a high degree of intelligence, judgment, imagination and operational skill, and with fluent French, German and useful Russian, he has worked in every aspect of Station endeavor, ranging from the proper organization of Station records and the planning of operations to the assessing and successful recruiting and running of agents.

3. In his primary responsibility as Station CE and Sovsat referent, has made unique contributions to KUBARK's approach to and knowledge of the field of Soviet and Polish CE, including the detection and monitoring of RIS illegal networks, and he has played a significant role in almost every major operation conducted by the Station over the last four years. His work has been repeatedly commended by Headquarters.

4. Though ' natural bent is in the field of CE, in which he excels, he has acquitted himself equally well in other areas of Station activity. He is particularly adroit at the analysis, planning and management of operations and, from time to time, has supervised all Station operational activity with superior executive ability. His contribution to the development of Station liaison, through inquiries, follow-ups and special studies prepared to stimulate the local service to action in KUBARK's behalf, has been indispensable and unquestionably an important factor in the growth of Swiss-KUBARK liaison.

The most outstanding all-around officer in the Station, has been producing consistently at a level above his present grade. He has been recommended for promotion repeatedly, the last time on 6 October 1961. Subject is a thoroughly professional intelligence officer endowed with a high degree of intelligence and ability to concentrate. He is imaginative and skilled. A rapid, accurate and purposeful worker, he is a good writer and an articulate speaker. Though his natural bent is in the CE field, in which he excels, he has also demonstrated ability and accomplishments in other areas of Station activity. He is particularly adroit at the analysis, planning and management of his operations. His contribution to the Station liaison take (through inquiries, follow-up and special studies he has prepared to stimulate liaison to action in KUBARK's behalf) has been outstanding and has been a vital factor in stepping up the pace of Swiss-KUBARK liaison. Subject tends at times to avoid necessary but unpromising Station chores and at times is intolerant of those who do not meet the very high standards he sets for himself. These are minor flaws in an otherwise superior officer with outstanding potential.

1. Subject is an exceptionally strong Case Officer in terms of initiative, imagination and skill. His greatest assets are a thorough understanding of intelligence techniques, native intelligence and the ability to apply both to operational situations. He is a rapid, accurate and purposeful worker with unusual powers of concentration, a good writer and articulate speaker. Although reasonably versatile, he has become a specialist in the CE field, for which he seems particularly well suited by natural talent and personality. Most of his work in his current position has required analysis, coordination and "desk" management of operations rather than actual agent handling and his performance in dealing with some fairly complex operational situations has been superior in every respect. He has used his [redacted] cover intelligently.
State Dept

2. By virtue of his intellectual capacity and intense interest in his work, Subject's potential for further development must be rated high. However, he should attempt to bring more flexibility and understanding into his relations with others. His views tend to be very positive and sometimes are argued with more vigor than tact. These are minor weaknesses in an otherwise exceptionally promising officer.

SECTION IV

This section is provided as an aid in describing the individual. Your description is not favorable or unfavorable in itself but acquires its meaning in relation to a particular job or assignment. The descriptive words are to be interpreted literally.

On the left hand side of the page below are a series of statements that apply in some degree to most people. On the right hand side of the page are four major categories of descriptions. The scale within each category is divided into three small blocks; this is to allow you to make finer distinctions if you so desire. Look at the statement on the left - then check the category on the right which best tells how much the statement applies to the person you are rating. Placing an "X" in the "Not Observed" column means you have no opinion on whether a phrase applies to an individual. Placing an "X" in the "Does Not Apply" column means that you have the definite opinion that the description is not at all suited to the individual.

DIRECTIONS. Stress strengths and weaknesses, particularly those which affect development on present job.

The high ratings given Mr. Bagley are given in full consciousness of their uniqueness in this Division. Mr. Bagley's all-around competence, his professional integrity, devotion to duty, his thorough grasp of clandestine operations and particularly his comprehension of CE matters and Soviet and Satellite intelligence services are of the highest order and, in my opinion, therefore deserve this type of recognition.

Mr. Bagley can be impatient with the less gifted, intolerant of bureaucratic necessities, or uncompromising in professional matters. These traits are listed here not to detract from his professional competence or personal qualities, but to indicate that his supervisory talents are not yet fully developed. Mr. Bagley speaks fluent French and German.

4. COMMENTS CONCERNING POTENTIAL
Mr. Bagley's potential as a Clandestine Services operations officer is limited only by his relative youth and symptoms such as occasional impatience and doggedness. His intellectual gifts and professional competence are beyond question and qualify him for any operational job within DD/P in due course.

SECTION V

A. WHAT ARE HIS OUTSTANDING STRENGTHS? A brilliant young man, devoted to his work. A superior reporter with outstanding memory and analytic facilities. A perceptive and alert case officer. Works hard, writes well and easily. Keeps on top of his work and reporting to an unusual degree. Adapts easily to overseas life and has considerable charm and social presence. Speaks very useful German and fluent French.

B. WHAT ARE HIS OUTSTANDING WEAKNESSES?
Lack of team spirit. Impatience with the less gifted. Difficulty delegating responsibility. These weaknesses add up to a certain intellectual and social snobbery which could, if continued, unnecessarily restrict Subj's horizons in the broadest aspects of possible future assignments. They will have little effect on his operational brillianc but will not enhance his ability to pass on his experience to others, or to supervise and guide them. Experience over the last couple of years indicates that he will need assistance in this and his failings, minor tho they may be, should regularly be brought

SECTION V

A. WHAT ARE HIS OUTSTANDING STRENGTHS? Basic brain power, ambition, determination, organizational ability, education, area knowledge, language ability, social poise, experience, agressiveness. Writes extremely well, effectively presenting complicated material. Deeply interested in his work, anxious to learn more about it. Has unusually thorough grounding in tradecraft. Understands "policy" aspect of operations--relationships with other agencies, etc--to much greater degree than others his grade and experience.

B. WHAT ARE HIS OUTSTANDING WEAKNESSES? Subj accepts responsibility, but sometimes fails to carry on with it; he has great charm when interested in using it, but has had increasing difficulties in relationships with office staff because of impression he gives of own importance. Tends to blame circumstance for personal failure to follow through on assignments effected by personal relations. Wants to be in "inner circle" and tends to sulk when he feels he is not, or when things do not go entirely to his satisfaction.

1. Subject is a brilliant young intelligence officer. He is unusually intelligent, quick and perceptive. He writes forcefully, organizes his material well and has an excellent manner and presence. He is vitally interested in his work and has made a systematic study of it, particularly of the counter espionage aspect. He is well read and has an unusually good grasp of politics and has an excellent background in history. He has travelled in Europe considerably and has lived abroad (on his own hook) much of his adult life. In Vienna, he has learned German well.

2. Subject's weaknesses, which because of his outstanding ability and promise are rather magnified in this assessment, lie mainly in his occasionally faulty human relations. Subject rejects much of the social life which is customarily associated (although not necessarily for the best) with Kubark field posts. His interests, aside from his work, are primarily intellectual and artistic. These interests, coupled with his at best pro forma fulfilling of the customary Kubark social protocols, definitely weaken his relationship with the rest of the staff.

3. Subject comes from a service environment and was himself a Marine officer when very young. This early environment and training has, probably without Subject's being aware of it, caused him to expect of others a devotion to duty and self discipline which is rarely to be found. These high standards have caused Subject to discount to some degree the abilities of the clerical staff and, to a lesser degree, other junior personnel.

4. A second weakness probably results from Subject's consistently successful career. He has, without any effort on his own part, frequently if not invariably found himself closely associated with "management" and regarded by the "management" as being unusually talented. This has caused him to expect his work to receive special attention which is not always warranted. When this does not happen, he tends to pout.

5. There is no question in the writer's mind but what Subject would be an outstanding addition to any office in the Agency. He has, as far as can be seen now, an unlimited growth potential. His minor faults will correct themselves with maturity and increasing experience.

23 September 1953

1. Subject has completed a two-year tour at VOB and after home leave has returned here for another two years. Initially assigned to VOB under Embassy cover, Subject has now transferred to D/A civilian cover. Since his arrival in Vienna, Subject has come through a rather long apprenticeship wherein he was exposed to a variety of intelligence problems, including the organization of counter-intelligence files, the handling of two American deep cover agents, the training and mounting of an Hungarian border crosser, and the direction of an Austrian double agent. At this time, Subject is head of the Mission CE section. He has organized that section efficiently and has arranged the expeditious handling of routine CI problems. He is now prepared to undertake more creative CE work.

2. Subject has a notably orderly mind, unusual intelligence, and a remarkable interest in his work. He is able to handle a variety of tasks at one time. Although Subject has had a variety of agent-handling experience, unfortunately, he has not had the opportunity to handle many agents. We intend to correct this in the next few months by having him handle a series of operations during the developmental stages. We believe this will give him the experience and depth necessary to support his already good theoretical knowledge. Subject is extremely well disciplined personally. Unfortunately and unrealistically, he sometimes expects other persons to have similar self-discipline. He also tends in other ways to disregard the human elements ever present in intelligence operations. However, there is no question in my mind but that additional experience will cure both of these very minor faults.

3. I have every reason to believe that Subject will be ready for important operational assignments either in Washington or in the field after another two years of field experience.

At the close of one year in the field, Subj has shown every indication of becoming an outstanding case officer. Subj gives each of his operations a maximum amount of fxx planning and pays unusual attention to details. If Subj continues to develop as he has in the past, and after additional experience in agent handling, he will be ready for increased executive responsibilities, along the line of Deputy Operations chief, within a year.

AGREEMENT

AGREEMENT made this 24th day of May, 1951, effective the 25th day of May, 1951, by and between the United States of America (hereinafter referred to as the Government), as represented by the Central Intelligence Agency, and Tennent H. Bagley (hereinafter referred to as the Employee).

RECITALS

A. The Government desires the services of the Employee for CIA under circumstances requiring the Employee to receive a Foreign Service Staff Corps designation from the Department of State and proposes to send the Employee overseas to Vienna, Austria for operations in the general area of ______________.

B. The Employee desires as an employee of the Government to serve CIA abroad under the supervision and control of the Assistant Director for Special Operations, CIA, (ADSO) and is willing to accept a designation in the Foreign Service Staff Corps with the obligations thereof.

In consideration of the premises, the mutual covenants and promises herein contained, and for other good and valuable considerations, the parties hereto agree as follows:

ARTICLE I. Relationship of Employee to the Department of State. The Employee, in so far as possible, shall abide by all the rules, regulations, and customs of the Foreign Service of the United States which affect personnel of the Foreign Service Staff Corps in order to appear as a normal member of the Foreign Service establishment.

1. The Employee shall rigidly comply with the provisions of Title X, Part A of the Foreign Service Act of 1946, prohibiting officers and employees of the Foreign Service from:

(a) Wearing uniforms;
(b) Accepting presents from foreign governments;
(c) Engaging in business abroad;
(d) Correspondence on affairs of foreign governments;
(e) Political, racial, religious, or color discrimination.

2. The Chief of the Foreign Service establishment and certain other key members of his staff will know about the employee's status and relationship under the terms of the TOP SECRET agreement between the Department of State and CIA. Other personnel may discover that there are certain irregularities in travel orders, position numbers, pay accounts, and other internal administrative procedures of the Foreign Service. Nevertheless, the Employee shall not divulge his relationship to CIA except with the expressed approval of the ADSO. While serving abroad, he shall for normal administration be under the control of the Chief of the Foreign Service establishment to which he is attached, but for operations, including travel as specified below, he shall be under the control of CIA.

3. The travel of the Employee shall be governed as follows:

(a) For temporary duty outside the continental limits of the United States within or beyond the Employee's stipulated area, he shall perform CIA operational travel as directed by the ADSO or his designee with the consent of the Chiefs of the Foreign Service establishment involved. TDY travel customary and necessary in the performance of routine Foreign Service Staff functions may be performed without clearance from the ADSO.

(b) For any travel to the United States, either temporary duty or permanent change of station, the Employee shall travel only at the direction of the ADSO after clearance has been arranged through the State Department in Washington.

(c) All travel will be directed and performed in accordance with Foreign Service rules and regulations.

4. Although the Employee's Foreign Service Staff Corps title, location, appointment, Foreign Service class, and other pertinent information may be published in the Foreign Service list and other publications of the Department of State, such listings shall not affect his employment and the obligations and duties stipulated in this contract.

5. All payments to be made under this contract, including reimbursement for travel expenses, shall be made to the Employee by the Department of State except payments referred to in ARTICLE II, Section 4.

ARTICLE II. *Relationship of Employee to CIA.* Although for all intents and purposes it will appear as though the Employee is employed by the Department of State as indicated in ARTICLE I above, he shall in fact be employed by and under the operational control of CIA. In so far as possible, he will be expected to abide by the rules, regulations, customary practices, and courtesies of the Foreign Service, but his ultimate responsibility will be to CIA. In the event of any conflict of authority in the field between the Department of State and CIA, the matter shall be referred to the ADSO for resolution.

1. The line of authority for the Employee shall be as follows:

(a) Senior Representative of OSO at Foreign Service establishment.
(b) OSO Foreign Branch Chief in Washington.
(c) Chief of Operations, OSO.
(d) ADSO
(e) Director of CIA.

2. All travel shall be directed by the ADSO in accordance with ARTICLE I, Section 3. The Employee shall request appropriate Foreign Service clearance for travel through the Senior OSO Representative at the Foreign Service establishment, who shall be responsible for arranging such clearance.

3. It is understood and agreed that the Employee's overseas assignment is to be for a minimum period of two years from the date of his arrival at his overseas post of duty, unless terminated by the Government for its convenience. If the assignment is terminated in less than twenty-four months at the Employee's request, the following shall prevail:

(a) If the Employee resigns in less than twelve months from the date of his arrival at his overseas post of duty, he shall reimburse CIA for all travel expenses involved in the transportation of himself, his immediate family, household goods, and personal effects to the foreign station, and pay all such expenses for return to the United States. Such expenses for return to the United States and amounts expended by the Government on account of such travel and transportation shall be considered a debt due by the Employee to the United States.

(b) If the Employee desires to terminate between the twelfth and twenty-fourth month from the date of his arrival at his overseas post of duty, he shall pay all expenses for the travel and transportation of himself, his immediate family, household goods, and personal effects to the United States.

4. If deemed necessary by CIA, the Employee may be reimbursed or advanced funds for operational expenses. Such amounts must be advanced or reimbursement made in accordance with CIA regulations, which require a full accounting of the amounts expended by the Employee. Therefore, the Employee will be required to account fully for any such funds advanced or reimbursed in accordance with CIA regulations.

ARTICLE III. Overseas Allowances and Transportation Expenses. When specifically authorized by the ADSO, the expenses of travel and transportation of the Employee, his immediate family, household goods and effects, including personally owned automobile and other allowances, will be paid the Employee in accordance with the Foreign Service Act of 1946 and regulations issued thereunder by the Department of State. When authorized by the ADSO, the Employee shall be paid a quarters allowance, cost of living allowance, or special foreign living allowance in accordance with the Foreign Service Act of 1946 and regulations issued thereunder. The amount of quarters and cost of living allowances and the special foreign living allowance is set forth in Bureau of the Budget Circular A-8, which is amended periodically to reflect adjustments in price indexes. Therefore, such allowances will be subject to change, and the amounts paid will vary according to Budget Circular A-8.

ARTICLE IV. Annual and Sick Leave. The Employee shall be permitted annual leave, sick leave, and leave of absence in accordance with Title IX, Part D of the Foreign Service Act of 1946. Under such Act, the Employee may be granted not to exceed sixty calendar days annual leave of absence with pay in each year. Annual leave which the Employee may receive and which is not used in any one year shall be accumulated for succeeding years until it totals 180 days. Sick leave with pay may be granted to the Employee at the rate of fifteen calendar days each calendar year and may be accumulated for succeeding years until it totals 120 days.

1. If the Employee is transferred from another Government Agency to this position, any annual or sick leave standing to his credit in such Agency, may be transferred, if appropriate, in accordance with E.O. 9837, 27 March 1947 issued pursuant to Section 935 of the Foreign Service Act of 1946.

ARTICLE V. Return to the United States. The Employee shall be ordered to the United States on leave of absence or permanent change of station upon completion of two years continuous service abroad or as soon as possible thereafter.

ARTICLE VI. Retirement: The Employee occupies a position within the purview of the Civil Service Retirement Act. Accordingly, deductions shall be made at the rate provided by law (presently 6%) from the Employee's basic salary and placed in the Civil Service Retirement Fund. The Employee may not avail himself of the provisions of the Foreign Service Retirement and Disability System, provided for in Title VIII of the Foreign Service Act of 1946.

ARTICLE VII. Medical Care and Hospitalization. TO: Employees Division

FROM: FDM

SUBJECT: Tennent H. Bagley

Mr. Bagley has been recalled to active duty as a First Lieutenant in the Marine Corps with effective date 11 December 1950. The order is by letter MC-1243761 of Headquarters U. S. Marine Corps, Washington, D. C., dated 3 November 1950 and addressed to his home in La Jolla, California (copy attached). Since Mr. Bagley is on duty in Washington, he did not receive the order until 13 November 1950.

Mr. Bagley was employed by this Agency on 24 July 1950 as a Research Analyst assigned to the Advisory Council. Since reporting for duty, he has been in the Training Courses and will complete the Advanced Operations Course on 1 December 1950. During this period, however, it has been agreed that his qualifications could best be utilized as an Intelligence Officer in Germany, and the papers are now in requesting his transfer to FDM for that purpose.

Request that Mr. Bagley's deferment from recall to active duty with the Marine Corps be arranged on the grounds that his work in the Training Courses has shown him to be unusually well qualified for intelligence work in Germany and that men of his caliber and background are still badly needed by the German Station. If this deferment can be arranged, he will be sent to Germany as a GS-9 Intelligence Officer at the earliest opportunity.

During the past year, this officer has continued to demonstrate his dedication and highly developed professional skills.

Subject has been called upon to meet a variety of requirements. The spectrum of his activity has been so broad that it has run from the exploitation of his manual dexterity (in installing technical devices) to the most sophisticated and demanding agent handling. Throughout the year, Subject has demonstrated his awareness of the value of KUBARK funds, which he spends as needed but always conscientiously. His reporting on his activities has been especially commendable, and his mastery of tradecraft has been continually in evidence.

Subject has now become Chief of PBRUMEN operations for Station Mexico. This slot was formerly held by a GS-15 officer. It is requested that Subject be promoted to the grade of GS-15, not only because of his present assignment, but in recognition of his fine past performance.

COMMENTS OF REVIEWING OFFICIAL

I concur generally with the assessment made of Mr. Shaw and agree that Shaw has turned in a highly commendable job and is an excellent operations officer. From here and not having the advantage of on-scene observation I would have rated Shaw with straight S' and overall rating of 'Strong' as compared to 'Outstanding.' Nevertheless, I strong endorse the COS' recommendation for promotion for Shaw.

Supplement to Staff Employee Personnel

Action for Integration of Robert T. Shaw

Effective 27 March 1963

The purpose of this memorandum is to call your attention to existing policies which are particularly material to you while you are integrated and to set forth certain rights and obligations which are incident to your status as an appointed employee. It is hereby agreed and understood that:

1. As an employee of this organization, at the present grade and salary of GS-14 $13,270. per annum, you will accept cover employment with another instrumentality of the Government (hereinafter referred to as "your cover facility") effective as of 27 March 1963. You will, insofar as consistent with your basic responsibility to this organization, abide by all the rules, regulations, practices and policies of your cover facility, in order to appear as a conventional member of that establishment. Your appointment to your cover facility is being effected at FSR-4 and salary of $11,800. per annum. You are prohibited, except as specifically authorized herein, from retaining emoluments paid by your cover facility.

2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of Two Years from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of this organization and the length of your tour of duty, as currently specified, may be unilaterally changed by this organization in order to conform with subsequent changes in the prescribed tour of your cover facility. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by this organization to be beyond your control or if you are terminated for cause under the regulations of this organization before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all of its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and (except as provided in paragraph three (3) above) allowances paid by your cover facility shall be retained by you to the extent that they are less than or equal to the salary and allowance payments due on the basis of your grade level with this organization. If such cover payments are less than the amount due, the difference will be credited to your payroll account with this organization. If such cover payments exceed the amount due, the overage will be remitted to this organization at designated intervals, presently NA. Computations hereunder will be made on the basis of the aggregate gross due and received provided, however, that in computing remittances for overage Federal and, if applicable, District of Columbia income taxes withheld by your cover facility against the overage may be deducted. To assure timely accuracy in your payroll account with this organization you are expected to immediately report cover facility payroll changes.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integration into your cover facility, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and at your personal expense you will be subject to payroll deductions for retirement purposes (now six and one-half per cent) on the basis of your cover salary or your salary from this organization, whichever is the greater.

b. If you receive taxable income from both your cover facility and this organization, necessary adjustments for Federal, and if applicable, District of Columbia income tax purposes will be made in conformance with instructions received from this organization.

c. Consistent with your cover activity, you will continue to be responsible for compliance with the rules and regulations of this organization.

d. You are not assured upon the completion of your period of duty with your cover facility of any status with your cover based on your services performed with that organization at the request of this organization.

e. All annual and sick leave which is accrued to your credit at the time of integration will be transferred to your cover facility. While integrated you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon completion of your integration your accrued annual and sick leave will be transferred to your credit with this organization. If security conditions require that your cover facility make a lump-sum payment for accrued annual leave, you will be required to pay the gross amount thereof to this organization including any income taxes withheld by your cover facility.

6. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by this organization from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with this organization will not release you from the obligation of any security oath you may be required to take.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Compromise of Cover

1. As a result of information obtained from reliable sources who served in Vietnam, we have established that the former Staff personnel listed on the attachment should be presumed to have been compromised as CIA employees to the North Vietnam Intelligence Service as of April 1975. We presume also that the identifications of these individuals as CIA employees were passed by the North Vietnamese to the Soviets.

2. Although the personnel listed in the attachment are no longer employed by CIA, nevertheless, I suggest that their official personnel records should be documented concerning the possible past compromise of their cover.

3. Please coordinate any action connected with this memorandum with Chief, CCS; Chief, CMG; and Chief, CI Staff.

Conein was in U.S. military from September 1941 through September 1961, and on detail to OSS, SSU, CIG, and CIA to time of military retirement.

He was picked up as a civilian and as a career agent on 12 November 1961 and retired on disability on 15 July 1968.

Archenhold advised that subject claims military service as indicated above and that the only period to be certified is the period as a civilian, November '61 to July '68. This all we know about what Conein told DEA.

Luke Conein has applied for employment with the Drug Enforcement Agency. The Acting D/Pers asked for the attached info from CIA.

Sent to D/Pers for signature. Conein was very controversial, much in the news about the overthrow of Ngo Dinh Diem and has been mentioned by Howard Hunt in Hunt's recent hearing before "Watergate" committee. Dick Biladeau, Central Cover, affirms that Conein is "opened up".

Ben -

Stan Archenhold, x 7264, one of the Agency's drug coordinators with DEA, called me yesterday afternoon. DEA had requested a memo verifying employment of Mr. Lucien E. Conein, whose name has appeared frequently during the Watergate hearings. The attached memorandum is what Archenhold wants.

Conein's service was verified with ROB; his "honorable service" was cleared with SAS. Since he was under cover as contract, I discussed the case with Dick Biladeau of Central Cover. CCS had opened up Conein last year and Biladeau approved release of the information to DEA. We had verified this service to a Justice Department investigator approximately one year ago when Conein was being considered as a consultant for BNDD.

Archenhold offered to carry the memorandum to DEA.

NBC Claims Diem Death Inside Story

Seventeen generals and colonels of the South Vietnamese Army voted unanimously to kill President Ngo Dinh Diem in 1963, and were not particularly discouraged by a high-ranking U.S. CIA official, an NBC report scheduled to be telecast tonight discloses.

The report is Part 2 of "An NBC News White Paper: Vietnam Hindsight," and deals with the origins of America's involvement in that Southeast Asia country.

The report presents the first supposed inside account of Diem's assassination, disguised as a political coup, and includes statements by Alvin Davis, associate producer of the program, and Lt. Col. Lucien Conein, the key CIA man in South Vietnam during the time of the coup.

It is "quite inconceivable" to Conein that Gen. Maxwell Taylor and others were not aware of the timing of the coup, Conein says on the program, which depicts Diem's death as a Diem maneuver that backfired.

The decision to kill Diem is reported to have developed over a series of eight meetings and arguments, and, finally, a vote. Three who would have voted to save Diem were assassinated before the vote was taken. Four others including the present Prime Minister, Khiem, were deliberately excluded from the vote.

Minh among the 17, however, wanted him killed from the start, and the only overheard phrase spoken in French rather than in Vietnamese was by Big Minh, might have been presidential contender in the October 1971 election, who said, "The dog must be killed."

After that, the vote went like this: Big Minh: kill; Gen. Don: kill; Gen. Xuan, kill, Col. Nghia, kill. At the end there was total unanimity, and a vow of silence was taken. The silence is to be broken tonight, Davis says.

Diem had asked for full honors, and a "graceful" exit from Vienam to exile in another country, but refused to ask Big Minh—who in turn was furious at the slight.

Between 6 and 9 p.m. Nov. 2, the day of Diem's death, he refused again to speak to Minh, then finally spoke to him on the telephone, but Minh, outraged, hung up. On the third try, Diem gave in, asking only for safe conduct.

At this point Col. Conein said he was told by Ambassador Henry Cabot Lodge not to instigate, encourage or discourage a coup, which was in the planning stages throughout October, 1963. But Diem, Conein said, had his own plans for a phony coup, after which he and his family would be brought in honors, by popular acclaim, back to Saigon from their place of exile, Pleiku.

What happened, apparently, is that both the phony coup and the real one came off at the same time, fooling Diem and his brother, Ngo Dinh Nhu.

Conein, in an attempt to get Diem out of the country says he asked his embassy for a plane, but was told that he would have to wait 24 hours for it.

"I spoke for the U.S. government and I was authorized, and I informed the junta (Diem's organization) that I had an aircraft, but it would take me 24 hours to have that aircraft on the ground."

"Instead?" Davis asked.

"Instead, he was shot by a major in the Vietnamese army," Conein says on the telecast.

LANGUAGE TRAINING OBJECTIVES AND METHODS

The general aims of language training are attainment of proficiency in speaking, understanding, reading and writing. The specific objectives are (1) ability to produce and distinguish the sounds of the language; (2) ability to use a stock of basic sentences and expressions; (3) ability to recombine the elements of basic sentences and expressions and to apply them to new situations; (4) ability to comprehend the language spoken at normal speed in various situations; (5) ability to write and read the language commensurate with ability to speak.

Methods used in all courses stress oral drills and free conversation based at first on memorized material and, at a later stage, on varied reading materials. Written and oral tests are given at intervals. Listening to and recording on tapes in the Language Lab is essential for class preparation.

This officer is personally acquainted with almost every senior official or officer in the Vietnamese Government and armed forces, and with a significant number of these this acquaintenceship amounts to close personal friendships extending back over a number of years. These associations have given this officer truly unique access to senior echelons of Vietnamese leadership, and he has exploited this access effectively and to great value to the Station. He has had long experience in this area, and uses his understanding of it to great effect. He works very well independently and has shown considerable initiative. He balks at no assignment, and carries out all assignments without regard for his personal convenience, safety, or well being. In the field of written expression this officer's performance falls somewhat short, but he has made strenuous efforts to improve in this sector with some success. All in all, he is an imaginative and dedicated officer who can be counted on to discharge his duties with high effectiveness and total personal commitment. It has been a pleasure to have had him at the Station.

27 VII 64

Subject is a virtual walking encylopedia on the history, customs and senior personalities of Vietnam. He has been associated with this area on and off over the period of the last 10 years. During this time he has developed lasting friendships with many individuals who are now in high positions of power within the government. These contacts are of considerable importance to the Station in its intelligence appreciation of the situation and in the coordination of operational activities on a discreet basis with these high personalities. At the personal request of the Prime Minister he has become senior advisor to the Prime Minister's personal protection force and has, in fact, formed and trained this force from scratch. He is a highly motivated and dedicated officer to whom considerations of personal convenience and safety are always second to his determination to achieve whatever mission is given to him.

On the negative side, his written and oral presentation, while showing some improvement over the previous report, still needs additional improvement. He has no supervisory responsibilities at the present time and therefore is not rated on that score. He exhibits a good sense of cost consciousness in utilization of man power, materiel and funds.

Only his difficulty in expressing himself in writing prevents this officer from being rated "Outstanding". He is a calm and detached professional who at the same time is intimately caught up in his work and in the many important contacts he has on the local scene. His very valuable role could not be performed by anyone else at this Station, nor to my knowledge, by anyone else in the organization at the present time. He is a highly valued member of the Station.

Subject is one of the outstanding American experts on current day Vietnam. He has lived and traveled in the area for a number of years and has continued a study of the area while absent from it. Many of the current senior officers up to the general staff level were formerly Subject's subordinates and regard him as a friend and colleague whom they trust and in whom they will confide. This relationship of trust and friendship fortunately also exists with the Minister of Interior who is the forth or fifth leading personality in the government. Subject was formerly a senior officer in the U.S. Special Forces and by virtue of his qualifications and experience in this field has been of considerable value to this Station in the extensive programs it has undertaken in concert with that command. He is additionally a skilled clandestine operator with a thorough grounding in technique and a wide and colorful background of experience. Subject's ability to express himself in writing, while adequate, can stand improvement. He is evidently sincerely attempting to remedy this and some progress is noticeable. Overall, Subject is a distinct asset to the Station and we are particularly pleased to have him. Subject is a career agent and an amendment of his contract to reflect a promotion to the next higher equivalent grade is recommended. It is likewise recommended that he be promoted from the USAR reserve rank of Lt. Col. to Col. in order to increase his prestige in negotiations on behalf of the COS.

COMMENTS OF REVIEWING OFFICIAL I concur in the rating given above to Subject who has proved himself invaluable to the Station and to the front office in terms of his thorough knowledge of the Vietnamese scene, of Vietnamese personalities, and of the many issues involved here. I have personally leaned heavily on his judgment and advice. Our high appraisal of Subject is shared by the Ambassador and by the Deputy Chief of Mission. I have found that Subject works in a discipline manner and functions cooperatively with other members of the Station. He has made very definite progress as a Staff officer and in applying himself to the paper work which goes with that responsibility. I personally initiated the recommendation that Subject be promoted in Agency grade as well as in U.S.Army rank, mentioned in Section C, above.

Mr. Arthur R. Schwickrath

Dear Mr. Schwickrath:

The United States Government, as represented by the Contracting Officer, hereby contracts with you for your services as a Career Agent under the following terms and conditions:

1. Status. Your status is that of a Government employee under contract and, as such, your rights and benefits are governed by the provisions of this agreement. It is specifically understood that you are not entitled to rights and benefits pertaining to appointed staff status, except as provided herein.

2. Cover. In the performance of your services hereunder, you will act under cover suitable to conceal your relationship with the Government. It is expressly understood and agreed that any and all documents which you may execute in the course of such cover employment are subordinate to this agreement and any contradiction in terms which may in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

3. Compensation and Taxes. For your services as a Career Agent, you will be compensated at a basic salary of $11,415 per annum. You will be entitled to a post differential in conformance with applicable Government regulations. In addition, you will be entitled to within-grade promotions and Legislative pay adjustments in substantial conformance with rules and regulations applicable to Government appointed personnel. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

4. Allowances. You will be entitled to: (a) Living quarters allowances in conformance with applicable Government regulations. You may be provided quarters by your cover facility or the Government and, in such event, you will not be entitled to the living quarters allowances herein indicated.

(b) Cost of living allowances in conformance with applicable Government regulations including, but not limited to, a post allowance or an equalization allowance in lieu thereof, a supplementary post allowance, a transfer allowance, a home service transfer allowance, an education allowance and a separation allowance.

5. Travel. You will be advanced or reimbursed funds for travel and transportation expenses for you, your dependents, your household effects and your personal automobile to and from your permanent post of assignment, and for you alone for authorized operational travel. In addition, you will be entitled to storage of such household and personal effects as are not shipped

in conformance with applicable Government regulations. You will be entitled to per diem in lieu of subsistence in the course of all travel performed hereunder, and when authorized, for you alone while on temporary duty away from your permanent post of assignment. In addition, you will be entitled to reimbursement in accordance with standardized Government rates for the authorized official use of your private automobile. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

6. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses including, but not limited to, entertainment and the purchase of information, as specifically approved by the Government. Such funds will be subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

7. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

8. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U. S. C. A., App. 1001-1015).

(c) You will be entitled to sick, annual and home leave (including travel expenses incident thereto) equal to and subject to the same rules and regulations applicable to Government appointed employees. Annual leave may only be taken at times and places approved in advance by appropriate Government representatives.

(d) From the salary paid pursuant to this contract there shall be deducted the appropriate rate percentage (presently 6 1/2%) for deposit and eventual crediting to the Civil Service Retirement Fund. When circumstances of your cover warrant or require contributions to social security, such contributions will be at your expense and you will not be reimbursed therefor by the Government.

(e) (1) This organization is authorized to pay the cost of necessary hospitalization and related travel expenses for illness or injury incurred by the U. S. citizen full-time Career Agent in the line of duty while permanently assigned abroad.

(2) This organization may pay certain necessary costs of hospitalization and related travel expenses for illness or injury incurred by the dependents of a U. S. citizen full-time Career Agent permanently assigned abroad, while they are located abroad.

It is understood and agreed that the eligibility and extent of the participation by you and your dependents in the above medical programs will be in conformance with the rules, regulations and policies of this organization in effect at the time an illness or injury is incurred, that all claims will be submitted only to this organization and that adjudication of such claims by this organization shall be final and conclusive.

(f) You are herein authorized to apply for enrollment in a health insurance program for certain selected Career Agents in this organization, subject to all the terms and conditions of that program. If accepted, this organization is presently authorized to bear a portion of the premium cost, you will bear the remainder. Your financial contribution will be effected either by payroll deduction or by direct remittance at periodic intervals to be established by this organization.

9. Offset. Any and all compensation, allowances or other benefits (including benefits in kind) received from or through your cover acitivites will be used to offset amounts due you under this contract and will reduce accordingly the Government's direct payment obligation hereunder. Sums so offset are payment by the Government under this contract and for purposes of Federal income taxation. You will report every four (4) months during the term of this agreement all benefits received from or through your cover acitivities and, if such benefits exceed those due you under this contract, the report will be accompanied by said excess amount, which you hereby agree is the sole property of the Government. Failure to submit timely reports and, as appropriate, excess payments, may result in suspension of any payments due you hereunder. As an alternative to the above, the Government may at any time exercise its basic right to require payment over to it of the emoluments received by you from or through your cover acitivities which would otherwise be offset as described above. In such cases the Government will pay directly to you the emoluments called for by this contract.

10. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

11. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

12. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

13. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

14. Term. This contract is effective as of 12 Dec 61, and shall continue thereafter for an indefinite period unless sooner terminated:

(a) Upon ninety (90) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event the results of an initially required medical examination are determined by this organization to be unsatisfactory, or

(c) Without prior notice by the Government in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. In the event of voluntary termination on your part or termination for cause by the Government prior to the expiration of this agreement or any renewal thereof, you will not be entitled to return travel expense to the United States. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

FIELD REASSIGNMENT QUESTIONNAIRE TRANSMITTAL

INSTRUCTIONS

A. This questionnaire is designed to provide information for consideration by headquarters in planning your next assignment.

B. Each supervisor in the field will ensure that this questionnaire is completed for each employee under his immediate supervision and forwarded to headquarters eight (8) months prior to the individual's planned date of departure from the station.

C. The questionnaire will be completed and forwarded through normal channels to headquarters in triplicate.

D. The questionnaires of Staff Agents should include cover duties and discussion of cover factors where appropriate.

SPECIAL NOTE

This form must be prepared with due regard for security considerations. For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information or methods of operations, it is normally expected that a complete and realistic statement of major duties may be reported in Item No. 8. However, the nature, purpose or disposition of information or operations will not be included. On the other hand, the description of the major duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases a general statement of duties will be indicated in Item No. 8 so as to show the level of responsibilities involved and enable reviewers at headquarters to understand the nature of your position. No names, operational techniques, objectives or purposes of the operation should be included.

1. Forwarded under separate cover is a commendation from General Langdale for SCHWICKRATH.

2. I though you would be interested in seeing it since it is a good indicator of how much of the General's reporting can be believed. Notice particularly the paragraph on page 2 concerning SCHWICKRATH's "services to my staff...in an applied field of philology, particularly in Vietnamese oral linguistics and the working of official documents..." When this paragraph was shown to SCHWICKRATH, he gave vent to some very soldierly language, pointing out that he doesn't speak a word of Vietnamese nor can he read it.

MEMORANDUM FOR: Clandestine Services Personnel Division

ATTENTION : Agent Panel

SUBJECT : Deletion of Arthur R. SCHWICKRATH from Project IUJEWEL roster.

1. Arthur R. SCHWICKRATH has been employed as a Career Agent in Project IUJEWEL since 16 October 1961. During that period he was assigned to the Saigon Station as a Staff Advisor on Paramilitary matters to the Chief of Station.

2. When at the termination of that assignment, SCHWICKRATH returned to Headquarters, it was assumed by SOD that he would return to SOD and be again covered by Project IUJEWEL. However, I now understand that SCHWICKRATH is being processed for an assignment in WH Division and is, in fact, engaged in language training for that assignment.

3. In view of the foregoing, it is requested that the name of Arthur R. SCHWICKRATH be removed from the Project IUJEWEL personnel assets.

SUBJECT: Promotion - [redacted]

REFERENCE: Fitness Report dated 25 Feb. 1963

1. In view of present and past Fitness Reports, and by comparison with other ZRJEWEL personnel, I believe that the promotion of [redacted] to GS-14 equivalent is justified, and that it would be in order to convey this view to FE/Personnel. Technically, however, the administration of (and decision to promote) [redacted] is a responsibility of FE Division until [redacted] reverts to SOD under ZRJEWEL.

2. I would strongly recommend against any move to request Army to advance [redacted]'s retired status from Lt. Col. to Col.; although, for operational purposes while he is at Saigon it might be possible to give him notional or "assimilated" rank.

1. FE/Pers will not honor promotion recommendation to GS-14 equiv. until field sends in a specific recommendation. This is the way FE Operates. FE Division feels [redacted] is their employee until his tour in Saigon is completed. If SOD wants to take action re the fitness report recommendation, Mr. Jorgenson should discuss this with Paul Breitwiser.

2. FE/Per advised the field by ~~[illegible]~~ "Personal note" from Mary Boulger that promotion ~~[illegible] from~~ Lt. Col. to Col. is not possible. SOD/Pers advised by FE/Pers that Department of Defense turned down active duty status, [redacted] for cover purposes because in addition to being a retired reservist, [redacted] departed for the field under Department of Army Civilian cover and was assigned to Saigon in that capacity. After his arrival it was determined [redacted] in the field that he would represent himself as military. This was never sanctioned by headquarters.

SUBJECT : Recommendation for Promotion of [redacted] to GS-14 Equivalent

REFERENCE : Fitness Report for Subject dated 25 February 1963

1. In reference Fitness Report, the Deputy Chief of Station and the Chief of Station, Saigon, recommend the promotion of [redacted] to the next higher GS equivalency. I concur in this recommendation.

2. As you are aware, [redacted] is a member of Special Operations Division Project ZRJEWEL. In comparison with other employees of ZRJEWEL, taking into consideration the assigned duties and manner of performance, I feel that [redacted] promotion is appropriate, and concur in the recommendation of the Station.

3. It is requested that a contract amendment be initiated by FE Division to increase [redacted]'s compensation from GS-13 (4) equivalent, $12,245, to GS-14 (4) equivalent, $14,277.

ACTION REQUIRED REFERENCES
FVSS-2216

1. A FORMAL FITNESS REPORT ON ARTHUR R. SCHWICKRATH WILL BE DISPATCHED SHORTLY. AD INTERIM, THOSE QUESTIONS RAISED IN REFERENCE ARE ANSWERED BELOW.

2. ARTHUR R. SCHWICKRATH, ZRJEWEL CAREER AGENT, IS ASSIGNED AS CHIEF OF THE PARAMILITARY STAFF REPORTING DIRECTLY TO THE CHIEF OF STATION. AS SUCH, HIS DUTIES ENCOMPASS PLANNING, OPERATIONAL COORDINATION, FIELD INSPECTION, AND LIAISON WITH VERY SENIOR GOVERNMENT OF VIETNAM OFFICIALS IN THE INITIATION AND IMPLEMENTATION OF PARAMILITARY OPERATIONS. IN ADDITION, SCHWICKRATH IS THEXPRIMARY STATION CONTACT WITH THEMMINISTER OF INTERIOR, WHO IS A PROLIFIC SOURCE OF INTELLIGENCEMAND A MAJOR ELEMENT IN THE STATION'S POLITICAL ACTION PROGRAM. SCHWICKRATH ALSO REPRESENTS THE STATION ON THE ODYOKE COMMITTEE FOR PROVINCE REHABILITATION /THE SO-CALLED TRUE-HEART COMMITTEE/.

3. SCHWICKRATH IS NOT DIRECTLY ENGAGED IN AGENT OPERATIONS, BUT AS THE STATION SENIOR PARAMILITARY STAFF OFFICER, HE INDIRECTLY SUPERVISES A NUMBER OF SUCH OPERATIONS /E.G., STGALLY/, AND HIS ADVICE IS OFTEN SOUGHT ON MANY OTHER STATION AGENT OPERATIONS BECAUSE OF HIS LONG SERVICE IN VIETNAM AND HIS INTIMATE FAMILIARITY WITH MANY KEY MILITARY AND POLITICAL FIGURES IN VIETNAM.

4. SCHWICKRATH'S DUTIES MAY BE CONSIDERED AS HAZARDOUS WITHIN THE NORMAL MEANING OF THE TERM AS UTILIZED BY KUBARK. SCHWICKRATH IS FREQUENTLY INVOLVED IN OVERFLIGHTS ON FIXED AND ROTARY WINGED AIRCRAFT OF AREAS KNOWN TO BE CONTROLLED BY THE VIET CONG. 5. IT HAS NOT BEEN POSSIBLE TO MAINTAIN STRICT PERSONAL SECURITY FOR SCHWICKRATH. HE IS KNOWN TO MANY VIETNAMESE BOTH IN THE NORTH AND THE SOUTH AS HAVING BEEN ENGAGED IN VARIOUS INTELLIGENCE ACTIVITIES IN VIETNAM SINCE 1945. IN ADDITION, THE STATION HAS JUDGED THAT HIS BEST UTILIZATION HAS BEEN AS A REPRESENTATIVE OF THE CHIEF OF STATION IN VARIOUS COMMITTEE MEETINGS AND LIAISONS WHERE IT WAS NECESSARY HE BE IDENTIFIED AS THE REPRESENTATIVE OF THE COS. IT WOULD BE BOTH IMPOSSIBLE AND COUNTER-PRODUCTIVE IN SCHWICKRATH'S CASE TO ATTEMPT TO HIDE COMPLETELY HIS AFFILIATION WITH KUBARK.

6. DURING HIS CURRENT TOUR, SCHWICKRATH HAS ACQUIRED INCREASING SKILL AND FAMILIARITY IN THE INTRICACIES OF KUBARK STAFF WORK, BOTH AT THE INTER-STATION LEVEL AND THE INTGA-MISSION LEVEL. THIS IS A NEW CAPACITY FOR SCHWICKRATH WHO HAS HERETOFORE BEEN KNOWN AS A VERY AGGRESSIVE ACTION OFFICER. SCHWICKRATH HAS PERFORMED THESE NEW DUTIES WITH CONSIDERABLE FINESSE DESPITE A VERY RAPID BUILDUP OF PARAMILITARY ASSETS WITHIN VIETNAM AND AN EXTREMELY FLUID COMMAND RELATIONSHIP WITH THE COMMANDER OF THE U.S. MILITARY ASSISTANCE COMMAND, VIETNAM. IT IS WORTH NOTING THAT SCHWICKRATH WAS THE ONLY STATION REPRESENTATIVE IN A RECENT CONFERENCE CONVOKED BY CINCPAC IN HAWAII TO RECOMMEND PROCEDURES FOR IMPLEMENTATION OF A TEN MILLION DOLLAR PROJECT INVOLVING A YEAR-LONG TURNOVER OF CIVILIAN IRREGULAR ASSETS IN VIETNAM FROM THE STATION TO MACV. SCHWICKRATH'S PERFORMANCE AT THAT CONFERENCE RESULTED IN THE CONFERENCE'S ADOPTING ALL STJIVON RECOMMENDATIONS IN RESPECT TO ITS FUTURE ROLE IN CIVILIAN IRREGULAR ACTIVITIES. AT THE SAME TIME SCHWICKRATH'S PERFORMANCE WAS SUCH AS TO MAINTAIN CLOSE, HARMONIOUS RELATIONSHIPS BETWEEN KUBARK, CINCPAC AND MACV.

7. I HAVE PERSONALLY FOUND SCHWICKRATH TO BE AN INVALUABLE MEMBER OF OUR STAFF WITH AN INDISPENSABLE DEPTH OF KNOWLEDGE AND BACKGROUND ON SOUTH VIETNAM AND ON ALL MATTERS PERTAINING TO GUERRILLA WARFARE. IT IS A DISTINCT PLEASURE TO HAVE HIM WORKING HERE AS A MEMBER OF THE STATION.

MEMORANDUM FOR: Chief, FE Division

SUBJECT: Employment of Lou Conein

1. At my request, General Lansdale has quietly checked on the status of Lou Conein's retirement from the Army. He is presently in Iran and is slated for return home and retirement in August. He has made an effort to return sooner but the Iranian Government protested that it would be an act of bad faith (apparently, he is doing a good job with them).

2. At the moment, Conein belongs to ACSI and Lansdale feels that any move on our part to accelerate his return would be misinterpreted, or perhaps I should say correctly interpreted, by ACSI. I am getting his address and will establish contact with him by personal letter. Lansdale feels that Conein is very anxious to come back to work for the Agency.

Alfred T. Cox
Chief, Paramilitary Group
Covert Action Staff

LUCIEN CONEIN

1. Served with the Saigon Military Mission from 1 July 1954 to 20 April 1955; although he has served in Saigon at another station from September 1955 to date, he has voluntarily supported SMM activities in his spare time. Conein's major duties have been in the paramilitary field, with contributions and support to a wide variety of other activities

2. In July and early August 1954, Conein served as assistant to the Chief of SMM. As such, he helped in making contact with Vietnamese political underground groups in Tonkin and Cochin China, assisted in the initial survey of the Vietnamese resistance potential in Tonkin, aided in SMM political efforts to stop the assassination of French military by Vietnamese revolutionaries and participated in developing SMM's contacts with the Vietnamese government.

3. In August 1954, additional paramilitary personnel reported for duty with SMM and it was decided to place a separate SMM team in Tonkin to attempt to recruit, train, and place Vietnamese stay-behind forces there prior to the turn-over of the area to the Communist Vietminh under the Geneva Agreement deadline. [illegible] sabotage targets were [illegible] [illegible] and [illegible] credit on Conein's ability. Two complete stay-behind organizations were in place when the Vietminh took over the North, despite the [illegible] of [illegible] and Vietnamese [illegible] in the [illegible] of [illegible], Tonkin. Important sabotage, within U.S. imposed limits, was successfully carried out.

4. One stay-behind organization was developed by Conein personally. This team successfully cached adequate operational equipment in Tonkin, recruited secretly exfiltrated, supervised overseas training, and secretly infiltrated the stay-behind organization into Tonkin successfully prior to the last phase of the Vietminh take-over of Haiphong occurring [illegible] April 1955. All equipment was in place, for future use, by 14 January 1955, which was no small feat of [illegible], since it had to be done under the increasing surveillance of Vietminh [illegible] security forces who [illegible] into [illegible] [illegible] in [illegible] in the final days. Covert infiltration of personnel was accomplished over a [illegible]-day period in March 1955.

5. Sabotage efforts included the contamination of the oil supply of the [illegible] Bus Company and of coal used by the Tonkin rail-road. Both contaminants were [illegible] in Japan by the technical [illegible] which were [illegible] into Tonkin by SMM. Contamination had to be accomplished at the last minute, to insure that it would damage the Vietminh rather than French commercial interests. The

Bus Company was accomplished with the witting help of its French manager, whose friendship was developed by Conein; the coal operation was a unilateral operation by SMM.

6. The oil contamination took place just prior to the Vietminh takeover of Hanoi on 9 October 1954. Conein, assisted by Frank Carvers, gained entry to stored drums of the Bus Company's lubricating oil, opened the drums, and started pouring in the contaminant. Fumes from the contaminant overcame them in the enclosed storage space. Upon reviving, the two placed handkerchiefs over their faces and completed the task.

7. Surveys and plans also were made for other sabotage missions, which were later cancelled by U.S. decisions. The team was in place and capable of carrying out the missions.

8. On 11 January 1955, SMM had so multiple and complex a mission that personnel were reorganized into separate teams by operational duties rather than by geography. Conein was appointed Chief of the White Team, which was responsible for all paramilitary and support operations. The latter included a skilled smuggling operation which successfully eluded Vietminh security agents and the International Commission (Poles, Indians, Canadians). Conein's close friendship with the French Foreign Legion and with Corsican underworld elements was of assistance.

9. In April 1955, Corsican contacts started developing a liaison between SMM and the Binh Xuyen (police, opium, prostitution, and gambling) through Conein. This was a delicate operation, since another covert liaison was being [illegible] with the [illegible] or French [illegible] between the Vietnamese National Army and the Binh Xuyen. It was a [illegible] game, since the Chief of SMM had been [illegible] the Binh Xuyen [illegible] publicly by the Binh Xuyen and Conein's connections were known by them. After several cloak-and-dagger contacts, in which negotiations progressed towards a covert solution of the Binh Xuyen problem, the final contact was broken on [illegible] April by orders of the chief, SMM. Conein was at the contact point when open fighting broke out in Saigon in the afternoon; it was feared that Conein would be taken and held as a hostage. (During the fighting an American [illegible] in a [illegible] commercial aircraft was shot down by the Binh Xuyen, who [illegible] his death as an agent of the chief of SMM - his close social friendship with Conein was the only connection; SMM's [illegible], the Chief of Staff of the Binh Xuyen, [illegible] on the floor of a taxi, [illegible] from a beating, after he had arranged the defection of his [illegible] battalion finally fought its way through the Binh Xuyen and joined the National Army; these side [illegible] are [illegible] only to [illegible] the [illegible] Conein ran as a member of SMM in dealing with the Binh Xuyen; SMM psychological action against the Binh Xuyen remained [illegible] by them).

10. Conein's practical solutions to problems, great resourcefulness, skill and knowledge of equipment as well as all phases of paramilitary operations, contributed materially to the success of the Saigon Military Mission in advancing U.S. objectives. Conein is a good, strong right-hand man in a tight spot and proved it in a number of tense situations during this assignment.

MEMORANDUM FOR THE RECORD

SUBJECT: CONEIN, Lucien - Major

On 27 June 1955, Major Conein returned to Washington, D. C., after serving one year PCS at Saigon, Vietnam, where he was with the Saigon Military Mission under MAAG cover as Major, U.S.Army. Upon Major Conein's return it was decided that since no replacement had been found for him it would be necessary for him to return to Saigon under the same cover arrangements he used for his PCS, for a period of TDY. Major Conein was informed by CFE/4/Support and VN/Support Officer that CIA travel orders were being prepared authorizing him only 90 days TDY in Saigon. These orders were signed by C.V.Hulick, DDP/EXO, CFE, LCB, MPD, FE/CFI, CFI, and FE/BF. At the conclusion of the 90 days TDY no replacement had been found for Major Conein and he remained in Saigon. No amendment to his travel order was submitted however, no extension by cable from Headquarters was sent to indicate that Major Conein was either TDY or PCS.

Upon checking with MPD it was found that Major Conein, if he remained in the field for even one year's TDY, would receive the maximum per diem rate as prescribed by FTR's ($20 per day less 1/5 for quarters which were being furnished) and that this per diem rate could not be reduced. ACFE/4, ACFE/4/VN, and VN/Support Officer discussed the entire case and since Major Conein had been informed prior to his departure that he would remain in Saigon on TDY for 90 days only, a Form-52 was submitted reassinging Major Conein to a PCS status in Sagon, Vietnam effective 27 October 1955 (90 days after his TDY started). An amendment to the original travel order was submitted to show the change from TDY to PCS effective 27 Oct.

Major Conein has been informed of the fact that he was made PCS effective 27 Oct. 1955, per DIR , dated .

SUBJECT GENERAL Administrative - Personnel
SPECIFIC Assignment of [redacted] and VILLIERS

REF: a. SAIG 2922
b. DIR 49205

1. Headquarters appreciates SLADE's reply to Ref b, and will make it a matter for the record. For SLADE's (and VILLIER's) information [redacted] has, in the course of his duties in Europe, come to the attention of the French, probably including the UNION organization. Naturally, his former KUTWIN record is well-known to UNION and he is personally acquainted, we have since learned, with TUTOR himself.

2. Headquarters appreciates, too, the probable reaction of TUTOR to the advent in the Indochina scene of VILLIERS, [redacted] and possibly other with similar histories. This is unavoidable and unfortunate; however, under the circumstances Headquarters considers their assignment a necessary risk.

3. In a [illegible] of the [illegible] it can [illegible] firmly stated that, in the case of [redacted] -- yes, he was assigned to KUBARK by ODIBEX as a reserve officer on extended active duty. Further [redacted] actually had been released back to ODIBEX, and had already been reassigned by ODIBEX. As this dispatch is being written, those ODIBEX orders are in process of being rescinded and new orders are being initiated assigning [redacted] to [illegible].

4. In the case of VILLIERS, whose orders have just been received transferring him to Saigon, if indeed his previous KUBARK connection is known to TUTOR, it can only be stated that he, too, has been released back to ODUNIT, at their or ODEARL's request, in response to their urgent need for an experienced senior officer with his qualifications for a special mission in Indochina.

SECRET
CLASSIFICATION

5. This movement of personnel from one agency to another is by no means an unheard-of thing. As you are aware, as in the case of French service officers assigned to the to the TUTOR ORG, so are selected military personnel assigned to KUBARK. Very recently two senior ODIBEX officers on the KUHOOK Senior Staff were released at ODIBEX request by KUBARK and subsequently transferred to ODTOWN, Thailand, with no further KUBARK connection.

6. In spite of sincere protestations and denials on your part, we realize of course that at least some bit of suspicion will linger on in TUTOR's mind and that these suspicions will not be allayed by even the most circumspect of routine contacts between persons in VILLIER's group and members of the SIM Staff. Such contacts are bound to occur, particularly if the VILLIERS group does indeed succeed in getting an HTARCADE program of any sort in motion. However, as we have stated, this is an accepted risk, and we have to play the game out, even though we cannot assess the possible damage to the SIM liaison.

LETTER OF AUTHORIZATION FOR [redacted] (P)

1. *Effective* [illegible] 1954, this Letter of Authorization will define your relationship with the United States Government while you are on detail from the United States Army to another Governmental organization (hereinafter called "this organization").

2. In recognition of the special mission to which you have been assigned, it is hereby agreed that the following rights, restrictions, and obligations will be in force during the period you are performing this particular mission for this organization:

(a) It is specifically understood and agreed that you are a member of the Armed Forces of the United States and that you are entitled to retain from either the U. S. Army or this organization, only the salary, allowances and other benefits which are commensurate with your military grade and post of assignment.

(b) As you will be assigned by the United States Army on bona fide military PCS orders to Indo-China, you will receive from your parent military service your base pay and longevity, and the allowances applicable to the designated unit to which you will be assigned.

(c) It is contemplated that you may be furnished transportation to and from your permanent post of duty overseas by your parent military service. In the event that such transportation is not so furnished, you will be advanced or reimbursed funds by this organization for said travel and transportation expenses and for authorized travel within your operational area. You will be entitled to per diem in lieu of subsistence in the course of this travel in accordance with applicable Government civilian travel regulations. All travel, transportation and per diem provided you under this paragraph by this organization must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with the regulations of this organization.

(d) In conformance with the Joint Travel Regulations, this organization will advance or reimburse you funds for the travel and transportation expenses of your dependents and your household effects from your present area of assignment to any place in the United States which you may designate. If authority is granted for your dependents to join you at your permanent post of duty overseas, this organization will advance or reimburse you funds for the travel and transportation expenses of your dependents and your household effects subject to the emergency restrictions of your parent military service; from the place so designated by you to your permanent post of duty overseas, and, upon completion of your assignment with this organisation, from your permanent post of duty overseas to Washington, D. C. Your dependents will be entitled to per diem in the course of such overseas travel in accordance with applicable Government civilian travel regulations. The expenses incurred in the movement of your dependents and your household effects from said designated place in the United States to your permanent post of duty overseas shall include transportation as indicated above and storage of such household effects as are not moved, provided that the total amount of household effects moved plus the total amount of household effects stored shall not exceed the total weight allowance prescribed (by the Joint Travel Regulations) for a major in the U. S. Army. All travel transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with the organization's regulations and, where applicable, the Joint Travel Regulations.

(e) You will be advanced or reimbursed funds for necessary operational expenses as specifically approved by this organization. Such funds will be subject to accounting in compliance with the regulations of this organization.

(f) It is anticipated that by virtue of your duties on this particular assignment for this organization you may be required to fulfill the minimum Department of the Army requirements necessary for the receipt of extra-hazardous duty pay (demolition pay). If such requirements are met and proper certification is made thereto, and if for security or operational reasons such payments cannot be made to you by your parent military organization, then, this organization will pay to you the sum of $100.00 per month in lieu of an identical amount you would have received from the United States Army had you been on overt military duty abroad. Your mission chief, or a responsible senior mission official will be required to certify to this organization that the handling and exploding of demolitions is a requirement of your duty with this organization, that you have fulfilled the minimum Department of the Army regulations necessary for the receipt of such extra-hazardous duty pay, and that no payment therefor has been received by you from your parent military service.

(g) You will be entitled to leave in accordance with the policies of your parent military service. Upon the completion of your present assignment, you will be required to certify to your parent military service the number of days annual leave you have taken during your assignment with this organization.

(h) If, in the performance of your cover service, you assume the custody of government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by this organization to evidence this relationship.

3. You will be required to keep forever secret this Letter and all information which you may obtain in the course of your association with this organization (unless released in writing by this organization from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the espionage laws dated 25 June 1948, as amended, and other applicable laws and regulations.

SECRET

4. The conditions of this authorization are predicated upon the assumption that you will be assigned to Saigon, Indo-China under bona fide military cover, and that you will continue under such cover for the duration of your overseas assignment with this organization. Any deviation from those facts will require a new Letter of Authorization or amendment thereto.

MEMORANDUM FOR: Mr. John H. Richardson

FROM: Major Lucien E. Conein

Attached hereto is a copy of a letter I am forwarding to Dick Helms. The letter in itself is self-explanatory.

I want you to know that my decision is in no way intended to reflect on you or the SE Division.

Lucien Conein

Attachment.

11 December 1953

Dear Dick,

You will recall that it was my intention in 1951 to civilianise and assume a staff position upon my return from Germany. Since my return last August, however, I have decided to return to the Army and, accordingly, I signed a statement of category to this effect on 1 December 1953.

This decision is in no way a reflection on you or members of your staff but rather recognition that I cannot afford to civilianize due to my personal obligations. I intend to inform John Richardson of my action at the same time you receive this letter.

Since I am at present holding a slot, I think it is only fair to all concerned to have it filled by a qualified person before my departure.

I want to thank you and Gordon for the trust you have given me in the past. You may rest assured that I will always be glad to be of service to the Agency in the military if the need should ever arise.

Yours truly,

SUBJECT : Recommendation for Promotion to GS-14
Charlotte Bustos-Videla

1. It is recommended that Charlotte Bustos-Videla be promoted from GS-13 to GS-14.

2. The performance of this officer has been characterized for many years by all of her supervisors as consistently strong to outstanding. She has been able to establish herself as indispensable in each Headquarters Branch or Field Station assignment, usually functioning as the backbone of the unit to which assigned. Since return to Headquarters in September 1972 from her field assignment in Mexico, her performance has been entirely congruent with the thrust of the Field Station's enthusiasm over her ability, performance, attitude and growth potential. She is currently chief of the Cuban and CA Section of her branch, and has established once again her mastery over her assigned duties. She is the kind of sound, dependable, yet imaginative officer greatly appreciated by her supervisors. In short, she is a true professional who performs beyond her grade level.

3. In regard to her potential, she has served in the Agency since 1951, starting as a secretary/stenographer, and advancing brilliantly with each new challenge offered. She achieved professional status in 1953 and has spent the bulk of her time since then specializing in Latin American affairs, demonstrating total flexibility in assignments, a voracious appetite for work and a penchant for exceptionally precise and thorough production. A review of her career to date can lead to the conclusion that she has always risen successfully to each new professional challenge, and is still far from reaching her maximum capacities. While she has had little supervisory experience in the field, her supervisor was of the opinion that she is a "natural leader". This has been borne out in her performance in her current capacity as a Branch Section Chief, in which she has demonstrated exemplary supervisory ability. Notwithstanding her drive, aggressiveness and professional aplomb, she is a popular co-worker, is receptive to guidance and sensitive and responsive to the needs of her subordinates.

4. This employee has utilized her fluency in the Spanish language to maximum advantage in her work. Formal testing recently confirmed her high proficiency in that language. Coupled with a comprehensive training record and her invaluable experiences over a twenty year period, she has become particularly effective in Latin American operations and operational support, demonstrating excellence in each of several recognized specializations, including CI operations, functional support, reports and requirements, area support and varied covert action activities.

5. The officer's adaptability, high intelligence and mastery over her trade was of inestimable value to Mexico City Station, and over a five year period from 1967 to 1972, she functioned as the Station's internal troubleshooter. Her duties included the maintenance of watchlists, screening of travel documents, processing of raw technical take, target analysis, reports writing, operational support, handling of outside contract agents, and special assignments as the Chief of Station's Executive Assistant.

6. The employee is occasionally called upon by the Office of Training to administer specialized training, and she was chosen recently to attend the Mid-Career Course ending in December 1972. Meanwhile, her absence from her new job is felt sorely by the Branch. It is expected that her current assignment will last about two years.

7. In summary, we have here an exceptional officer who has been performing at the level of a GS-14 for some years; it is now time to promote her to that grade commensurate with her performance and which she so justly deserves.

SUBJECT : Request for Quality Step Increase (HR 20-37)
Mrs. Charlotte Bustos-Videla

1. On the basis of the information presented below, it is recommended that a Quality Step Increase be approved for Charlotte Bustos-Videla.

2. As noted in the attached fitness report, Subject's performance of her duties has been uniformly outstanding. In addition to her responsibilities in the Cuban section of the Mexico City Station, she has recently been made the executive assistant to the Chief of Station at Mexico City. In this job, she screens all incoming material for matters of interest to the Chief and Deputy Chief of Station. She also continues performing her past functions in the Cuban section for the Station.

3. Subject's present high quality of performance is typical of her performance since she entered the Agency in 1951. It is fully expected that this level of performance will be maintained.

4. Although the present Chief of Station was not the reviewing official on the attached fitness report, he has commented that he considered Subject an outstanding officer and has recommended that she be considered for a Quality Step Increase.

SUBJECT: Recommendation for Promotion to Grade GS-13
Charlotte Z. Bustos-Videla

1. The promotion of Charlotte Z. Bustos-Videla from GS-12 to GS-13 is hereby recommended.

2. This exceptional officer has now been performing at a senior level for several years and, while recognition through a Quality Step Increase was granted her last year, her sustained performance clearly exceeding the requirements of a GS-13 qualifies her for a promotion at this time. Subject is one of the outstanding women who have demonstrated their capacity for even further advancement within the Agency and will probably continue to advance in the future. The present recommendation is based on already demonstrated ability to operate at a senior level.

MEMORANDUM FOR: CSPS/B

SUBJECT : Recommendation for Promotion of Charlotte Bustos-Videla

1. The promotion recommendation to GS-13 of Mrs. Charlotte Bustos-Videla is hereby submitted. Mrs. Bustos-Videla entered the Agency in August 1951 as a GS-5 and rapidly and deservedly rose to a GS-12 by 1959. She has now been almost seven years in grade and has been recommended for promotion to the CSPS/B by WH Division five times previously.

2. This outstanding officer has continued to perform at the exceptional level which has by now become her standard of performance. Her past four annual Fitness Reports have each given her an overall rating of outstanding. In this connection it is noteworthy that no two Fitness Reports were written by the same rating officer. She continues to occupy a GS-12 officer slot and her performance clearly continues to exceed the requirements for that position. She is considered to be one of the outstanding women who have demonstrated their capacity for further advancement within the Agency.

3. Mrs. Bustos-Videla not only continues to bring continuity to the Mexican Branch through her long experience on Mexican affairs, but consistently contributes to the smooth functioning of the Branch through her highly efficient organizational capabilities. She has been called upon to handle all manner of difficult desk problems. She invariably responds quickly, cheerfully, and effectively. She has been instrumental in on-the-job training of a number of officers, both for desk assignments and in preparation for field assignments. She has excellent rapport with innumerable persons in other areas and staffs, thus adding to the efficiency and speed with which she accomplishes her daily tasks. Her promotion at this time is urged.

MEMORANDUM FOR: Charlott Z. Bustos-Videla

THROUGH : Head of CI Career Service

SUBJECT : Notification of Non-eligibility for Designation as a Participant in the CIA Retirement and Disability System

1. As you may know, we are in the process of reviewing the employment history and current ~~career~~ field of all employees in the Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the System, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the System may be designated participants as soon as possible.

2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you do not have sufficient time prior to completing 15 years of service with the Agency in which you could complete a minimum of 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the future.

3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees."

4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 205, Magazine Building (extension 2847). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the CIA Retirement Board. However, this request must be made within 30 days of the date of this memorandum.

SUBJECT : Recommendation for Promotion to Grade GS-13, Charlotte Z. Bustos-Videla

1. The promotion request from GS-12 to GS-13 on Mrs. Bustos-Videla is hereby submitted.

2. This outstanding officer has continued to perform at the exceptional level which has by now become for her a standard of performance. She now formally occupies a senior (GS-13) FI Officer slot in the Mexican Branch and her performance clearly continues to exceed the requirement for that position. She is still considered to be one of the outstanding women who have demonstrated their capacity for further advancement within the Agency, independently, of the experience on Mexican affairs acquired through continuity in her present assignment.

3. The comments made in connection with the four previous promotion recommendations continue to be entirely applicable.

MEMORANDUM FOR: Secretary, CS/CS Panel (Section A)

SUBJECT : Recommendation for Promotion to Grade GS-13, Charlotte Z. Bustos-Videla

1. The promotion request from GS-12 to GS-13 on Mrs. Bustos-Videla is hereby resubmitted.

2. This outstanding officer has continued to perform at the exceptional level which has by now become for her a standard of performance. She now formally occupies a senior (GS-13) FI Officer slot in the Mexican Branch and her performance clearly continues to exceed the requirement for that position. She is still considered to be one of the outstanding women who have demonstrated their capacity for further advancement within the Agency, independently of the expertise on Mexican affairs acquired through continuity in her present assignment.

3. The comments made in connection with the three previous promotion recommendations continue to be entirely applicable.

4. Subject is 36 years old and has been in grade as a GS-12 for the past six years.

MEMORANDUM FOR: Secretary, CSCS (Panel A)

SUBJECT : Recommendation for Promotion to GS-13
Mrs. Charlotte Bustos-Videla.

1. The promotion to GS-13 of Mrs. Charlotte Bustos-Videla is recommended. Mrs. Bustos-Videla entered the Agency in August 1951 as a GS-5 and rapidly and deservedly rose to a GS-12 grade by 1959.

2. This recommendation is based on Mrs. Bustos-Videla's performance during the past three years as the senior assistant to the various chiefs of the Mexican desk/branch, who unanimously have found her to be extremely competent and reliable both in her routine assignments and special tasks occasionally levied on her, such as country studies, compilation of programs, requirement reviews, etc.

3. Mrs. Bustos-Videla has consistently responded with intelligence and clarity and has materially contributed to orderly imaginative administration of Headquarters support to a most active station. In the process, she has been instrumental in training on-the-job innumerable officers both for desk assignments and in preparation for field assignments.

4. For her outstanding performance she received a quality step increase in April 1964. This deserved recognition should now be followed up at this time by a promotion to the next grade in accordance with the consistently good performance at the GS-13 level over a prolonged period of time.

Chief

MEMORANDUM FOR: Head, Clandestine Services Career Service

SUBJECT : Notification of Approval of Quality Step Increase - Mrs. Charlotte Bustos-Videla

1. I am pleased to send to you the attached official notification of the approval of the Quality Step Increase which you recommended for this employee.

2. The salary increase accomplished by the award of a Quality Step Increase is important and tangible evidence of the esteem in which the employee so recognized is held. However, I believe the commendatory and incentive benefits of this award will be partially lost unless it is presented in an appropriate ceremony which will afford the individual recognition among co-workers and supervisory officials. Also, I believe such recognition serves to inspire other employees to aspire to earning such recognition.

3. May I ask, therefore, that you arrange to have this Quality Step Increase presented at an appropriate ceremony.

THROUGH : Chief, Clandestine Services Personnel Office

SUBJECT : Charlotte Z. Bustos-Videla -- Request for Quality Step Increase

1. It is recommended that a Quality Step Increase for Mrs. Charlotte Z. Bustos-Videla be endorsed by you for the reasons presented in the attached memorandum prepared by the Chief, Western Hemisphere Division.

2. A review of Mrs. Bustos-Videla's Official Personnel File [illegible] supports the statements of [illegible]. Without exception, the performance of this officer during [illegible] Agency employment has been identified by various and all supervisors as "Superior" and "Outstanding." Likewise, nothing in other records maintained by the Office of Personnel contradicts or modifies the impressive record made by Mrs. Bustos-Videla.

3. Testimony to the high regard which officials of WH Division view this officer's work is furnished by noting that Mrs. Bustos-Videla is the first female officer to be proposed for a QSI by WH and one of a total of but three officers nominated by that Division for the award since the QSI provision of the Federal Salary Reform Act of 1962 became effective in CIA approximately fifteen months ago.

MEMORANDUM FOR: Deputy Director of Plans

ATTENTION : DDP/OP

SUBJECT : Request for Quality Step Increase for Charlotte Bustos-Videla

1. On the basis of the information presented below, it is recommended that a quality step increase be approved for Charlotte Bustos-Videla.

2. As stated in the accompanying Fitness Report, Subject's performance of her duties has been uniformly outstanding. In addition to her responsibilities as the desk officer for Mexico FI and Operational Support Projects, she carries a heavy burden in the areas of administration, preparation of special reports and training of personnel. She frequently represents the Mexico Section in dealings with other elements of the Agency and acts for the Chief of Section in his absence. Subject's performance clearly exceeds the normal requirements of the assignment and of her present GS grade level.

3. Subject's present high quality of performance typifies her performance over a period of several years and it is fully expected that this level will be maintained.

4. Consideration was given to the granting of a Merit Award but the quality step increase seems more appropriate in this case. Subject has been passed over for promotion in the past and due to limitations as to

area of assignment, it is unlikely that a promotion to grade GS-13 can be obtained. The salary increase is therefore thought to be the most fitting reward for her outstanding service.

SUBJECT: Recommendation for Promotion to Grade GS-13
Mrs. Charlotte Bustos-Videla

1. Mrs. Charlotte Bustos-Videla entered on duty with WH Division in August of 1951. She has served on a variety of desks covering South American as well as Mexican and Central American affairs. In each of her assignments she has demonstrated exceptional competence and devotion to duty.

2. Since December 1957 Mrs. Bustos has been assigned to the Mexican Desk and at present is Acting Chief. She is the soul and motor of that desk, managing many of its operations and supervising its staff, many of whom she has trained. She is past mistress of administrative procedures and the ease with which she obtains clearances, maintains files and secures necessary approvals while handling the most complicated operational aspects of projects is phenomenal. Her work output is enormous and yet everything is done simply and modestly with a minimum of excess motion. She is an outstanding employee and should be deserving of recognition.

3. It is recommended that Mrs. Bustos be promoted to grade GS-13.

In the 8 months during which she was under my supervision, Mrs. Bustos has performed in that same hard-working, highly-productive style which has become her trademark over the years. She understands the intelligence process from start to finish and is personally experienced with each step along the way, save the agent handling aspects. She excels in each phase of the work.

As chief of the Branch SA and Cuban activities section, she has once again demonstrated her mastery over her assigned duties. She is a sound, dependable, yet imaginative and energetic operations officer, whose performance leaves little to be desired. While she had had little previous supervisory experience, she has in this assignment demonstrated exemplary supervisory ability. Notwithstanding her drive, tenacity and attention to detail, she is a popular co-worker, is receptive to guidance and is sensitive to, and responsive to the needs of her subordinates.

In her performance of specific duty No. 2, she has brought to bear upon her daily duties her broad experience, high intelligence and good operational sense, functioning with practically no need of close supervision. It is comforting to know that an assignment given to this employee is always done promptly, professionally and cheerfully.

Her adaptability was demonstrated in her specific duty No. 3. Despite the press of normal daily activity, she was often called upon to produce "crash"

COMMENTS OF REVIEWING OFFICIAL The rater has written an accurate and thorough evaluation of Mrs. Bustos. I concur without reservation in the ratings provided subject. She is an exceptional officer. Her ability to perform a variety of assignments in Headquarters and the Field has measured up to an outstanding record. Her work with subordinates clearly indicate she is a good supervisor. Mrs. Bustos performs all facets of her work in an exemplary manner and in my judgement rates in the upper percentile in the A Category.

papers for the Branch because of her innate talents and established reliability. She never failed to impress her supervisor with her production, writing ability and energy. Her overall performance is clearly in excess of her grade level.

In terms of true cost and security-consciousness, she must also be considered very strong because she has a positive and aggressive attitude towards these subjects. It is with deep regret that the Branch parts with this employee who now moves up to the Division front office staff.

In reviewing my previous fitness report and those of my predecessors, on this fine officer, I find myself hard put not to repeat what has been said so often before. She has been the backbone of this section and of those where she has worked previously. Her work has always shown excellent judgement and ingenuity. A self-starter with tremendous drive and discipline, the amount of work she has produced has been prodigious. An excellent team worker, she has never shirked when - as so often happens - she is asked to take on additional work or work on a matter outside of her regular field. While forceful, she is diplomatic and tactful and is able to present suggestions and criticisms in a pleasant manner. She is one of the most dedicated persons I have met in the Organization, and exceptionally dependable. While, as a woman and a Specialist, she has had little opportunity to handle agents she has done very well with those we have given her to handle. She has showed great ability in the training of two transcribers and in the debriefing of two female agents and their husbands. This is in large part due to her in-depth knowledge of the targets this section is working on. The past few months have been difficult, requiring the complete reorganization of this Section and the termination of the majority of our assets. Under this stress, she has performed in her usual outstanding manner. Perhaps, even a little better. Her handling of a great deal of file work has been excellent, probably in part because she was the one who set it up and has maintained it in its present very good state. (continued)

Without any hesitation I concur with the outstanding ratings above. Subject is now up for rotation and we will miss her immensely. For years she has dedicated her entire time to her job which she has done so well. She has been creative, thorough and accurate. Although she has not had supervisory experience at this station, she has performed in a manner which clearly reflects that she would have no problem with supervising. A truly outstanding employee with growth potential.

The one criticism of this Officer's work that I and others have made in the past still stands. She tries to do everything and somethings in this business just don't deserve the attention she gives them.

I have no personal knowledge of her supervisor abilities, but believe she is a natural leader.

This supervisor has worked with a variety of Intelligence Assistants. Many were good, but none compared with this Subject. She is the most thorough and fastest working IA I have met. Her capacity for hard work and long hours is prodigious. Her knowledge of operational matters is equal to that of most case officers. She has an operationally creative mind and has made many excellent suggestions for the improvement of the section's work. Additionally, her command of the Spanish language enhances all of the above abilities. This officer has found her very pleasant to work with. She has a unique ability to make constructive criticism in a tactful manner.

If this Subject has a weakness, it was pointed out by the reviewing officer in the last fitness report when he said, "in her voracious appetite for all kinds of facts (she) can at times put undue emphasis on them, including factual minutiae as against equally important but more elusive subjective factors.

Because of her outstanding performance and abilities the Subject will be given some activity handling agent personnel, during the forthcoming year.

The Subject's continued fine performance since her last promotion merits special consideration by the Promotion Board.

I concur with the above ratings and comments. Subject performs all the tasks outlined above in a very professional and methodical manner. One does not even sense that the work is going on until the finished product is produced. It is always excellent. We count heavily on her thoughts and ideas in all operational studies and considerations. She is ops oriented and has an excellent bank of information to call on when necessary. She is pleasant and has the respect of her co-workers as well as her supervisors. Her abilities are varied and she can be counted on to perform extremely well regardless of assignment or target. We will be losing this fine officer soon and we will be hard put to find someone who will be able to replace her.

APR 12 9 32 AM '71

Subject worked most of the year in the station PBRUMEN section. She was clearly outstanding in collating information from all sources during a recent intensified "PBRUMEN" month, determining as a result the overall pattern of the PBRUMEN mission here, spotting operational leads and updating target studies on all PBRUMEN officials as a result. Her final writeup regarding both new information obtained and the gaps that remain was thorough and useful.

Subject is extraordinarily rapid and efficient in researching for info, organizing files and other material and writing up any kind of resulting memo or dispatch. The same might be said perhaps of some other real pros in the IA field. However, in addition, Subject has a good, tough, operations-oriented mind and positively contributes ideas and suggestions re new operational techniques which the station has used profitably. Subject has natural managerial abilities as recently demonstrated in her organizing TDY help in a station-wide file and watchlist effort in connection with a presidential visit. Her Spanish is more than adequate for reading reports, and handling operational messages in that language. In sum, Subject is a tremendous station asset and would be extremely hard to replace without noting a serious loss in station efficiency.

COMMENTS OF REVIEWING OFFICIAL

Although in my opinion there is an excessive use of "outstanding" by the rating officer, I am in accord with his narrative comments. Subject is definitely more than an IA and has performed as such when the station has required an individual with in-depth knowledge of station procedures, operational awareness combined with an ability to prepare studies in a short period of time. She's thorough, concise and rapid. One of our hardest workers and most dependable employees.

SECTION C NARRATIVE COMMENTS -continued

Three rather personalized comments might add meaning to this fitness report. Anyone, particularly a female, fitting the above description of efficiency and achievement can be, and often is a little overbearing and difficult to work with as a person. Subject, withall, is a pleasant personality who knows how to make her contributions and comments in a forthright but tactful manner. Secondly, and this one is a little hard to say, Subject in her voracious appetite for all kinds of facts can at times put undue emphasis on them including factual minutiae as against equally important but more elusive subjective factors. Thirdly, this rating officer has personally observed Subject only working on station premises at an office job, and frankly has no idea how she might function in outside operational work (cultivating people, working under outside cover).

SUBJECT: Overall Outstanding Rating on [redacted]:
Method of Recognition

1. This memo is being written in accordance with paragraph three of Book Dispatch 5273 of 12 April 1966.

2. [redacted] was last granted a Quality Step Increase about a year ago in recognition of her very fine performance. It is a little early to repeat that kind of recognition even though it is a most logical and meaningful means to show recognition of her outstanding work.

3. Consideration should be given to an appropriate occasion in the fairly near future to grant another QSI to [redacted].

In July 1969 Subject was transferred from the Cuba Section to the Station front office to serve as an executive assistant to the COS with special responsibility for ensuring that the paper flow of the Station remained under effective control during the period of transition resulting from the assignment here of several senior officers. This transition period necessitated or gave rise to a number of changes in the management and administrative areas of the Station. Subject's performance in this assignment under these circumstances was clearly outstanding. Her sound judgement, imagination and responsiveness to guidance not only contributed to maintaining the stability and momentum of the Station but also made possible an early effort to come to grips with many of the problems which an inflated Registry and a highly distinctive records system created for the new Station management team.

During the ensuing six month period, Subject has recommended and implemented a number of changes which have produced a more effective and less costly records system. Paper holdings have been reduced substantially, input has been reduced and now conforms to basic CS procedures and requirements. Personnel savings have been effected and supervisory responsibilities more clearly delineated.

To sum up, Subject has made and continues to make a major contribution in a singularly unsensational area of Station activity. Her advice is sought and appreciated not only by the COS and myself, but by other

COMMENTS OF REVIEWING OFFICIAL: It would be difficult to overstate the contribution made by Subject to this Station during the past six month period, and I concur fully in the ratings and comments of the Rating Officer. I might add that Subject is one of the more versatile, conscientious and productive employees with whom I have worked in this organization, and that in addition to the administrative/management role outlined above, continued to provide valuable operational/analytical assistance to the Cuban and other operational sections of the Station. The initiative and imagination shown by Subject in the very complicated administrative management assignment have been particularly commendable and her complete familiarity with the country, the language, and the background of the Station has been invaluable during this period of change.

personnel who appreciate her personal and professional qualities.

Subject is aware that her current assignment is an unusual one and that she soon may have worked herself out of her current job. Since she speaks fluent Spanish, has a unique ability to get along with people and to get things done, there will be no problem in assigning her back into a position more closely supporting operations. Our operations are certain to benefit thereby.

Subject's performance continued during the period under review to deserve high praise. Her enormous appetite for work, her attention to detail, her ability to absorb and digest enormous files and complicated cases, her professionalism and devotion to the duties entrusted to her really deserve the rating of outstanding. Subject speaks good Spanish, has considerable initiative, much experience in analytic work and a genuine talent for administrative work.

In view of her past performance, her record at the Station and her potential, Subject who was recommended for promotion to the GS-14 level should be promoted as soon as possible.

Subject's performance during the period of over one year under review continued to deserve the rating of Outstanding. Her major contributions during that period were in the fields of operational research and exploitation of information obtained through technical means. She was, during this period, given full responsibility for the handling of two full time senior transcribers including administrative matters. In view of the difficulty of recruiting target personnel the task of fully exploiting information obtained from technical sources is of great importance. Subject handled this task with her usual enormous capability for work, displaying initiative and great professionalism. She continued, in addition, to handle the other tasks listed in this report together with sensative reporting sent by a separate channel, altogether a much heavier workload than is usually carried by one person. She was helped in this by her good knowledge of Spanish, a talent for administrative work, considerable analytic experience and great devotion to her work. Subject should be considered for promotion to the grade of GS-14 at the first opportune moment.

Since her arrival at this Station, Subject's performance has truly been outstanding. She has, on her own initiative, reorganized many of the operational files and procedures of the PBRUMEN Section. She has made particularly useful exhaustive analyses of the documents concerning a number of Station targets not only per request of this Station but also on her own initiative. She has revamped the Section's travel program, curtailing the watchlist to more manageable size and expediting the reporting of travel information to the many customers for such information. Her thorough review of the take of several technical operations has increased their usefulness as well as emphasized their weaknesses.

Subject's [illegible] talent for administration, her initiative, sharp analytic mind and good knowledge of Spanish have greatly facilitated the operation of the PBRUMEN Section of this Station at a time of almost complete personnel change. She has not been directly involved with the actual running of operations both because she appears much better suited for the support type work intrusted to her and because she frankly would not have the time under present circumstances to do so. Subject is carrying the workload usually handled by more than one person.

She is efficient, she is fully knowledgeable and capable in her job, she has a friendly, warm, and pleasant personality, and is always ready to respond to her fellow workers with a helping hand. She has no supervisory responsibility per se, but is frequently called upon for guidance to new secretaries and case officers alike and is of real help in such cases. This exceptionally competent and productive officer continued to perform at a level well above that of the GS-13 slot she occupies. While a good deal of her tremendous effectiveness stems from experience, continuity on the job and her natural retentive memory, during the period under review she also demonstrated a flair for, and applied her talents to, the solution of relatively major and complex planning and managerial problems in the area of operational support to Mexico Station activities.

To the list of her previously abudantly acknowledged capacity for hard, effective work, talent for training on the job younger officers, diligence, and versatile ability, this rater would like to add a note of appreciation for her everpresent tactfullness and discretion. No weaknesses affecting her present assignment have been noted; she is very careful and realistic in planning for expenditure of funds.

This officer is separately being recommended for promotion to GS-13.

WH will review this fitness report with others during a special meeting scheduled periodically to consider suitable recommendation for outstanding performance.

Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject's performance during the rating period has been marked by general excellence. As indicated in Section B her supervision and direction of the Section's work relating to intel support, administration, preparation of special reports, training personnel, etc. is uniformly outstanding. The fact that these functions are handled in addition to her duties as the desk officer for the FI and Ops Support projects, which she performs with unusual competence, serves to illustrate her value to this Section. She has an exceptional ability independently to determine proper courses of action and to initiate action to carry them out. She has a profound understanding of the area operational program and contributions to it are imaginative and constructive.

In the opinion of the rater Subject's performance compares favorably with any GS-13 desk officer within his experience and she performs occasionally at the GS-14 level. Moreover, she carries out her duties cheerfully, loyally and in close and amicable cooperation with her fellow employees at all levels.

In those aspects of her duties which involve cost e.g. the review of operational projects, she has given close attention to the budgetary matters and has frequently suggested ways in which economies an the operations might be effected.

REPORT ON FOREIGN LANGUAGE APTITUDE AND EXPERIENCE

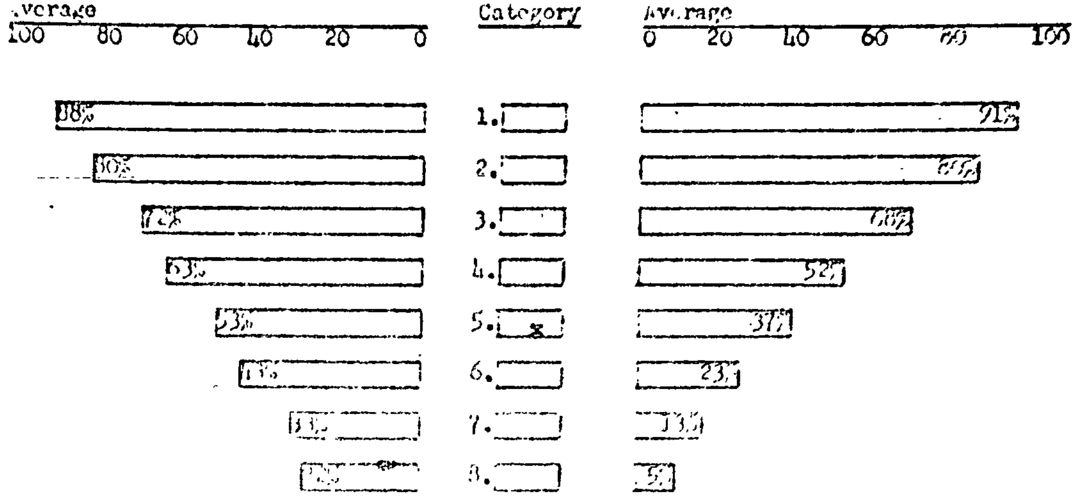
~~[illegible]~~ (Name) ______ (Office) ~~Female~~ (Sex) ~~27 September [illegible]~~ (Date of testing)

The category checked below is an interpretation of the scores made by the person named above on a battery of foreign language aptitude tests. The relationships between test performance and subsequent training performance of trainees in Agency language training courses are indicated by the graphs next to the aptitude categories. The graphs to the left are for women and the graphs to the right are for men. From these graphs you can read for each aptitude category the probability that a person in that category will perform in an Agency foreign language training course at an average or better-than-average level. For example, 22 per cent of the women who obtain an aptitude rating of "8" can be expected to be average or better in course performance, while 5 per cent of the men with ratings of "8" can be expected to be average or better in course performance. A man needs an aptitude rating of "6" to have about the same expectation of success in language training as a woman with a rating of "8". At the other end of the scale, 80 per cent of either men or women who obtain aptitude ratings of "2" can be expected to do average or better-than-average work in training. The differences in relationship are due to differences between men and women in both training performance and test scores. On the average women are somewhat higher on both.

Percent of Women Whose Language Training Performance Is Expected to Be Average or Better than Average

Aptitude Category

Percent of Men Whose Language Training Performance Is Expected to Be Average or Better than Average



Since many things other than aptitudes enter into the determination of training course performance, in any class of students there will usually be some whose performance will be better than would be expected from their test scores, just as there will likely be some whose performance is poorer than expected. STRENGTH OF MOTIVATION, PRIOR EXPERIENCE WITH A FOREIGN LANGUAGE, and other factors should be considered in selecting people for language training and in interpreting language training results. For example, the number of languages previously studied or learned and the amount of academic and non-academic language-learning experience are factors not measured by the tests but are indicative of probable success in learning a foreign language. Whether such experience was in the same language as the one to be studied or in a different one is, of course, an additional relevant factor.

State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

This officer is the person chiefly responsible for the Mexico Desk's deserved reputation for excellence and efficiency. The complicated and never-ending tasks of project processing, clearances, tracing, and coordination are handled by her with blinding speed and unerring perfection. Procedural problems are there to be solved, and the solutions come with amazing rapidity. Operational problems are worked out thoroughly and conscientiously. No corners are cut and no principles are compromised.

Never at a loss for an answer, this officer never shrinks from any assignment and instinctively wants to take over any vexing problem which is holding up progress. She is complete mistress of file and record resources and answers all queries within minutes. The most complex budgetary and planning projects are handled by her with deceptive ease.

These qualities of rare efficiency and speed are coupled with an even rarer degree of amiability and cooperativeness. The work which proceeds under her at such a break-neck pace nonetheless goes on in an air of placidity and good humor. The large office staff is run without a trace of tension, jealousy, or friction. All of this is traceable to this officer's fine example and catalytic effect on her colleagues.

Finely-educated, handling the Spanish language with fluency, and keeping up with current events in her area, this officer is a unique asset to our organization.

This is a truly outstanding employee with capabilities far beyond those required for her present position. She has an unusually keen mind, makes decisions that are correct without hesitation and carries out all actions promptly and efficiently. She is the supervisor of the office staff, who respect and admire her ability. In addition to her skill, she is possessed of a most pleasing disposition which ingratiates her with the other members of the staff. The years of experience she has had at the various jobs to be done at a country desk make her invaluable as a trainer and supervisor for new personnel. Her knowledge of Spanish has also been especially helpful at the Mexican Desk. This supervisor would be most pleased to have her serve with him on any future assignment.

SUBJECT: PERSONNEL QUALIFICATION QUESTIONNAIRE

1. The Agency is currently revising the system for machine coding employee qualifications, thereby permitting more complete and accurate data on all personnel. The new system will aid in implementing Agency policies on promotion from within by facilitating the selection of personnel with desired education and experience for vacancies which may occur. It is also expected that the new system will provide readily accessible statistics for planning and management purposes.

2. The attached questionnaire is designed to cover adequately those factors in which the Agency is interested. Although the information is, in a large measure, already reflected in previous forms submitted by you, it is felt that your time within the organization may enable you to emphasize those qualifications pertinent to its needs. The questionnaire also serves to bring your education and qualifications record up to date.

INSTRUCTIONS TO APPOINTING OFFICER

The appointing officer before whom the foregoing certificate is made shall determine to his own satisfaction that the appointment would be in conformance with the Civil Service Act, applicable Civil Service Rules and Regulations and acts of Congress pertaining to appointment.

This form should be checked for holding of office, pension, suitability in connection with any record of recent discharge or arrest, and particularly for the following:

(1) *Identity of appointee.*—The appointee's signature and handwriting are to be compared with the application and/or other pertinent papers. The physical appearance may be checked against the medical certificate. The appointee may also be questioned on his personal history for agreement with his previous statements.

(2) *Age.*—If definite age limits have been established for the position, it should be determined that applicant is not outside the age range for appointment. Until such determination is made, the appointment may not be consummated.

(3) *Citizenship.*—The appointing officer is responsible for observing the citizenship provisions of (1) the Civil Service Rules and (2) appropriation acts. Form 61 constitutes an affidavit for both purposes and is acceptable proof of citizenship status in the absence of conflicting evidence. In doubtful cases the appointment should not be consummated until clearance has been secured from the certifying office of the Civil Service Commission.

(4) *Members of Family.*—Section 9 of the Civil Service Act provides that whenever there are already two or more members of a family serving under probational or permanent appointment in the competitive service, no other member of such family is eligible for probational or permanent appointment in the competitive service. The appointments of persons entitled to veteran preference are not subject to this requirement. The members-of-family provision does not apply to temporary appointments. Doubtful cases may be referred to the appropriate office of the Civil Service Commission for decision.

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

As explained in the previous fitness report, Subject was assigned to the Station for the purpose of taking charge of the Station's joint telephone tap center, a position for which he was and is eminently qualified by reason of extensive experience and outstanding language qualifications. However, this position did not materialize because of circumstances beyond the control of Subject and the Station.

It was therefore subsequently decided to train Subject locally, and have him gradually assume case officer and analyst responsibilities in certain simpler aspects of the Station's Soviet program.

Given the circumstances that Subject had not had prior case officer or analytical experience (or even any substantial past exposure to operations to give him vicarious experience) he progressed more than adequately in absorbing the training offered, in assuming responsibility for two Soviet operations and in the preparation of analytical studies on the Soviet complement. Given the further circumstances that the Station did not have the time to train him more than superficially, and that the operations he handled were basically uncomplicated, it must be stated that Subject cannot now be considered to be a case officer.

This conscientious and intelligent officer has high interest and enthusiasm for operations, but it is believed that his forte and future lies in the management of technical operations. This has been recognized also by Headquarters in the assignment presently planned for him.

As a staff agent under tourist cover, he and his family adapted themselves remarkably well to the deep cover situation and to all other environmental factors.

SECTION C **NARRATIVE COMMENTS**

OFFICE OF ... MAIL ROOM FEB 13 1 26 PM '64

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

From the time of Subject's arrival in Mexico and through 31 December 1963, he was utilized principally in translation work and was held on tap for the position of heading up the Station's joint telephone tap center. Circumstances beyond the control of the Station and Subject are responsible for the fact that the incumbent in charge of the center will continue these duties and Subject will be given other responsibilities.

Primarily, Subject will be trained to handle analyst and case officer responsibilities in the Soviet field. The level and range of the responsibilities will depend on the progress Subject makes in handling these duties in a manner satisfactory to the Station.

Subject is most conscientious and effective in every assignment given him to date, and the Station is extremely pleased to have him available as an outside Station asset. He is enthusiastic about all his work, including certain part-time routine and arduous duties, and he looks forward with confidence to the prospect of becoming a case officer. Although it is premature to state positively that Subject will succeed as a case officer, the supervisor believes that Subject will undoubtedly progress adequately.

Subject and his family have acclimated themselves excellently to the deep cover situation, faster than most of the Station's other staff agents, and certainly with fewer problems and requests for guidance from the Station's staff.

During most of the period reported on, Subject was concerned with administrative problems associated with the phase-out of the Station. Despite the consequent operational lull, Subject continued to maintain a satisfactory degree of morale in agents assigned him, worked up and implemented realistic training programs, and continued to develop excellent targets studies against the possibility of a policy change. In addition, important information collected locally by Subject on illegal activities of Cuban refugees was of great interest to other agencies offices in the area. Subject was the only Station source of such information which was acquired only because of Subject's ability to maintain rapport with agents, terminated during the period because of the cutback in infiltration operations.

It could also be noted as Subject finishes his long tour at this Station and prepares for his next assignment, that he is a thoroughly professional intelligence officer and is, in many ways, an outstanding one. Technically, he is an expert on infiltration tactics and, through his Special Forces experience, an expert on anti-guerrilla warfare as well. Just as important, is his ability to gain respect and rapport with foreign agents. He has an imaginative approach to operations, is resourceful in devising tactics, and determined in carrying out his assignments. He is a definite asset to WOFIRM.

During the period under review, Subject has continued to produce at his previous high level and he has planned and executed three intelligence collection operations against a denied area with the two teams under his supervision and direction. His leadership qualities have, to a large degree, enabled him to maintain his commando group morale at a high level under the difficult circumstances of enforced inactivity. Subject's indigenous agents respect him and are willing to follow his instructions to the letter. Subject's seemingly limitless resourcefulness, drive and initiative coupled with his demonstrated proficiency for this type of work mark him as one of the few persons known to the Rater who is ideally suited to this particular type of agent handling on a day-to-day, face-to-face basis.

During the reporting period Subject has committed his four infiltration boat teams on a total of seven operations and excellent results have been realized. He has conducted extensive testing of equipment and techniques in support of Station requirements and Headquarters requests. His reporting after these field tests has shown that his reporting ability has improved to such a degree to warrant a rating of strong in this duty.

He is cost and security conscious and has demonstrated his effectiveness in the use of personnel, equipment and operational funds. Subject has not had the benefit of formal language training and does not have a definitive language capability. In view of his long tenure of field assignments during his career with WOFACT, it is recommended he be given

During the period of this report Subject has continued to show an outstanding proficiency in the supervision of the Field Agents under his control. He has continued to maintain the morale of his agents and to keep them at a high level of proficiency by a strong training schedule and by planning and executing outstanding operations in the field of reconnaissance, deception, and Special Operations Teams. During the last four months he has also had the responsibility of forming and training three additional Infiltration Craft Crews. Subject formed two Special Operations Infiltration/Exfiltration Teams and conducted one infil/exfil operation into PBRUMEN. Subject has remained active in testing new equipment and techniques for possible use by the Station. Subject has an excellent concept of Special Operations-PM techniques and acts as advisor to Chief of Special Operations Branch on PM type activities in Special Operations. Subject continues to provide reports on exile activities in all areas and is constantly pushing his Agents in this field. He is a hard worker and is a capable administrator and supervisor. He knows his job, does not need close supervision and has shown ability to branch out into other fields of WOFACT activities. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

Subject has been under my supervision for approximately 6 months. During this period he has shown an outstanding proficiency in the supervision of his Commando Group. He is responsible for the logistical support, maintenance, planning and operations of the group and must also maintain their motivation and moral. As a result of the stand-down in PM activities at this Station, one of his major duties has been keeping his group motivated and happy. Subject has performed these tasks in a very professional manner; he has shown strong leadership qualities and a definite ability to adapt to difficult and frustrating changes in the operational climate. Subject has had the additional duty of handling an FI Agent for the Station. He has spent long hours on this activity and has shown that he is fully capable of broadening his scope of activities to other fields besides the supervision of a commando group. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

This is the third Fitness Report prepared on Subject since his assignment to this Station. The comments set forth on the two previous Fitness Reports by the Reviewing Officer and the Chief of Station are in the main still applicable. Additionally, Subject has a flair for getting along with the members of the Commando Group without losing objectivity. Subject's operational planning is sound and complete in all details. Subject is completely self-sufficient in operational command and agent relationship situations. Subject's performance at this Station clearly warrants an over-all evaluation of Strong.

SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject has shown a decided proficiency in the supervision of the type of unit for which he has responsibility. His men respect him and follow his orders readily. He is resourceful, acts with initiative, and delegates responsibility. In his field he thinks clearly and is decisive and versatile in his actions. He is capable of handling larger units of personnel and assuming greater responsibility in the PM field. If he were required to accept duties of a broader nature in the intelligence field involving less supervision of his own activities, he would need to improve in the areas of written and oral expression and in his understanding of KUBARK requirements and responsibilities. In this regard he would need additional training and exposure to more extensive KUBARK fields as he has not had the opportunity for participating in such KUBARK activities. Subject does not have the proficiency of the language used.

Continuation of FITNESS REPORT, Section D:

Subject is a well-qualified para-military specialist, who has fully mastered the tools of his trade. Subject applies all of his para-military knowledge in the performance of his current duties as the senior outside case officer for a thirty-man commando group, which is capable of carrying out a variety of different missions. These missions include caching operations, sabotage raids, tactical intelligence reconnaissance activities and contingency missions related to war plans. Subject is at his best in dealing with men and military equipment. Subject's major weakness is in records management and reports writing. Despite this minor weakness, Subject's over-all performance warrants an evaluation of Proficient.

Subject has the potential to train and operationally exploit para-military forces in units which have a T/O strength of not more than 60 men. Subject could command a conventional military formation at the battalion level. Subject is capable of mounting counter-insurgency operations with the use of forces up to battalion strength.

Subject's work comes to the attention of the Reviewing Officer on a bi-weekly basis.

Subject's future assignments should be in the para-military field. If Subject is to remain in operations in Latin America, he must be given an opportunity to study Spanish on a formal basis.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

As a former military officer, Subject is hard working and abundantly sincere in his efforts to fight Communism. His performance since Aug 1961 has not been at the top level of his capabilities for several reasons, not all of which are within his ability to overcome. Subject has had little clandestine training, and is therefore not always able to comprehend the intangible factors which prevent, delay and cancel operations. A further reason is the absence of military law as a basis for discipline for his men. Still another reason is the directive for only limited action with which he has had to live since August. This is merely to say that in a period of policy formation when the action forces have had to be held in limbo, he has not been at his best.

Subject's dealings with his agents have in turn been affected by his own frustrations. His inability to rationalize situations has resulted in obtuse explanations to them which have made them harder to handle. His reluctance to put things on paper has detracted from his performance and denied him the clarifying process which reporting provides. His security consciousness has been similarly affected by his frustrations.

Subject is in need of training in tradecraft and PM operations. His basic qualifications for PM Case Officer work are such that he can, with training, do a much better job. This combined with a program of concentrated action would undoubtedly bring out the best in him, which should be of real value to the Agency.

MEMORANDUM FOR : Director of Personnel

SUBJECT : CIARDS Retirement of Mr. Grayston L. Lynch, GS-14, SOD, on the Basis of Qualifying Domestic Service

1. This memorandum submits a recommendation for your approval in paragraph 4.

2. After more than twenty years of active military service, Mr. Lynch joined CIA in February 1961 to assist in operations against the Cuban target. He was awarded the Intelligence Star for his participation in the Bay of Pigs and related activities in the spring of 1961. Because of the sensitivity of his duties in behalf of CIA, his periods of foreign service were not recorded in the usual manner. From August 1961 until June 1968 he was intensively involved in the recruitment, training, administration and operational direction of a large number of agents as well as the planning and direction of operations into Cuba.

3. After reviewing his application for admission to CIARDS and corroborating statements from Clandestine Service officers acquainted with his work, the Clandestine Service Career Service Board concluded that Mr. Lynch's case merits a recommendation for approval. It is our view that the demands placed upon him were at least on a par with those borne by operations officers assigned overseas.

4. It is, therefore, recommended that Mr. Lynch be designated a participant in the CIA Retirement and Disability System on the basis of qualifying domestic service. If he is accepted for CIARDS, Mr. Lynch will apply for disability retirement.

MEMORANDUM FOR THE RECORD

SUBJECT : Grayston L. Lynch

REFERENCE: Mr. Lynch's memorandum to Director of Personnel, dated 22 June 1971.

1. On the basis of what I can recall from the time I was connected with the Bay of Pigs activity and my years with WH Division thereafter, Mr. Lynch has stated his tasks correctly.

2. Since the issue is whether Mr. Lynch's service in Miami could be considered equivalent to that of an Operations Officer overseas, the following might be considered:

Mr. Lynch had to operate clandestinely.

He used pseudonyms, safesites for meetings, non-official cover.

He handled, trained and dispatched agents. He debriefed them. He worked with them side by side.

He worked long, irregular hours (days and nights) under unusual pressures and at personally inconvenient and unappealing sites.

Mr. Lynch was, during the Bay of Pigs period at least, in real personal danger. (Our case officers abroad do not often face such situations nor do they have to display such courage.)

downgrading and
declassification

3. In summary, Mr. Lynch's tasks were professionally and personally more demanding than those of many of our Operations Officers abroad. He had to apply clandestine techniques and concepts in a highly volatile and difficult operational climate. To admit him to the CIA Retirement System seems justified.

SUBJECT : Inclusion in CIARDS - Grayson L. Lynch

1. Mr. Lynch's memorandum dated 22 June 1971 requesting that service at JMWAVE be considered as qualifying service under CIARDS has been reviewed by individuals familiar with his activities during the period noted. They state that his memorandum is factual and accurately represents the situation as it existed at JMWAVE.

2. The service described is considered comparable to that performed overseas. WH Division concurs in favorable action on his request should that be the recommendation of the Board.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Recommendation for Approval of
Mr. Grayston L. Lynch as a Participant
in the CIA Retirement and Disability System

REFERENCE : HR 20-50

1. It is strongly recommended that Mr. Grayston L. Lynch be approved as a participant in the CIA Retirement and Disability System.

2. It is the opinion of the Special Operations Division that the duties performed by Mr. Lynch from the time he entered on duty in February 1961 until early 1968 meet the spirit and intent of the criteria for "qualifying service" as defined in HR 20-50b. The lone exception to these criteria is that Mr. Lynch was not "abroad" during the time involved except on a sporadic basis. This exception, however, was due completely to the geographical location of the area of operations. This location made it uniquely propitious to have Mr. Lynch assigned to and work out of a domestic base. There is no question, however, that Mr. Lynch's service was in the conduct and support of covert operations which required continuing practice of security and tradecraft procedures and which included, from time to time, hazards to his life and health. It is also believed that Mr. Lynch would be at a disadvantage in obtaining other employment because of the sensitivity of his past service as well as the dearth of requirements for his peculiar background, skills and knowledge.

3. On the basis of the above and Mr. Lynch's unique personal record, it is believed that his service during the described period is certainly equivalent to if not in excess of the requirements for "creditable service abroad" and that if it had not been for a geographical accident, this service would have been performed as

part of an assignment abroad within the fullest meaning of the definition contained in the referent regulation. Therefore, approval of Mr. Lynch's request for designation as a participant in the CIARDS on the basis of service performed between 1961 and 1968 is not only strongly recommended but is requested as the grant of an entitlement fully earned by a very deserving employee.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Request for Designation as a Participant in CIARDS--Mr. Grayston L. Lynch

1. It is requested that domestic service reflected in the following paragraphs be approved as qualifying service for the CIARDS and that I be designated as a participant in the system.

2. I entered on duty with the Agency on 10 February 1961. I was sent TDY immediately to New Orleans, Louisiana and from there to Key West, Florida to prepare WH Division agent assets for operational missions. On 28 March 1961 I departed Key West, Florida aboard a covert Agency ship bound for Nicaragua where I engaged in the preparation of Agency vessels and assets scheduled for operations into Cuba. On 13 April 1961 I departed Nicaragua via an Agency vessel for the 17 April 1961 landing operation in the Bay of Pigs, Cuba. I was assigned as the Case Officer for the Agency command ship, Cuban Brigade Headquarters, and the Underwater Demolition Team (UDT) element. I participated in armed action both at sea and on shore during the four days of the invasion attempt and, per direct instructions from the DCI, engaged in a series of covert landings and operations into Cuba for several days following the invasion landing. I returned to Headquarters on 29 April 1961.

3. In August 1961 I was assigned PCS to JMWAVE at Miami, Florida as a Paramilitary Operations Officer. From my arrival in August 1961 until July 1965 I served under commercial cover outside the station, intermittently using my home and various safehouses as "ad hoc" offices. All contact with the station was by telephone and/or personal meetings prearranged with station personnel. These personal contacts were either at my home, in safehouses, or at other meeting places deemed appropriate. During this period I was responsible for the recruitment, training, administration and operational direction of a very large group of Agents. This entailed numerous clandestine meetings, both day and night, with these Agents. Since they were in various stages of training, assessment or preparation for an operation and were located throughout Dade and Monroe counties in

Florida, I was required to drive an average of 5000 miles per month to provide the necessary handling and support. The major training exercises were as follows:

a. Three black flights to ISOLATION for periods of one to three weeks duration during which time I was required to remain in the black training areas as handler for the Agents.

b. One three day trip to Lake Worth, Florida during which I conducted the ground phase of parachute training for 26 Agents and arranged for civilian instructors and planes for two parachute jumps per man.

c. Two black flights to Camp McKall, North Carolina to conduct parachute training for 36 Agents, during which time, as Chief Instructor, I made two parachute jumps.

d. Two black flights to the Ranger Training Center at Eglin AFB, Florida for additional parachute, commando and guerilla warfare training for 38 Agents. Both trips were of two weeks duration each and again, I made two parachute jumps.

e. Four black flights to Fort Stewart, Georgia for training in weapons and tactics for 38 Agents. Training was conducted with all weapons from the .45 calibre pistol up to and including the 4.2 inch mortar. Demolition and sabotage training including night and day tactical exercises using live ammunition and explosives were also conducted. Each exercise lasted from five to 15 days.

f. Eight training exercises from three to seven days duration each were conducted in and around the Everglades National Park and the Marquesas Keys in Florida.

g. Over 70 mission rehearsals of two or three days duration conducted in the Florida Keys.

4. In addition to the above training exercises I planned and directed 115 actual operations into Cuba during this period. This involved the isolation of a five to 25 man team in a safehouse for three days to two weeks preparing for an operation and remaining with them day and night until they were launched. It also involved receiving the team at the conclusion of the mission and again holding them in a safehouse for a two day debriefing period.

5. In 1965 I set up an office in Perrine, Florida, under commercial cover, to administer the Agent group. I remained in this office conducting operations and training as before until April 1966. My office was moved into the JMWAVE Station at that time, but I remained under commercial cover and my duties continued to be the same.

6. During the time I was assigned to JMWAVE I was required to participate in numerous voyages aboard Agency ships into international waters. Many of these were near to and into denied waters. I was also required to participate in several search and rescue aircraft flights of long duration over international water, near and into denied areas.

7. It is my belief that my activities and duties from August 1961 to June 1968 were of the types normally found only in overseas clandestine activities for which the five year CIARDS "creditable service abroad" requirement was intended. I am available for further explanation or clarification if any of the above information is required, or if confirmation of my service by other Agency personnel is needed, I submit the following names of knowledgeable individuals:

a. Gerald Droller, DDP/NSP
b. Robert Ortman, WH/COG
c. George French, SOD/CB
d. William Broe, C/WH

8. In view of the facts presented above, I request to be designated a participant in the CIA Retirement and Disability System and will apply for disability retirement when my participation is approved.

Mr. Grayston L. Lynch is a Career Agent who entered on duty into the Agency in February 1961 and served in New Orleans, Louisiana and Key West, Florida preparing WH Agent assets for operational assignments. In March 1961 he left Key West, Florida aboard a covert Agency vessel for Nicaragua where he assisted in the preparation of Agency vessels and assets scheduled for operations into Cuba. In April 1961, he left Nicaragua on a Agency vessel to participate in the landing operations in the Bay of Pigs, Cuba. He was [redacted] involved in armed action both at sea and at shore during the four days of the invasion attempt and, from direct instructions from the DCI, engaged in series of covert landings and operations into Cuba for several days following the invasion landing. For this action Mr. Lynch [redacted] received the Intelligence Star. Mr. Lynch subsequently served as a paramilitary operations officer at Miami, Florida until approximately June 1968. During this period he participated in numerous clandestine activities including agent training, parachute training, weapons training, [redacted] He also planned and directed 115 actual operations into Cuba.

In the course of these earlier operational assignments, Mr. Lynch [redacted] developed a psychosis which will not permit him to travel by air at all nor by overland means for any lengthy period of time.

This has resulted in a medical hold being placed on Mr. Lynch for any overseas assignment PCS or TDY. Since he is uniquely a field special operations officer there are literally no departmental duties to which he can be assigned. Since there is no suitable assignment available for Mr. Lynch it is necessary to terminate Mr. Lynch's contract as a Career Agent. Since he is eligible for Involuntary Retirement under CIARDS, Mr. Lynch has made application for retirement effective 10 September 1971. In view of Mr. Lynch's age, specialized skills, long service in a uniquely sensitive area, and peculiar contribution to the Agency's mission it is believed that a termination bonus at the time of his retirement is fully warranted.

Mr. Lynch is currently the equivalent of a GS-14, step 5 with an annual salary of $23,591. The proposed $10,000 termination bonus represents, therefore, less than 42% of his annual salary or approximately 5 months pay. In connection with this, it should be noted that if he were being terminated rather than retiring, he would be entitled by virtue of the provisions of his contract to 90 days notice which would equal approximately $6,000 at his current rate of pay in salary alone. Additional fringe benefits would increase this figure.

MEMORANDUM FOR: Chief, SOD/SS/Personnel

SUBJECT : Mr. Grayston Lynch

1. Assuming no interruptions or changes of assignment or status in the interim, Mr. Lynch will complete his currently scheduled Spanish language training in mid-April 1971. Between now and then it is understood that he will--on his own initiative and with whatever assistance and encouragement we can properly provide--make an effort to overcome his phobia of flying and thereby, in due course, qualify medically for TDY or PCS overseas field duty.

2. In view of Mr. Lynch's past history, however, we cannot assume that he will be successful or will even actively press to overcome his problem. In spite of his career agent status and his operational performance (Intelligence Star), we cannot, in all conscience, carry him on SOD contract rolls indefinitely in an unproductive capacity. He has completed all of the advanced and refresher operations training necessary to qualify for assignment now. He has not adapted well nor has he been receptive to the kinds of headquarters duty assignments open to him. He is a field paramilitary officer.

3. It is prudent, therefore, to begin contingency planning now for his appropriate retirement and outplacement into a job which will offer him both security and personal satisfaction. His Spanish language training should enlarge his horizons and opportunities. We can predict he will not, at least at first, take at all kindly to the idea of retirement and relinquishing his Agency association. He is emotionally involved, and identifies himself as an Agency career field operations officer.

MEMORANDUM FOR THE RECORD

SUBJECT: Retirement Annuity
Mr. Grayston Lynch

1. Retirement Operations Division of the Office of Personnel (Linda Birch) provided the following computations for a proposed annuity for Mr. Grayston Lynch if he retired on the dates indicated. These figures were computed on 30 October 1970 and were based on the following:

		31 Dec 1970	30 April 1971
AGE (DOB: 14 June 1923)		47 years, 6 mts.	47 years, 10 mts.
CREDITABLE SERVICE (Including S/L)		31 years, 8 mts.	32 years
HIGH AVERAGE (3 Years)		$19.655	$20.261
BASIC ANNUITY:	Per Annum	$ 9.979	10.478
	Per Month	832	873
BASIC ANNUITY REDUCED FOR SURVIVOR:			
	Per Annum	9.251	9.700
	Per Month	771	808
SURVIVOR ANNUITY:	Per Annum	5,488	5.763
	Per Month	457	480

2. The above annuity would be recomputed when Mr Lynch becomes 62 years old. This recomputation is required to drop off post 1956 military service which applies to Social Security eligibility. Subject has no choice in this matter if he is eligible for Social Security benefits. If he is NOT eligible for Social Security benefits then the military service will remain creditable toward his Civil Service retirement annuity. The recomputed annuity would be as follows:

BASIC ANNUITY:	Per Annum	$ 8.695	$ 9.145
	Per Month	725	762
BASIC ANNUITY REDUCED FOR SURVIVOR:			
	Per Annum	8,096	8.502
	Per Month	675	708

EYES ONLY

SECRET

SURVIVOR ANNUITY:	Per Annum	$ 4,782	$ 5,030
	Per Month	399	419

3. It should be noted that the entire annuity at either time is reduced 2 % per year for each year Mr. Lynch is under 55 years of age. This amounts to a total reduction of approximately 15%.

MEMORANDUM FOR THE RECORD

SUBJECT: Grayston Lynch

1. Mr. Lynch reported to C/SOD/Pers for interview on 5 December 1968. JMWAVE officials had notified him of the medical decision and the purpose of this visit to arrange for a six month interim assignment period while he undergoes appropriate treatment in Miami. We discussed the terms of the agreement which was made part of memorandum of agreement and was signed by Mr. Lynch and C/SOD/Pers. -(attached)

2. Mr. Lynch visited WH Division for discussions regarding the interim assignment with Dave Philips, Cuba Desk. According to Lynch there was some difference of opinion about the job at this point as to whether he'd be working for JMCOBRA or for Cuba Desk. He discussed this again with WH officials who he says agreed that he would work on a project for Mr. Philips unless Mr. Esterline had something specific he needed him to do. A message was to be sent out to this effect by WH Division.

3. Mr. Redmond of Agent Panel and Mr. Pollock SAS/OP were advised of status of this case but did not need to see Mr. Lynch unless he wished an interview. Pete Gaughan and Dr. Robinson of OMS were contacted and Dr. Robinson provided the names of three cleared consultants in Miami area for Mr. Lynch's referral. Mr. Lynch had a brief interview with Mr. Holcomb to let him know that arrangements for the six month interim assignment had gone well, he understood the terms of the agreement, and hoped to return in six months qualified for full duty including overseas and flying. He then took care of his accountings in SOD/E&F and departed for the drive back to Florida.

4. Mr. Lynch appeared to be in good spirits on this visit. He seemed to understand fully the terms of the six month agreement and expressed appreciation for being given this period of time to prove himself qualified for continued employment. However, he was left with no doubt of our intentions to terminate his contract at the end of the six month

MEMORANDUM OF AGREEMENT

SUBJECT: Temporary Assignment -
Mr. Grayston Lynch

1. As a result of his recent fitness for duty physical examination, it was determined that Mr. Lynch is qualified only for domestic assignments not involving flying. This decision means that Mr. Lynch is not currently qualified to perform the duties required of him under the IUJEWEL Program. These duties involve primarily overseas assignments and require flying both as the normal means of transportation to and from areas of assignment and as an integral part of his job concerned with training and conduct of airborne operations.

2. Since Mr. Lynch is not qualified to perform the duties required of his position at this time or for the indefinite future, three courses of action have been considered as follows:

a. Termination of contract under the 90-days notice clause of his contract.

b. Initiation of action for disability retirement.

c. Approval of a 6-month domestic (temporary) assignment while Mr. Lynch pursues appropriate treatment to determine whether his current disability is temporary.

3. In recognition of Mr. Lynch's long period of dedicated service to the Federal Government and this Agency, it has been agreed to offer him the 6-month interim assignment as per paragraph 2.(c) above under the following conditions:

a. That an appropriate domestic assignment is available.

b. That he pursues appropriate treatment during the 6-month assignment period.

c. That Mr. Lynch report for another medical evaluation at the end of the 6-month assignment to determine whether he is qualified for full duty including overseas assignments involving flying.

4. It is further agreed that if, at the end of the 6-month period, Mr. Lynch is not found qualified for full duty including overseas assignments involving flying, action will be initiated to terminate his contract employment as in paragraph 2.(a) or (b) above.

Dear Gray,

We have received a call from Training about a tape recorder which they believe you still may have - a small cassette type which was issued to you while you were in language training.

If you still have the recorder, would you please ship it to Betty Weyland at the above address. If you turned it in, would you let me know when and where so I can pass on the information to Training?

Hope you are enjoying life and lots of sunshine.

Contact Report

1. Mr. Lynch called to advise that he was still in the local area and ask if he could pick up his annuity check and change his forwarding address and banking instructions as he was no longer going to go to Tampa, Florida. He said he was buying part interest in a boat and had rented an apartment in Key West, Florida and would be living and working there. In this respect he wanted to know if he should not have a change in his cover status from "open" to "under cover" because of his "new" location.

2. Mr. Frank Stewart was advised of the change of Mr. Lynch's plans and his inquiry regarding a change in cover status. Mr. Stewart (SOD/Security) subsequently advised that Mr. Lynch would remain "open" and that he, Mr. Stewart would call Mr. Lynch and brief him on the subject.

3. Inquiry on Mr. Lynch's behalf into the other questions led to the following:

(over)

a. Mr. Paul Seidol, OP/Retirement Division, the officer who processed Mr. Lynch's retirement, is the appropriate local contact for Mr. Lynch to have to handle any problem with his retirement or his annuity payment. In this respect Mr. Seidol suggested that his telephone number be given to Mr. Lynch for this and future inquiries, so long as Mr. Lynch was in the local area. Otherwise, Mr. Lynch has been given correspondence instructions. Mr. Seidol's telephone number was then given telephonically to Mr. Lynch with instructions to call for arrangements regarding his annuity check, banking instructions, change of address, etc. Mr. Lynch acknowledged this instruction.

Dear Mr. Devuono:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 November 1967.

It has been mutually agreed by both parties that said contract will be terminated on or about 10 September 1971, at which time you will be involuntarily retired, due to the absence of any immediate or foreseeable work assignment for which you qualify.

SUBJECT: Mr. Grayston L. Lynch File

Mr. Lynch telephoned today and advised that he did not want his termination bonus to be held for payment in Calendar Year 1972 as agreed upon, but would like to have it payed at the time of his retirement. I pointed out that this would result in a good tax bite, but Gray stated that he would need the money at the/ time of retirement and would just have to sustain the additional tax.

Mr. Lynch also asked if he could obtain an advance on his salary of about $500 as his salary checks were mailed to a bank in Florida and he had exhausted his supply of checks because he had thought he would have left the area by now. He was advised that this could be done but that it would take a memo from him to the Director of Finance. He stated that he would come to the office on 16 July to prepare the memo. He should be sent to C/SOD/R&F to initiate the memo and the action to obtain the advance on his salary.

MEMORANDUM FOR : Director of Personnel

SUBJECT : CIARDS Retirement of Mr. Grayston L. Lynch, GS-14, SOD, on the basis of Qualifying Domestic Service

1. This memorandum submits a recommendation for your approval in paragraph 4.

2. After more than twenty years of active military service, Mr. Lynch joined CIA in February 1961 to assist in operations against the Cuban target. He was awarded the Intelligence Star for his participation in the Bay of Pigs and related activities in the spring of 1961. Because of the sensitivity of his duties in behalf of CIA, his periods of foreign service were not recorded in the usual manner. From August 1961 until June 1968 he was intensively involved in the recruitment, training, administration and operational direction of a large number of agents as well as the planning and direction of operations into Cuba.

3. After reviewing his application for admission to CIARDS and corroborating statements from Clandestine Service officers acquainted with his work, the Clandestine Service Career Service Board concluded that Mr. Lynch's case merits a recommendation for approval. It is our view that the demands placed upon him were at least on a par with those borne by operations officers assigned overseas.

4. It is, therefore, recommended that Mr. Lynch be designated a participant in the CIA Retirement and Disability System on the basis of qualifying domestic service. If he is accepted for CIARDS, Mr. Lynch will apply for disability retirement.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Recommendation for Approval of Mr. Grayston L. Lynch as a Participant in the CIA Retirement and Disability System

REFERENCE : HR 20-50

1. It is strongly recommended that Mr. Grayston L. Lynch be approved as a participant in the CIA Retirement and Disability System.

2. It is the opinion of the Special Operations Division that the duties performed by Mr. Lynch from the time he entered on duty in February 1961 until early 1968 meet the spirit and intent of the criteria for "qualifying service" as defined in HR 20-50b. The lone exception to these criteria is that Mr. Lynch was not "abroad" during the time involved except on a sporadic basis. This exception, however, was due completely to the geographical location of the area of operations. This location made it uniquely propitious to have Mr. Lynch assigned to and work out of a domestic base. There is no question, however, that Mr. Lynch's service was in the conduct and support of covert operations which required continuing practice of security and tradecraft procedures and which included, from time to time, hazards to his life and health. It is also believed that Mr. Lynch would be at a disadvantage in obtaining other employment because of the sensitivity of his past service as well as the dearth of requirements for his peculiar background, skills and knowledge.

3. On the basis of the above and Mr. Lynch's unique personal record, it is believed that his service during the described period is certainly equivalent to if not in excess of the requirements for "creditable service abroad" and that if it had not been for a geographical accident, this service would have been performed as

SECRET

part of an assignment abroad within the fullest meaning of the definition contained in the referent regulation. Therefore, approval of Mr. Lynch's request for designation as a participant in the CIARDS on the basis of service performed between 1961 and 1968 is not only strongly recommended but is requested as the grant of an entitlement fully earned by a very deserving employee.

MEMORANDUM FOR: Director of Personnel

SUBJECT : Request for Designation as a Participant in CIARDS--Mr. Grayston L. Lynch

1. It is requested that domestic service reflected in the following paragraphs be approved as qualifying service for the CIARDS and that I be designated as a participant in the system.

2. I entered on duty with the Agency on 10 February 1961. I was sent TDY immediately to New Orleans, Louisiana and from there to Key West, Florida to prepare WH Division agent assets for operational missions. On 28 March 1961 I departed Key West, Florida aboard a covert Agency ship bound for Nicaragua where I engaged in the preparation of Agency vessels and assets scheduled for operations into Cuba. On 13 April 1961 I departed Nicaragua via an Agency vessel for the 17 April 1961 landing operation in the Bay of Pigs, Cuba. I was assigned as the Case Officer for the Agency command ship, Cuban Brigade Headquarters, and the Underwater Demolition Team (UDT) element. I participated in armed action both at sea and on shore during the four days of the invasion attempt and, per direct instructions from the DCI, engaged in a series of covert landings and operations into Cuba for several days following the invasion landing. I returned to Headquarters on 29 April 1961.

3. In August 1961 I was assigned PCS to JMWAVE at Miami, Florida as a Paramilitary Operations Officer. From my arrival in August 1961 until July 1965 I served under commercial cover outside the station, intermittently using my home and various safehouses as "ad hoc" offices. All contact with the station was by telephone and/or personal meetings prearranged with station personnel. These personal contacts were either at my home, in safehouses, or at other meeting places deemed appropriate. During this period I was responsible for the recruitment, training, administration and operational direction of a very large group of Agents. This entailed numerous clandestine meetings, both day and night, with these Agents. Since they were in various stages of training, assessment or preparation for an operation and were located throughout Dade and Monroe counties in

Florida, I was required to drive an average of 3000 miles per month to provide the necessary handling and support. The major training exercises were as follows:

a. Three black flights to ISOLATION for periods of one to three weeks duration during which time I was required to remain in the black training areas as handler for the Agents.

b. One three day trip to Lake Worth, Florida during which I conducted the ground phase of parachute training for 26 Agents and arranged for civilian instructors and planes for two parachute jumps per man.

c. Two black flights to Camp McKall, North Carolina to conduct parachute training for 36 Agents, during which time, as Chief Instructor, I made two parachute jumps.

d. Two black flights to the Ranger Training Center at Eglin AFB, Florida for additional parachute, commando and guerilla warfare training for 38 Agents. Both trips were of two weeks duration each and again, I made two parachute jumps.

e. Four black flights to Fort Stewart, Georgia for training in weapons and tactics for 38 Agents. Training was conducted with all weapons from the .45 calibre pistol up to and including the 4.2 inch mortar. Demolition and sabotage training including night and day tactical exercises using live ammunition and explosives were also conducted. Each exercise lasted from five to 15 days.

f. Eight training exercises from three to seven days duration each were conducted in and around the Everglades National Park and the Marquesas Keys in Florida.

g. Over 70 mission rehearsals of two or three days duration conducted in the Florida Keys.

4. In addition to the above training exercises I planned and directed 115 actual operations into Cuba during this period. This involved the isolation of a five to 25 man team in a safehouse for three days to two weeks preparing for an operation and remaining with them day and night until they were launched. It also involved receiving the team at the conclusion of the mission and again holding them in a safehouse for a two day debriefing period.

5. In 1965 I set up an office in Perrine, Florida, under commercial cover, to administer the Agent group. I remained in this office conducting operations and training as before until April 1966. My office was moved into the JMWAVE station at that time, but I remained under commercial cover and my duties continued to be the same.

6. During the time I was assigned to JMWAVE I was required to participate in numerous voyages aboard Agency ships into international waters. Many of these were near to and into denied waters. I was also required to participate in several search and rescue aircraft flights of long duration over international water, near and into denied areas.

7. It is my belief that my activities and duties from August 1961 to June 1968 were of the types normally found only in overseas clandestine activities for which the five year CIARDS "creditable service abroad" requirement was intended. I am available for further explanation or clarification if any of the above information is required, or if confirmation of my service by other Agency personnel is needed, I submit the following names of knowledgeable individuals:

a. Gerald Droller, DDP/NSP
b. Robert Ortman, WH/COG
c. George French, SOD/GB
d. William Broe, C/WH

8. In view of the facts presented above, I request to be designated a participant in the CIA Retirement and Disability System and will apply for disability retirement when my participation is approved.

MEMORANDUM FOR RECORD

SUBJECT : Mr. Grayston L. Lynch

As of 29 May 1971 Mr Lynch was accredited with the following leave balances:

Annual Leave - 376 hours

Sick Leave - 340 hours

If Mr. Lynch's application for CIARDS and his application for Disability Retirement under CIARDS were all processed and awaiting approval, he could go on sick leave as of close of business 2 July to exhaust all sick leave and then all excess annual leave prior to retirement. He would retire under these circumstances, if approved as of COB 6 October 1971. (This date was computed by payroll based on the following assumptions; 1). He would take no leave between now and 2 July, 2). He earned 26 days leave per year, 3). He had a leave ceiling of 360 hours.

AC/SOD/Personnel

1st Indorsement

Mr. Lynch will not be permitted to process all the paperwork for his pending retirement and then depart the area. Retirement Operations Division/OP will not accept his application for CIARDS retirement until he has actually been accepted into CIARDS, nor will they initiate a request to the OMS for a medical survey until an application has been submitted for Disability retirement, nor will they submit a request for medical survey under Civil Service and then convert to CIARDS. Concurrently, OMS will not review their requirements on Mr. Lynch prior to receiving a request from ROD/OP. Since neither Retirement Ops Div/OP nor OMS will take action pending resolution of Mr. Lynch's participation in CIARDS I advised him we would be unable to hit the 2 July target date for him to commence his leave in preparation for retirement. He stated that

this was all right with him. Therefore, I am scheduling the following procedure:

As of 25 June 1971, Mr. Lynch's signed application for participation in CIARDS, form 3100 and Service Agreement accompanied by AC/SOD' recommendation was hand carried to CSIS for Board action. AC/SOD also added a note on the routing sheet requesting that the request receive every consideration on an expedite basis.

When the above application is approval, Mr. Lynch should be scheduled for a retirement interview with Mr. Paul Seidel to make application for Disability retirement and be scheduled for any physical examination or medical interview required.

Following the above, Mr. Lynch could commence his leave and proceed to Florida pending the outcome of his application for Disability Retirement. When approved he would continue to utilize his sick leave and excess annual leave until it was expired. The retirement would then become effective.

In an interview with Mr. Lynch on 15 June 1971, the C/SOD/SS and the AC/SOD/Pers discussed the possibility of obtaining a Termination Bonus in the amount of $10,000 payable on retirement with Mr. Lynch. This was because of Mr. Lynch's unique situation regarding his service and career with the Agency. It was pointed out that this was definitely not the normal ~~prosedure~~ procedure, but was bases purely on Mr. Gray's status as a Career Agent and the unusual aspects of his termination. It was agreed that although Mr. Gray would become eligible for this bonus, if we were able to get it approved, as of the date of his retirement, we would not make payment until Calendar Year 1972 in order to give Mr. Gray benefit of the tax break resulting from the delayed payment. Mr. Gray agreed to all of the above provisions without equivication.

Mr. Gray was instructed to maintain constant contact with Maritime Branch — at least check with them twice a day to ascertain if there were messages or requirements for his presence or appointments scheduled for him. He agreed to this as he does not have a phone at home and there is no other positive means to contact him. SOD/Personnel is to leave any message necessary for him with the Secretary/Maritime Branch for delivery. (If no other contact possible, try informally through Jerry Sohl.)

MEMORANDUM FOR THE RECORD

SUBJECT: Mr. Grayston L. Lynch

The undersigned talked with Subject on 14 June in regards to his future. I told him Mr. Droller did not have the authority to authorize "absence from duty for up to a year" as was stated to Mr. Lynch. I told him SOD will take the proper action through the Agent Panel to try and find "a retirement assignment" for him in the Miami area. This action will probably take a few weeks and he will be kept informed of the progress. He was quite understanding and accepted the above with little comment.

The aim of this course of study was to provide the student with the foreign language competence desired by the sponsoring office. Except as noted below, the instruction emphasized speaking, aural comprehension and reading, as required.

This student's evaluation is based on (1) instructor and Department Chief observations; and (2) regularly administered achievement tests. Fluency and accuracy, as appropriate to each skill, were given due consideration in evaluating the student. The achievement rating and performance evaluation below reflect performance and achievement in this course only, and are conditioned by the student's motivation and aptitude for language learning. This rating should not be confused with the Proficiency Rating (Form 1273) "Certification of Language Proficiency" which is submitted separately. The degree of progress achieved by the student while in language training is shown in the box in the upper right corner of this report.

FOREIGN LANGUAGE APTITUDE TESTING RESULTS

NAME Lynch, Grayston DeVecchio

DATE 13 August 62 Irving

Since many things other than aptitudes enter into the determination of training course performance, in any class of students there will usually be some whose performance will be better than would be expected from their test scores, just as there will likely be some whose performance is poorer than expected. STRENGTH OF MOTIVATION, PRIOR EXPERIENCE WITH A FOREIGN LANGUAGE, and other factors should be considered in selecting people for language training and in interpreting language training results. For example, the number of languages previously studied or learned and the amount of academic and non-academic language-learning experience are factors not measured by the tests but are indicative of probable success in learning a foreign language. Whether such experience was in the same language as the one to be studied or in a different one is, of course, an additional relevant factor.

MEMORANDUM FOR THE RECORD

Subject: Mr. Grayston Lynch

It was determined that no action would be taken on this case until after the first of the year (1971) at which time Mr. Lynch will be advised by C/SOD/Personnel that he will be made available for a suitable operational assignment, most likely overseas, unless he opts to apply for disability retirement.

If Mr. Lynch opts to apply for disability retirement he will be continued in his present assignment pending approval of his retirement.

If Mr. Lynch chooses to be shopped for a field assignment, SOD will initiate action to locate such a position. When found, Mr. Lynch will be processed for the assignment. Should he fail to be medically approved, action will be taken to obtain his retirement for medical reasons. Should an assignment not be forthcoming by April 1971, a medical disposition for overseas planning purposes (General) will be requested.

The purpose of the above scheduled action is to either find a suitable assignment for Mr. Lynch or to effect his disability retirement on either a voluntary or involuntary basis.

COURSE OBJECTIVES - Content and Methods

The course aims to provide a description of counterintelligence in the covert and clandestine warfare of today in both friendly and enemy areas. To do so, a brief description of the intent, purpose, and dynamics of espionage, subversion and counterintelligence as practiced by the major enemy forces is provided and this is contrasted to the spectrum of counterintelligence activities of the United States of America and of allied countries. To support counterintelligence missions levied upon the Agency, a review of the cooperation and coordination and exchange of information and services between cooperating services is provided. Counterintelligence is then related to all other Clandestine Service operations and its place as a part thereof is demonstrated. To provide the student with a framework within which to work, the organization of the Agency for counterintelligence is also provided.

ACHIEVEMENT RECORD

This is a certificate of attendance. Since this course is a survey course, it does not attempt to qualify the student as a counterintelligence operations officer and no evaluation is made of individual performance.

DATES OF COURSE: 30 March - 10 April 1970

A. COURSE OBJECTIVES

1. This course is designed primarily for either a case officer who expects to stage and manage an audio surveillance operation, or for those who have related responsibilities, i.e., desk officer and physical security officers.

2. Although the course provides a basic familiarization with audio devices the primary emphasis is on the collection of target data, planning the operation, locating a listening post, supporting the entry, exploiting "the take", and the orderly termination of the operation once it has outlived its usefulness. In short, managing an audio operation from inception to termination.

3. The course provides a basic knowledge of "quick plant" devices to permit the exploitation of certain targets of opportunity. The same devices could be concealed and used for "Carry In" devices.

4. Finally, the course provides instruction in the first echelon maintenance of listening post equipment, so that an operation can continue without the constant presence of an audio technician.

B. EVALUATION

1. The student met ___xxxxxxxxxxxxxxx___ the objectives of the course.

MEMORANDUM FOR: Chief, Special Operations Division

SUBJECT : Maritime Branch Nominee for the Special Operations Division's Historical Program

REFERENCE : Chief, Special Operations Division Memorandum dated 24 December 1969. Subject: Historical Program

1. Considering the current manpower shortages and relative inexperience in the Maritime Branch, I recommend that only one quarter man year be devoted to the Historical Program in calendar years 1970-71. If and when officers report on board who have the unique or special knowledge required to write histories, then these personnel will be assigned this task and a subsequent increase in man years available will be made.

2. I nominate Mr. Grayston L. Lynch to write histories in CY 1970-71. This officer combines the unique knowledge of first hand operational experience with the qualities of a good narrative writer.

1. CONTENTS OF REF DISCUSSED WITH DEVUONO WHO REACTED VERY STRONGLY. ALTHOUGH INFORMED THAT CABLE DID NOT REJECT CLAIM, DEVUONO CLEARLY ANTICIPATES THAT REJECTION WOULD COME FOLLOWING DISCUSSIONS AT HEADQUARTERS. DEVUONO STATED THAT THE BOARD HAD ALL THE FACTS, THAT HE COULD ADD NOTHING TO WHAT HAD BEEN WRITTEN AND THAT "HQS DISCUSSIONS" WAS EUPHEMISM FOR REJECTION.

2. DEVUONO HAS SUFFERED LOSS OF PERSONAL PROPERTY BEFORE AND DOES NOT FEEL THAT HE WAS PROPERLY CONPENSATED. HE CITES MANY OF THE DIFFICULTIES THAT HE ENCOUNTERED DURING AND AFTER THE BAY OF PIGS WHEN MANY OFFICERS MADE EXTENSIVE PROMISES WITHOUT AUTHORITY OR ABILITY TO FOLLOW-THROUGH. AT PRESENT DEVUONO SCHEDULED TO GO TO LAOS LEAVING HIS FAMILY IN THE JMWAVE AREA. IT DESIRABLE THAT DECISION THIS CLAIM BE MADE SOONEST.

SECTION B PERFORMANCE EVALUATION

W - Weak	Performance ranges from wholly inadequate to slightly less than satisfactory. A rating in this category requires positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.
A - Adequate	Performance meets all requirements. It is entirely satisfactory and is characterized neither by deficiency nor excellence.
P - Proficient	Performance is more than satisfactory. Desired results are being produced in a proficient manner.
S - Strong	Performance is characterized by exceptional proficiency.
O - Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

	RATING LETTER
SPECIFIC DUTY NO. 1 Section Supervisor of one of the four sections within Special Operations Branch. Section consists of two officers and one secretary.	S
SPECIFIC DUTY NO. 2 Responsible for the supervision of a 25 man indigenous commando group. Group consists of 2 operational intelligence collection teams, 4 infiltration team boat crews and an 8 man alert/contingency, commando team.	S
SPECIFIC DUTY NO. 3 Responsible for the recruiting, training, administration and operational matters for 25 agents involved in infiltration/exfiltration operations into a denied area.	S
SPECIFIC DUTY NO. 4 Administrative duties for Section operations to include financial support, supplies and equipment, clearances, cover, real estate and intra-Station coordination.	S
SPECIFIC DUTY NO. 5 Reporting to include operational, contact, quarterly/monthly reports and other required correspondence, preparation of operational plans and training schedules/syllabuses.	S
SPECIFIC DUTY NO. 6 Uses Agents assigned him for collection of information on illegal activities of local Cuban refugees.	S

OVERALL PERFORMANCE IN CURRENT POSITION

	RATING LETTER
Take into account everything about the employee which influences his effectiveness in his current position such as performance of specific duties, productivity, conduct on job, cooperativeness, pertinent personal traits or habits, and particular limitations or talents. Based on your knowledge of employee's overall performance during the rating period, place the letter in the rating box corresponding to the statement which most accurately reflects his level of performance. SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

During most of the period reported on, Subject was concerned with administrative problems associated with the phase-out of the Station. Despite the consequent operational lull, Subject continued to maintain a satisfactory degree of morale in agents assigned him, worked up and implemented realistic training programs, and continued to develop excellent targets studies against the possibility of a policy change. In addition, important information collected locally by Subject on illegal activities of Cuban refugees was of great interest to other agencies offices in the area. Subject was the only Station source of such information which was acquired only because of Subject's ability to maintain rapport with agents, terminated during the period because of the cutback in infiltration operations.

It could also be noted as Subject finishes his long tour at this Station and prepares for his next assignment, that he is a thoroughly professional intelligence officer and is, in many ways, an outstanding one. Technically, he is an expert on infiltration tactics and, through his Special Forces experience, an expert on anti-guerrilla warfare as well. Just as important, is his ability to gain respect and rapport with foreign agents. He has an imaginative approach to operations, is resourceful in devising tactics, and determined in carrying out his assignments. He is a definite asset to WOFIRM.

TO - CHIEF, WHD
INFO - CHIEF, WH/COG - CHIEF, WOTACK - CHIEF, WOMOLD
FROM - CHIEF OF STATION, JMWAVE
SUBJECT - RYBAT - AVAILABILITY CAREER AGENT /GS-14/ OF IRVING C. DEVUONO FOR REASSIGNMENT

DUE TO AN EXTENSIVE CUTBACK IN SPECIAL OPERATIONS AT JMWAVE STATION, DICTATED BY REASONS OF ECONOMY AS WELL AS A CHANGE IN OPERATIONAL POLICY, THE SERVICES OF IRVING C. DEVUONO ARE NO LONGER NEEDED AND HE MAY BE CONSIDERED AVAILABLE FOR REASSIGNMENT. RESUMES OF DEVUONO'S WOFIRM AND PRE-WOFIRM EXPERIENCE, PREFERENCE AS TO REASSIGNMENT AND SUPERVISOR'S COMMENTS ON DEVUONO'S PERFORMANCE FOLLOW.

WOFIRM EXPERIENCE

1. FOLLOWING RETIREMENT FROM THE U. S. ARMY IN 1960, DEVUONO ENTERED WOFIRM 1 FEBRUARY 1961 AS CONTRACT AGENT GS-11. HE WAS CONVERTED TO CAREER AGENT, GS-13 IN MID-1961 AND WAS PROMOTED TO GS-14 LEVEL IN LATE 1967.

2. DEVUONO'S FIRST ASSIGNMENT WITH WOFIRM WAS AS PM OFFICER IN THE BAY OF PIGS TASK FORCE. HE ENGAGED IN THE LAST STAGES OF PREPARATION FOR THE BAY OF PIGS INVASION AND ACTIVELY PARTICIPATED IN THE LANDING AND SUBSEQUENT RESCUE OPERATIONS. FOR HIS PERFORMANCE, HE WAS DECORATED BY THE THEN CHIEF, WOFIRM.

3. DEVUONO WAS THEN ASSIGNED TO THE JMWAVE STATION AND HAS FULFILLED THE FUNCTION OF PM OFFICER ASSIGNED AS CASE OFFICER FOR THE AMLILAC COMMANDO GROUP WHICH HAS VARIED IN STRENGTH OVER THE YEARS FROM 42 TO 24 TRAINED ASSETS. ONE OF DEVUONO'S MOST IMPORTANT TASKS HAS BEEN CONCEIVING, PLANNING AND BRIEFING OF THE AMLILAC TEAM ON JMWAVE SPECIAL OPERATIONS. [illegible] ASSIGNED

DEVUONO'S TASKS WERE CENTERED AROUND TRAINING AND RUNNING OPERATIONS INTO THE DENIED AREA. THESE OPERATIONS INCLUDED SABOTAGE, RAIDS, INFILTRATION AND EXFILTRATION OF SO TEAMS ON WOLENS MISSIONS, RECONNAISANCE, AND ELINT DECEPTION OPERATIONS. BECAUSE THE AM[illegible]ILAC GROUP HAS ALSO MANNED AND OPERATED THE INFILTRATION CRAFT ASSIGNED TO THE ACTIVITY, SUBJECT HAS ALSO BEEN RESPONSIBLE FOR OVERALL SUPERVISION OF MAINTENANCE AND OPERATIONAL USE OF SOME 17 SMALL CRAFT, AS WELL AS INSURING THAT BOAT CREWS MAINTAINED THEIR PROFICIENCY.

PRE-WOFIRM EXPERIENCE

1. PRIOR TO JOINING WOFIRM, DEVUONO SERVED IN THE U. S. ARMY FOR 21 YEARS, RETIRING AS A CAPTAIN IN LATE 1960. THE LAST FIVE YEARS OF HIS ARMY CAREER WERE SPENT IN SPECIAL FORCES UNITS WHERE HE SERVED AS TEAM LEADER OF OPERATIONAL TEAMS AND AS AIR OPERATIONS AND TRAINING OFFICER. DEVUONO SERVED IN FRANCE AND GERMANY FOR OVER FOUR YEARS, IN PANAMA, PUERTO RICO AND CUBA, AND THE BETTER PART OF ONE YEAR IN LAOS. HE IS QUALIFIED IN ALL PHASES OF SPECIAL FORCES AND AIRBORNE OPERATIONS - SPECIAL NOTE SHOULD BE TAKEN OF HIS QUALIFICATIONS AS MASTER PARACHUTIST, RADIO OPERATOR, AND SPECIAL FORCES INSTRUCTOR.

ASSIGNMENT PREFERENCE

1. SO CASE OFFICER IN ACTIVE OPERATIONS IN LATIN AMERICA
2. SO CASE OFFICER IN ACTIVE OPERATIONS IN SOUTHEAST ASIA
3. SO CASE OFFICER IN MIDDLE EAST OR AFRICA
4. INSTRUCTOR

SUPERVISOR'S COMMENTS

1. DEVUONO'S PERFORMANCE AT JMWAVE LEAVES NO DOUBT THAT HE IS EXTREMELY WELL QUALIFIED IN ALL PHASES OF SPECIAL OPERATIONS WORK. DESPITE, OR PERHAPS AS A RESULT OF, HIS ELEVEN YEARS EXPERIENCE IN THIS FIELD, HE RETAINS DEDICATION AND ENTHUSIASM

FOR HIS WORK, AS REFLECTED BY HIS CONSTANT SEARCH TO IMPROVE MODUS OPERANDI. HIS TARGET STUDIES AND PREPARATION FOR OPERATION HAVE UNIFORMLY DEMONSTRATED HIS CONSCIENTIOUS APPROACH TO THE TASK AND A THOROUGHNESS THAT COMES FROM EXPERIENCE. HE IS A STRONG LEADER, AND HAS DEVELOPED EXCELLENT RAPPORT WITH HIS AGENT PERSONNEL, THUS GAINING THEIR ACCEPTANCE FOR THE HIGH LEVEL OF PERFORMANCE HE EXPECTS.

2. IN ADDITION TO THE FOREGOING, DEVUONO IS ALWAYS ALERT TO WOLENS REQUIREMENTS, BOTH AS A BY-PRODUCT AS WELL AS THE PRIME OBJECTIVE OF CERTAIN OPERATIONS HE HAS DIRECTED. HE HAS ALWAYS USED HIS AGENT PERSONNEL, PARTICULARLY HIS PRINCIPAL AGENT, AS SOURCES OF WOLENS OPERATIONAL AND TARGET INFORMATION COLLECTED FROM THE EXILE COMMUNITY.

3. THE STATION FEELS THAT DEVUONO IS A HIGHLY VALUABLE ASSET TO OUR ORGANIZATION AND RECOMMENDS HIM WITHOUT QUALIFICATION FOR ANY ASSIGNMENT WITHIN HIS FIELD.

SECTION B PERFORMANCE EVALUATION

W - Weak	Performance ranges from wholly inadequate to slightly less than satisfactory. A rating in this category requires positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.
A - Adequate	Performance meets all requirements. It is entirely satisfactory and is characterized neither by deficiency nor excellence.
P - Proficient	Performance is more than satisfactory. Desired results are being produced in a proficient manner.
S - Strong	Performance is characterized by exceptional proficiency.
O - Outstanding	Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.

SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

	RATING LETTER
SPECIFIC DUTY NO. 1 Section Supervisor of one of the four sections within Special Operations Branch. Section consists of two officers and one secretary.	S
SPECIFIC DUTY NO. 2 Responsible for the supervision of a 25 man indigenous commando group. Group consists of 2 operational intelligence collection teams, 4 infiltration team boat crews and an 8 man alert/contingency commando team.	S
SPECIFIC DUTY NO. 3 Responsible for the recruiting, training, administration and operational matters for the 25 agents involved in infiltration/exfiltration operations into a denied area.	S
SPECIFIC DUTY NO. 4 Administrative duties for Section operations to include financial support, supplies and equipment, clearances, cover, real estate and intra-Station coordination.	S

OVERALL PERFORMANCE IN CURRENT POSITION

	RATING LETTER
Take into account everything about the employee which influences his effectiveness in his current position such as performance of specific duties, productivity, conduct on job, cooperativeness, pertinent personal traits or habits, and particular limitations or talents. Based on your knowledge of employee's overall performance during the rating period, place the letter in the rating box corresponding to the statement which most accurately reflects his level of performance. SECTION C — NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper. During the period under review, Subject has continued to produce at his previous high level and he has planned and executed three intelligence collection operations against a denied area with the two teams under his supervision and direction. His leadership qualities have, to a large degree, enabled him to maintain his commando group morale at a high level under the difficult circumstances of enforced inactivity. Subject's indigenous agents respect him and are willing to follow his instructions to the letter. Subject's seemingly limitless resourcefulness, drive and initiative coupled with his demonstrated proficiency for this type of work mark him as one of the few persons known to the Rater who is ideally suited to this particular type of agent handling on a day-to-day, face-to-face basis.

During the reporting period Subject has committed his four infiltration boat teams on a total of seven operations and excellent results have been realized. He has conducted extensive testing of equipment and techniques in support of Station requirements and Headquarters requests. His reporting after these field tests has shown that his reporting ability has improved to such a degree to warrant a rating of strong in this duty.

He is cost and security conscious and has demonstrated his effectiveness in the use of personnel, equipment and operational funds. Subject has not had the benefit of formal language training and does not have a definitive language capability. In view of his long tenure of field assignments during his career with WOFACT, it is recommended he be given

Subject has been under my supervision for approximately 6 months. During this period he has shown an outstanding proficiency in the supervision of his Commando Group. He is responsible for the logistical support, maintenance, planning and operations of the group and must also maintain their motivation and moral. As a result of the stand-down in PM activities at this Station, one of his major duties has been keeping his group motivated and happy. Subject has performed these tasks in a very professional manner; he has shown strong leadership qualities and a definite ability to adapt to difficult and frustrating changes in the operational climate. Subject has had the additional duty of handling an FI Agent for the Station. He has spent long hours on this activity and has shown that he is fully capable of broadening his scope of activities to other fields besides the supervision of a commando group. He is cost and security conscious and has shown that he is effective in the use of personnel, space, equipment and operational funds.

BRIEF FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

Grayston L. Lynch, Captain, U. S. Army (retired), Career Agent,
DDP/CA Staff, GS-13 Equivalent
Recommended for Intelligence Star

Captain Lynch was employed by another government agency prior to the Cuban invasion. During the preparations for the Cuban invasion, Captain Lynch was granted Agent status with CIA with the understanding he would return to his parent agency at the completion of the project. The Board recommends that he be awarded the Intelligence Star for his activities under fire on 16-17 April 1961. He personally led the beach reconnaissance party on the night of 16 April and succeeded in placing beach markers in preparation for the landing. On 17 April, his ship was besieged by an air attack. He was successful in leading the convoy to a point off the beach, during which time gunfire from his vessel destroyed two of the attacking aircraft. During the period 22-24 April, Captain Lynch led a team of three back to the objective area and rescued nine survivors of the invasion forces.

1. The Chief of Station wishes to commend all Station members and agents who were involved in the HUBBARD I/II operation. 2. Chief, SO: Please extend to the commander of the AMLILAC group and to the personnel who participated in the HUBBARD/I and/or the HUBBARD/II actions the congratulations and the appreciation of "The Chief" concerning their fine performances.

MEMORANDUM FOR: C/WH/B&F

SUBJECT : Federal Income Taxes
Irving G. DEVUONO (P), Contract Employee

1. During his recent visit to Headquarters, DEVUONO raised questions concerning his Federal income tax returns and interest allegedly due for income received during calendar year 1962. He stated he had filed covert returns for 1961 and 1963 and that he would file a covert return for 1964. He had previously been advised that he owed interest on his 1962 income in the amount of $165.54. He stated that this was not correct as the verbal instructions given him by Mr. Robert Bladergroen of OGC were followed by him when he filed his 1962 covert return. According to DEVUONO, Bladergroen discussed tax matters with him during a visit to JMWAVE sometime in April 1963.

2. As I was not previously acquainted with the facts in DEVUONO's case, I did not attempt to judge it nor to promise him that it could be resolved to his satisfaction. I did, however, inform him we would investigate the matter and would officially advise the Station of the decision. Therefore, please initiate appropriate action with the covert tax people and the Office of General Counsel (Mr. Bladergroen) to set this matter at rest. Informally, Bladergroen informs me that he recalls his conversations with DEVUONO and that DEVUONO either did not understand his instructions or chose to disregard them. I believe Mrs. O'Leary and at least one other member of her staff with whom DEVUONO consulted during his visit can assist in resolving this matter. I do not find any correspondence in his Personnel Folder other than a copy of a cable, IN 57726, dated 12 June 1963, bearing on this Subject.

UNITED STATES GOVERNMENT

Memorandum

TO :Lynch, Grayston L. DATE: 22 [illegible] 1964

Thru :Recorder, Honor and Merit Awards Board

FROM :Security Advisor, Honor and Merit Awards Board

SUBJECT:Lynch, Grayston L. - Personnel Matter
(Award Recommendation)

1. The Office of Security has been advised that you will be a recipient of an honor award in the Headquarters Building in the near future. This memorandum is designed to alert you to the security implications of receiving this award. As must be obvious to you, your role with the organization has been one involving very sensitive operations and projects calling for extraordinary security precautions. You will be expected to continue this kind of exacting security orientation in all dealings you may have with the outside world regarding this award.

2. First, the organization's security policies require that the number of persons on the outside learning of an award be limited. In your case, such persons should be limited to those in your immediate family.

MEMORANDUM FOR: Chief, COVER

SUBJECT : Alias Documentation for Irving C. DEVUONO (P)

REFERENCES: : Memo to C/COVER dated 23 May 1963
Memo to C/PM dated 18 July 1963

1. Irving C. DEVUONO has used the alias George Lee in the local area. The circumstances which required the use of this alias is as follows:

DEVUONO, accompanied by the Real Estate Officer from the Cover Branch, under the alias Gregory Williams, went to ISLAMORADA in April 1963 to determine the suitability of S/H 177 for the AMLILAC Group. It was not anticipated at that time that DEVUONO would be required to use his name with the owner, Eddie Sweeting. However, arrangements for the S/H were made on the spot and the name George Lee given as the occupant of the house.

2. If possible it is requested that alias documentation be established in the name of George Lee. This is not an absolute requirement, however, and a registered alias could be assigned.

MEMORANDUM TO: Chief of Station, JMWAVE

VIA : DCOS/OS

FROM : Chief, Finance, JMWAVE

SUBJECT : Tax Problem of Irving G. DEVUONO

While on TDY at Headquarters, the writer conferred with the Head of the Covert Tax Unit on the subject problem. The writer was informed that the Covert Tax Unit is not able to accept and forward a Covert return for the year 1962 for the subject individual since a Form 1099 had been issued. It was further stated that the Internal Revenue Service, while performing a service last year (tax year 1961) of this nature, would not under any circumstances permit a person and/or persons receiving a Form 1099 or W-2 to file a Covert Return for such reported income. Therefore, it appears all avenues of escape for Irving G. DEVUONO have been closed and he should file an amended return for Tax Year 1962 to include the KUBARK income reported on Form 1099.

MEMORANDUM FOR : Irving C. DEVUONO

SUBJECT : Letter of Instruction

1. This memorandum is to confirm your appointment as Chief, AMLILAC and to provide you with instructions for the direction of that group.

2. The mission is to adapt current assets into a force which can enter the target area by sea or air to conduct reconnaissance, caching, sabotage, raids and/or guerrilla warfare support operations.

3. The organizational concept to be followed is that of small teams which can function independently or in combination and entirely under indigenous leadership. All personnel should be fully qualified in basic paramilitary skills and should be physically and mentally prepared to mount operations on short notice. Airborne capabilities will be developed when facilities necessary for training become available.

4. The standards for members of the group should be constantly upgraded by culling of members who become marginal or who do not develop as expected. Recruitment of promising new members will be dependent on the needs of the station based on policy directives. Priority should be given to sabotage training to permit the mounting of a sabotage program at the earliest possible moment. Coincidentally, planning and thought should be given to the topics of cover, recruitment, training and establishment of those facilities necessary for a rapid expansion of the group if a full scale operational program should be developed. Also, the force should be identified to the primary exile authority as a non political and independent body which is unilaterally engaged in the overthrow of the existing regime. The tempo of training should be maintained at a level sufficient to assure the continual proficiency of the group in all categories of activity in readiness for the order to mount a full scale program with all teams participating simultaneously. Readiness will not itself be justification for operations.

5. Your staff must be organized to permit close contact with team members so as to assure control over them and at the same time provide full security for the existence of your organization. It must also provide security for the planning of all activities in such a way as to assure the compartmentation of staff and team personnel associated with the different categories of operational activity.

6. The following guide lines are provided for the organization:

a. The size and military nature of the force require that the highest possible standard of security be maintained for all personnel and activities. Specifically, the scope should not be comprehended by team members, and compartmentation by teams should be practiced to the maximum.

b. Should, if possible, be composed of men who have no dependents.

7. The following tasks should be undertaken immediately:

a. Continue development of cover for all personnel, their absences, injuries, deaths.

b. Continue the development of concepts to provide for training, during active and inactive periods, transportation to training and staging areas and safehouse utilization.

c. Continue to devise procedures for handling and storage of classified material, arms and equipment.

d. Establish standards for recruitment, discipline, chain of command and security.

SUBJECT : INCOME TAX

I was sent to this Station in Aug 61 and was given a cover breifing at Headquarters before I left in which I was told that since I was paying into a retirement fund of this organization that they would no longer withold Social Security from my pay. In late 61 I was notified that they wre refunding to me all money withheld for incme tax up to that time and that I would have to file on the inside and to start withholding my own taxes. This was done and I was told by this station to file the covert return with them and to file an overt return on my Army retirement pay. This I did for the year 1961. I was also told by BOB the tax man to file this years return the same way. I made my own tax withholding during 1962 and have the money to cover the taxes,but now I am told that because someone made a mistake and mailed both me and the IRS a form 1099 on my 1962 pay that now I must file an overt return. This now will cause me to pay $225.00 selfemployment tax And ~~[illegible]~~ will make me liable to a 6% penalty for not filing an estimated return quarterly. Since I would not have had to pay these extra taxes if the mistake in mailing the form 1099 had not been made and since I did everything in this matter that the station wanted me to do I do not feel that this extra cost should be [illegible] ~~[illegible]~~ by me. I feel this is penalizing me for someone elses mistake. I ~~ask~~ request that this matter be reconsidered and that I be informed as to how I should file my 1962 tax return and that I also be told how this years withholding is to be done.

MEMORANDUM FOR THE RECORD

SUBJECT: Transfer of Irving C. DEVUONO to the AMLILAC Group

1. On 15 March 1963 a meeting was held at Ace Cartography in order to advise both Irving G. CADICK and Irving C. DEVUONO as to the latters transfer from the AMTABBY group to the AMLILAC group. In attendance at this meeting were Stanley R. ZAMKA, CADICK, DEVUONO and the writer.

2. ZAMKA initiated the discussion by stating that the 15th would be DEVUONO's last day with CUSOG and that he should take care of any accounts outstanding and complete processing out of CUSOG. DEVUONO was advised he would be contacted by WALTUCK later in the day in reference to his next assignment.

3. CADICK was then advised he should plan a caching operation during the month of April. The exact location, weight and contents of the cache would be passed to him the afternoon of the 15th. CADICK requested that a boat, the Squall King, with which a great deal of training had been accomplished be permitted to go on this caching operation. ZAMKA agreed that security wise the use of an organic AMTABBY boat might be worthwhile. CADICK will include the use of the Squall King in the operational plan which he will submit this coming week.

For example, in the case of administrative and support personnel and others whose duties do not in themselves reveal sources of information and methods of operation, it is normally expected that a complete and realistic statement of specific duties may be reported in Section B. However, the nature, source, purpose or disposition of information or operations will not be included. On the other hand, the position titles and description of specific duties of certain other employees may jeopardize security and should not be fully reported on this form. In these cases, general statements of specific duties will be included in Section B indicating the level of responsibility.

NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject has shown a decided proficiency in the supervision of the type of unit for which he has responsibility. His men respect him and follow his orders readily. He is resourceful, acts with initiative, and delegates responsibility. In his field he thinks clearly and is decisive and versatile in his actions. He is capable of handling larger units of personnel and assuming greater responsibility in the PM field. If he were required to accept duties of a broader nature in the intelligence field involving less supervision of his own activities, he would need to improve in the areas of written and oral expression and in his understanding of KUBARK requirements and responsibilities. In this regard he would need additional training and exposure to more extensive KUBARK fields as he has not had the opportunity for participating in such KUBARK activities. Subject does not have the proficiency of the language used.

Continuation of FITNESS REPORT, Section D:

Subject is a well-qualified para-military specialist, who has fully mastered the tools of his trade. Subject applies all of his para-military knowledge in the performance of his current duties as the senior outside case officer for a thirty-man commando group, which is capable of carrying out a variety of different missions. These missions include caching operations, sabotage raids, tactical intelligence reconnaissance activities and contingency missions related to war plans. Subject is at his best in dealing with men and military equipment. Subject's major weakness is in records management and reports writing. Despite this minor weakness, Subject's over-all performance warrants an evaluation of Proficient.

Subject has the potential to train and operationally exploit para-military forces in units which have a T/O strength of not more than 60 men. Subject could command a conventional military formation at the battalion level. Subject is capable of mounting counter-insurgency operations with the use of forces up to battalion strength.

Subject's work comes to the attention of the Reviewing Officer on a bi-weekly basis.

Subject's future assignments should be in the para-military field. If Subject is to remain in operations in Latin America, he must be given an opportunity to study Spanish on a formal basis.

1. The subject report being due, the writer is the only person observing DEVUONO's work and has statements and commendations which should be reflected in his fitness report. The contents of this memorandum will be established in DEVUONO's file in other form at later date by the writer.

2. DEVUONO has completed one year with CUSOG. In this period he has shown a complete and practical knowledge of paramilitary techniques and tactics. This knowledge is born of experience and application. His application of this knowledge for KUBARK has resulted in visible progress in the technical abilities of CUSOG personnel.

3. He has shared CUSOG responsibilities of organization, administration and operational preparation in a manner to follow out KUBARK practices to its credit.

4. He carries out clear instructions to the letter, reflecting a military background.

5. Contrary to observances noted in a previous fitness report DEVUONO has been found to be anything but naive in his dealings with PBRUMENS during the period observed.

6. His administrative and accounting procedures within CUSOG are in order.

7. Hesitating to call them weaknesses, the writer must state that DEVUONO's entire experience with KUBARK has been field experience, usually far out on a long string of contacts into a KUBARK installation, a fact which has prevented a look at any of the administrative side of paramilitary as conducted by KUBARK.

8. This man has good potential for helping KUBARK's paramilitary effort, which potential will be more effective when he has been schooled in the terminologies and pecularities of paramilitary KUBARK-style. It is recommended a tour by DEVUONO where such schooling can be conducted as on-the-job training would most bring out this potential.

SECTION E — NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

As a former military officer, Subject is hard working and abundantly sincere in his efforts to fight Communism. His performance since Aug 1961 has not been at the top level of his capabilities for several reasons, not all of which are within his ability to overcome. Subject has had little clandestine training, and is therefore not always able to comprehend the intangible factors which prevent, delay and cancel operations. A further reason is the absence of military law as a basis for discipline for his men. Still another reason is the directive for only limited action with which he has had to live since August. This is merely to say that in a period of policy formation when the action forces have had to be held in limbo, he has not been at his best.

Subject's dealings with his agents have in turn been affected by his own frustrations. His inability to rationalize situations has resulted in obtuse explanations to them which have made them harder to handle. His reluctance to put things on paper has detracted from his performance and denied him the clarifying process which reporting provides. His security consciousness has been similarly affected by his frustrations.

Subject is in need of training in tradecraft and PM operations. His basic qualifications for PM Case Officer work are such that he can, with training, do a much better job. This combined with a program of concentrated action would undoubtedly bring out the best in him, which should be of real value to the Agency.

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Project ZRJEWEL Reports.
William Robertson - Grayston Lynch

REFERENCE: Memo from Chief, CA/PAG to Chief, WH/4;
1 June 1961, Subject: Assignment of
Robertson and Lynch to WH Division.

1. Paragraph 9 of Reference requested that CA/C/PAG be kept informed of the standard of performance, and of the acquisition of additional capabilities by either training or experience, of Robertson and Lynch during the period of their assignment to WH Division.

2. As Robertson and Lynch now have been employed operationally by WH/4 for a period of six months, and as they are the first to have been engaged under the new ZRJEWEL program, it would be appreciated if we could have reports from Chief, WH/4 on these men at an early date. In addition to the data required on regular Fitness Reports, we are interested particularly in knowing from WH/4:

a. How these men are being used, i.e., whether they are engaged in operations, training, planning, etc.; and the extent to which this has been exclusively in the field of PM activities.

b. If engaged in agent operations, whether they are employed as singleton agents, principal agents, recruiters, etc.

c. The degree and general location of their possible exposure to hazardous duty, if any.

d. The degree to which they may have been compromised in terms of personal security, if at all, and the general location where this may have happened.

e. Any new skills they may have acquired either by training or experience.

SECRET

3. Also, since CA/PMG has ultimate responsibility for these ZRJEWEL personnel after their operational usefulness to WH Division has ended, it would be very helpful to us in planning the future conduct of the ZRJEWEL program if occasionally we could have a report directly from each of these men personally, giving us their own appraisal of their current utilization. In this regard we would appreciate your view as to whether this would be feasible, within the bounds of operational security, and whether it could best be accomplished by requesting written reports, or by oral de-briefings when these men are in the Washington area.

TO : Irving C. DEVUONO

Thru : Recorder, Honor and Merit Awards Board

DATE: [illegible]

FROM : Security Advisor, Honor and Merit Awards Board

SUBJECT: Award Recommendation

Ref : Recommendation for Honor or Merit Award, dated 16 October 1961

1. In the reference DEVUONO is recommended for an honor or merit award. It is noted the reference states he is currently in the field.

2. If the award is granted, the following security measures are recommended:

a. The award should be retained within Headquarters until such time as DEVUONO returns to Headquarters on a permanent change of station and security/cover considerations permit the release of the award to him. There would, of course, be no objections to informing him of the granting of the award by use of Agency secure channels.

b. Prior to DEVUONO's receiving physical possession of the award he should be instructed there are no objections to his showing the award to his immediate family and his associates in the Agency but that he should not release or cooperate in releasing any publicity regarding the granting of the award.

MEMORANDUM

SUBJECT: Policy Concerning Guests at Award Ceremonies

1. The Office of the Director has determined that when inviting guests to award ceremonies, the Agency will be as liberal as possible within the bounds of available space and security considerations since one of the purposes of an award ceremony is to let the family, friends, and associates of the recipient know that he has been honored.

2. In implementing this policy the points listed below will be guiding criteria:

a. Any Agency employee who is a friend of a recipient may come to the ceremony, up to the limit of space available, if the recipient asks that he be present.

b. Any Government employee (who is not employed by the Agency but who is witting of the recipient's employment) can come so long as there are no operational security reasons that would make his presence inappropriate.

c. Any friend who is not employed by the Government may be invited only if it is obviously desirable (Example-- A very close old friend who stood in the relationship of "family" to the recipient when subject had no immediate family). Friends who are not employed by the Government normally would be discouraged.

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Recommendation for Awards, Cases of Mr. William Robertson and Mr. Grayston Lynch

1. The purpose of this memorandum is to recommend cash awards for subject employees.

2. In recent paramilitary operations against Cuba, Mr. Lynch and Mr. Robertson served as operations officers of the Central Intelligence Agency vessels BLAGAR and BARBARA J respectively. Both of these employees, in the course of extremely hazardous operations, repeatedly exposed themselves to fire by opposing land, sea and air forces. Their fearless and skilled leadership enabled indigenous forces to conduct an amphibious landing under the most difficult conditions, and their courageous determination to keep their vessels in position to support the operations, although under heavy air attack, was in keeping with the best traditions of the American people at war. Furthermore, their repeated landings, in person, on a hostile shore for the purpose of rescuing Cuban survivors of the invasion force, was a demonstration of extraordinary valor. Their exemplary conduct throughout the combat action was above and beyond the call of duty.

3. Military personnel performing in combat in such a manner would be eligible for the highest decorations for heroism.

4. In view of the extraordinary heroism displayed by Mr. Robertson and Mr. Lynch, I strongly recommend that they be awarded an appropriate commendation, and, in addition, a cash bonus award of five thousand dollars ($5,000.00) each.

1. Reference is made to the memorandum dated 12 May 1961 in which a covert security clearance was requested to enable utilization of Subject as a Career Agent, serving as a paramilitary specialist in any area that is needed. Subject will aid in providing senior paramilitary support for Agency activity under Project ZRJEWEL.

2. This is to advise that a covert security clearance is granted for the use of the Subject, as described in your request as set forth in paragraph 1, above.

4. Your attention is called to the fact that a covert security clearance does not constitute complete compliance with the provisions of CIA Regulation 10-210. Therefore, if you should desire at a later date to change the status or use of this individual, a request for clearance to cover any proposed change should be submitted to this office.

5. This clearance becomes invalid in the event the Subject's services are not utilized within six months of the date of this memorandum.

1 June 1961

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Assignment of Robertson and Lynch to WH Division

1. This is in response to your oral request for the transfer or assignment of Robertson and Lynch from this Staff to WH Division.

2. These employees were recruited as Career Agents under CA/PMG Project ZRJEWEL, and therefore are to be administered in accordance with the terms of this Project.

3. Under the terms of Project ZRJEWEL, CA/C/PMG is responsible initially for their selection and recruitment, and sub-sequently for their training and developmental assignments until they are transferred to an existing operational project under jurisdiction of an operating division.

4. Selection and recruitment involves complete processing to contract status under provisions of HB 20-1000-1, and requires also:

a. Security Clearances

b. Medical Clearances

c. Provision of Cover

d. Financial Briefing

e. Assessment and Evaluation

5. Training and development requires that subjects be pro-vided tutorial or group training, according to their individual needs, to qualify them as senior PM officers capable of serving overseas as

case officers, instructors, advisors, or consultants; and capable of developing indigenous forces, directing operations, and personally participating in operations. The training envisioned normally would include, but not be limited to:

a. Language aptitude testing and subsequent language training.

b. Clandestine tradecraft.

c. Paramilitary operations training.

d. Covert Action Operations training and CI Familiarization.

6. Although both subjects are now under contract, as of this time, of all of the above-mentioned items of processing, training and development, the following yet remains to be done:

Robertson - medical clearance, provision of cover, financial briefing, Spanish language aptitude test and Spanish language training. Clandestine refresher training as deemed advisable.

Lynch - provision of cover, financial briefing, assessment and evaluation, language aptitude test and possible language training, and all basic Clandestine Operations training.

7. Project ZRJEWEL further provides that administrative responsibility for these employees including compensation, operational security, etc. will be transferred to the Operating Division for such periods of time as the employees are under the jurisdiction of the Division for operational duties. For administrative purposes, it is suggested that WH Division assume these responsibilities for both Robertson and Lynch as of 1 June 1961.

8. One of the major considerations in the contract employment of these two officers has been that their lack of association with the Agency, thus far, permits their operational utilization in circumstances

where staff employees cannot participate, and their long range continued employment is, to a certain extent, dependent on their being able to maintain this posture. It is requested, therefore, that you take every reasonable precaution to maintain their 'deniable' status.

9. Since the CA Staff will once again become responsible for these officers whenever such time may come that you no longer have a requirement for them, it would be very much appreciated if this office would be kept advised as to their standard of performance, acquisition of additional capabilities, by either training or experience, and we should be consulted before any changes or amendments are made in their contracts which might become commitments to be assumed by the CA Staff.

Mr. [redacted]

Dear Mr. [redacted]:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 10 February 1961, as amended. Effective [illegible], said contract, as amended, is hereby terminated by mutual consent of the parties thereto and in lieu thereof the following agreement is substituted.

The United States Government, as represented by the Contracting Officer, hereby contracts with you for your services as a Career Agent under the following terms and conditions:

1. Status. Your status is that of a Government employee under contract and, as such, your rights and benefits are governed by the provisions of this agreement. It is specifically understood that you are not entitled to rights and benefits pertaining to appointed staff status, except as provided herein.

2. Cover. In the performance of your services hereunder, you will act under cover suitable to conceal your relationship with the Government. It is expressly understood and agreed that any and all documents which you may execute in the course of such cover employment are subordinate to this agreement and any contradiction in terms which may in any way amplify, extend or restrict your rights and/or obligations hereunder shall be resolved by this agreement which shall always be dominant.

$11,155

3. Compensation and Taxes. For your services as a Career Agent, you will be compensated at a basic salary of ~~$11,000~~ per annum. You will be entitled to a post differential in conformance with applicable Government regulations. In addition you will be entitled to authorized overtime, within-grade promotions and legislative pay adjustments in substantial conformance with rules and regulations applicable to Government appointed personnel. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

4. Allowances. You will be entitled to: (a) living quarters allowances in conformance with applicable Government regulations. You may be provided quarters by your cover facility or the Government and, in such event, you will not be entitled to the living quarters allowances herein indicated.

(b) Cost of living allowances in conformance with applicable Government regulations including, but not limited to, a post allowance or an equalization allowance in lieu thereof, a supplementary post allowance, a transfer allowance, a home service transfer allowance, an education allowance and a separation allowance.

SECRET

5. Travel. You will be advanced or reimbursed funds for travel and transportation expenses for you, your dependents, your household effects and your personal automobile to and from your permanent post of assignment, and for you alone for authorized operational travel. In addition you will be entitled to storage of such household and personal effects as are not shipped, in conformance with applicable Government regulations. Upon the completion of each two (2) years of successful overseas service under this contract, you may be authorized travel expenses for you and your dependents from your permanent post of duty overseas to your place of recorded residence in the United States and return travel expenses to your permanent post of duty overseas. You will be entitled to per diem in lieu of subsistence in the course of all travel performed hereunder and, when authorized, for you alone while on temporary duty away from your permanent post of assignment. All travel, transportation and per diem provided for under this paragraph must be properly authorized, and expenses incurred hereunder are subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

6. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses including, but not limited to, entertainment and the purchase of information, as specifically approved by the Government or your cover facility. Such funds will be subject to payment and accounting in compliance with applicable Government regulations or according to the established policies of your cover facility, whichever is directed by the Government.

7. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

8. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U.S.C.A., App. 1001-1015).

(c) You will be entitled to sick and annual leave equal to and subject to the same rules and regulations applicable to Government staff employees. Such annual leave may only be taken at times and places approved in advance by appropriate representatives of the Government.

(d) From the salary paid pursuant to this contract there shall be deducted the appropriate rate percentage (presently 6 1/2%) for deposit and eventual crediting to the Civil Service Retirement Fund. When circumstances of your cover warrant or require contributions to social security, such contributions will be at your expense and you will not be reimbursed therefor by the Government.

(e) (1) This organization is authorized to pay the cost of necessary hospitalization and related travel expenses for illness or injury incurred by the U.S. Citizen full-time Career Agent in the line of duty while permanently assigned abroad.

(2) This organization may pay certain necessary costs of hospitalization and related travel expenses for illness or injury incurred by the dependents of a U.S. citizen full-time Career Agent permanently assigned abroad, while they are located abroad.

It is understood and agreed that the eligibility and extent of the participation by you and your dependents in the above medical programs will be in conformance with the rules, regulations and policies of this organization in effect at the time an illness or injury is incurred, that all claims will be submitted only to this organization and that adjudication of such claims by this organization shall be final and conclusive.

(f) You are herein authorized to apply for enrollment in a health insurance program for certain selected Career Agents in this organization, subject to all the terms and conditions of that program. If accepted, this organization is presently authorized to bear a portion of the premium cost, you will bear the remainder. Your financial contribution will be effected either by payroll deduction or by direct remittance at periodic intervals to be established by this organization.

9. Offset. Any and all compensation, allowances or other benefits (including benefits in kind) received from or through your cover activities will be used to offset amounts due you under this contract and will reduce accordingly the Government's direct payment obligation hereunder. Sums so offset are payment by the Government under this contract and for purposes of Federal income taxation. You will report every four (4) months during the term of this agreement all benefits received from or through your cover activities and, if such benefits exceed those due you under this contract, the report will be accompanied by said excess amount, which you hereby agree is the sole property of the Government. Failure to submit timely reports and, as appropriate, excess payments, may result in suspension of any payments due you hereunder. As an alternative to the above, the Government may at any time exercise its basic right to require payment over to it of the emoluments received by you from or through your cover activities which would otherwise be offset as described above. In such cases the Government will pay directly to you the emoluments called for by this contract.

10. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U.S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

11. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

12. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

13. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless released in

writing by the Government from such obligation), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

14. Term. This contract is effective as of 1 March 1961, and shall continue thereafter for an indefinite period unless sooner terminated:

(a) Upon ninety (90) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event initially required medical and security requirements for this contract cannot be met, or

(c) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

In the event of voluntary termination on your part or termination for cause by the Government while you are on an overseas assignment under this contract, you will not be entitled to the return travel expenses to the United States as set forth in paragraph five (5) above. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR THE RECORD

SUBJECT: Contract Negotiations with Mr. Grayston L. Lynch

1. After discussing the proposed contract for Mr. Lynch with Messrs. Earman, Collins, Barnes, King, Esterline, and others and obtaining their agreement that the proposed contract was a fair one, I met with Mr. Lynch on the morning of 24 May 1961. I outlined, in detail, to him at that time the many advantages accruing to him through the new contract over the previous contract. Mr. Lynch stated that he had not been fully aware of these benefits,that he was afraid he had given the wrong impressions to us with regard to his salary demands, and that he would be glad to sign the contract as offered.

2. Mr. Lynch signed the contract later in the morning.

3. I also had advised Mr. Lynch that Colonel King and Mr. Esterline had been requested to look into the possibility and desirability of obtaining for him a bonus award because of his services on the Project. I told him that they had agreed to look into this, that no promises could be made, and that any such award was a matter entirely outside the scope of his contractual arrangements and employment by this Staff.

4. I then called Mr. Earman and advised him of the above. Mr. Earman indicated that he was sure the Director would be very pleased to hear that a suitable agreement had been reached, but that the Director also would undoubtedly raise the question of the bonus award at some future date. I, therefore, undertook on behalf of Mr. Earman to re-raise the question of the award with Mr. Esterline early in the week of May 29, 1961.

9. COMMENT

a. During our first discussions with LYNCH 10 May 1961, on the question of salary, he stated that he would not accept a new contract at the rate of pay ($9,500) of his present contract, because the Director had promised that he would receive more; however, he would not give us a figure that he would accept. Before the new contract was written he was told that it would be for $11,000, and he voiced no objection. After the contract was written and presented to him for signature, he stated that he wanted $12,500, plus "hazardous duty pay", and that he wanted to take the contract to the Director for review.

b. At the time of his retirement, LYNCH was an Army Captain with 20 years service, and I understand that he was in jump status. Remuneration for this service was about $9,425 per annum, including all allowances. His present retirement pay is $281 per month, or $3,372 per year, and I understand that he would be authorized to retain this in addition to all pay and allowances received from an Agency contract.

MEMORANDUM FOR: Chief, WH/4/Personnel

SUBJECT : Recall of Captain Rydberg and Mr. Lynch for further Testimony

1. Mr. Eduardo Garcia, owner of the ships used in the JMATE operation, has requested a $250. bonus for each of the men employed by him. This is consistent with the bonus arrangement for all Cubans participating in the operation.

2. Chief, WH Division, has approved the payment of such a bonus to all Garcia personnel, except the survivors of the Rio Escondido. He is withholding approval for these personnel, pending a further investigation into alleged mutinous acts by the survivors, while aboard the Blagar. He has requested that additional information on this subject be obtained from both Captain Rydberg and Mr. Lynch.

3. It is requested that you contact Captain Rydberg and Mr. Lynch, and have them return to Washington at their earliest convenience for the purpose of giving further testimony in this regard.

MEMORANDUM FOR THE RECORD

SUBJECT: G.L. Lynch - ZRJEWEL

1. Lynch called today at 1200 noon. He said that he wanted to let me know that he was back, and to find out what had been done about his contract.

2. I told him that I had heard nothing since he had left. I said that before he left we had rather leaned over backwards to write a contract for him which he had not accepted; that instead he had taken the matter to the Director, and that I had then been requested to deliver a copy of the contract to the Director's office which I had done. I said that I had then acted as a messenger boy only, and had not discussed the matter at the Director's office, nor heard anything about it since.

3. Lynch said that he could fill me in from there. He said that at the Director's office the contract had been turned over to the Director's Executive Officer who was to review it and recommend a salary figure. Lynch said that he had agreed to accept whatever figure the Executive Officer recommended, and was told to call CA/C/PMG/Mr. Cox on his return.

4. I asked Lynch where he could now be reached, and he said that he was at Bob Moore's office on X-8912.

NOTE:

Since his precipitate meeting with the Director about 1730 hours on 16 May 1961, Lynch has not been heard from. Presumably he returned to his home in Fayetteville, North Carolina.

On 18 May 1961, CA/PMG had calls from the office of both WH/4 and C/WH asking if we knew of Lynch's whereabout, and whether we had a record of his Fayetteville address. The answer to both questions was negative. Subsequently his address was located in files and WH was informed.

Mr [redacted]

Dear Mr. [redacted]:

The United States Government, as represented by the Contracting Officer, hereby contracts with you as a Contract Employee for the use of your services and the performance of duties of a confidential nature under the following terms and conditions:

1. Compensation. In full consideration for the use of your services and the performance of specified confidential duties, you will be paid an amount calculated at the rate of $9500 per annum. In addition, you will be entitled to a post differential in conformance with applicable Government regulations. Payments will be made as directed by you in writing in a manner acceptable to the Government. Monies paid you directly or guaranteed by the Government under this paragraph constitute income for Federal tax purposes. You will be advised as to the method to be followed in reporting and paying such taxes. The method as well as the procedures used by this organization to implement its tax reporting responsibilities will be based primarily upon cover and security requirements. Unless precluded by such requirements, taxes will be withheld therefrom and submitted by this organization.

2. Travel. You will be advanced or reimbursed funds for necessary expenses incurred in connection with such operational travel as may be directed or authorized by the Government. This may include per diem in lieu of subsistence in the course of such travel and while on temporary duty away from your domestic permanent post of assignment. Payment and accounting for such expenses will be in conformance with applicable Government regulations.

3. Operational Expenses. You will be advanced or reimbursed funds for necessary operational expenses as specifically approved and financially limited by the Government. Such funds will be subject to payment and accounting in conformance with applicable Government regulations.

4. Repayment. It is recognized that your failure to account for or refund any monies advanced you hereunder shall entitle the Government to withhold the total amount of such indebtedness or any portion thereof from any monies due you under the terms of this contract in such manner as it deems appropriate.

5. Benefits. (a) You will be entitled to death and disability benefits equal to those authorized under the Federal Employees' Compensation Act, as amended. Claims by you, your heirs, or legal representatives under this paragraph will be processed by this organization in accordance with its procedures in such manner as not to impair security.

(b) You will be entitled to the continuance of pay and allowances in a manner similar to that set forth in the Missing Persons Act (50 U.S.C.A., App. 1001-1015).

(c) The United States Government will withhold from the compensation due you under this contract, social security deductions in conformance with the Social Security Act of 1935, as amended, and the procedures of this Organization (presently 3% on the first $4800). For reasons of security, all inquiries concerning your relationship to the Social Security system shall be made directly to this Organization, and in no event may any such problem be presented by you or on your behalf to any representative of the Bureau of Old Age and Survivors Insurance unless authorized by this Organization.

5. Funding. If necessary to protect the security of this arrangement, monies due you hereunder may be funded in other than a direct manner. It is understood and agreed that any monies so funded constitute payment by the Government in satisfaction of its obligations under this agreement.

7. Execution of Documents. If, in the performance of services under this contract, you assume the custody of Government funds or take title of record to property of any nature whatsoever and wherever situate, which property has in fact been purchased with monies of the U. S. Government, you hereby recognize and acknowledge the existence of a trust relationship, either express or constructive, and you agree to execute whatever documents may be required by the Government to evidence this relationship.

8. Secrecy. You will be required to keep forever secret this contract and all information which you may obtain by reason hereof (unless otherwise instructed by an authorized Government representative), with full knowledge that violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations.

9. Instructions. Instructions received by you from the Government in briefing, training or otherwise are a part of this contract and are incorporated herein, provided that such instructions are not inconsistent with the terms hereof.

10. Unauthorized Commitments. No promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

11. Term. This contract is effective as of 11 21-1961, and shall continue thereafter for a period of one (1) year unless sooner terminated:

(a) Upon thirty (30) days' actual notice by either party hereto, or

(b) Upon actual notice to you in the event the results of an initially required medical examination are determined by this organization to be unsatisfactory, or

(c) Without prior notice by the Government, in the event of a breach of this contract by your violation of the security provisions hereof or by your otherwise rendering yourself unavailable for acceptable service.

Subject to the availability of appropriations, this agreement may be extended upon notice from the Government. Termination of this agreement will not release you from the obligations of any security oath you may be required to take.

MEMORANDUM FOR: Chief, WH/4

SUBJECT: Assignment of Robertson and Lynch to WH Division

1. This is in response to your oral request for the transfer or assignment of Robertson and Lynch from this Staff to WH Division.

2. These employees were recruited as Career Agents under CA/PMG Project PRJEWEL, and therefore are to be administered in accordance with the terms of this Project.

3. Under the terms of Project ZRJEWEL, CA/C/PMG is responsible initially for their selection and recruitment, and subsequently for their training and developmental assignments until they are transferred to an existing operational project under jurisdiction of an operating division.

4. Selection and recruitment involves complete processing to contract under provisions of HB 20-1000-1, and requires also:

a. security clearances

b. Medical Clearances

C. provision of cover

d. Financial Briefing

e. Assessment and Evaluation

5. Training and development requires that subject to be provided tutorial or group training, according to their individual needs, to qualify them as senior PM Officers capable of serving overseas as case officer, instructors, advisers, or consultants; and capable of developing indigenous forces, directing operations, and personally participating in operations. The training envisioned normally would include, but not be limited to:

a. Language apititude testing and subsequent language training
b. Clandestine tradecraft
c. Paramilitary operations training
d. Covert Action Operations training and CI Familiarization

6. Although both subjects are now under contract, as of this time, of all of the above mentioned items of processing, training and development, the following yet remains to be done:

Robertson : Medical clearance, provision of cover, financial briefing, Spanish language aptitude test and spanish language training, Clandestine refresher training as deemed adviseable.

S E C R E T

C O P Y

Lynch - provision of cover, financial briefing, assessment and evaluation, language aptitude test and possible language training, and all basic Clandestine Operations training.

7. Project ZRJEWELL further provides that administrative responsibility for these employees including compensation, operational security etc. will be transferred to the Operating Division for such periods of time as the employees are under the jurisdiction of the Division for operational duties. For administrative purposes, it is suggested that WH Division assume these responsibilities for both Robertson and Lynch as of 1 June 1961.

8. On of the major considerations in the contract employment of these two officers has been that their lack of association with the Agency, thus far, permits their operational utilization in circumstances where staff employees cannot participate, and their long range continued employment is, to a certain extent, dependent on their being abot to maintain this posture. It is requested, therefore, that you take every reasonable precaution to maintain their "deniable" status.

9. Since the CA Staff will once again become responsible for these officers whenever such time may come that you no longer have a reqiore,emt fpr tje,. ot wpi;l be veru ,icj apprecoated of tjos office would be kept advised as to their standard of performance, acquisition of additional capabilities, by either training or experience, and we should be consulted before any changes or amendments are made in their contracts which might become commitments to be assumed by the CA Staff

FROM : Corinne L. Hassell/DRB

SUBJECT: LYNCH, Grayston L.

Per telephone request of Helen Ingraham/CI Staff, IR on Grayston L. Lynch is forwarded. I saw subject 2 November 1960 when he came in to follow up on his application dated 4 January 1960 when he was interviewed by Mr. Neil Doherty, then Chief/DRB. Subject returned to the United States in July 1960. He had served as Team Leader with the Laos Army where he ran a training center in FAO Vientiane. I told him Mr. Moore was working on something for him and that if it developed, he would be contacted. That was my last contact with Mr. Lynch.

His first area of interest is Europe/Germany but he would serve where ever assigned.

Looks like a good PM prospect for a training officer down below. Jungle warfare, escape and evasion are his specialities.

Will contact us when he returns from special six month assignment in Laos.
